RE: February 2021 Financial Condition Report

Finance Department

James M. Nicholson
Finance Director

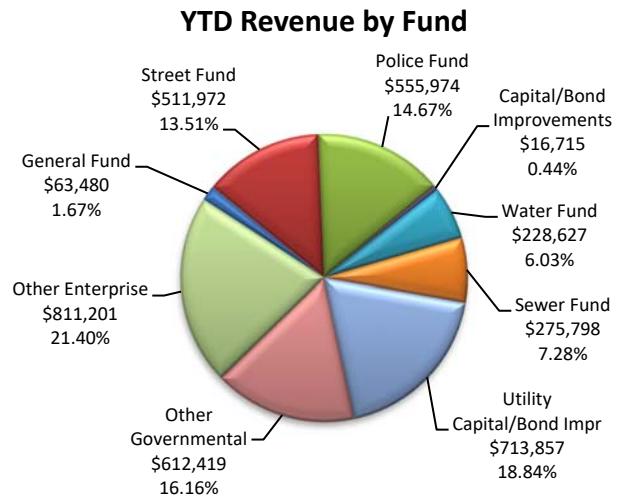

Janice A. Smith
Finance Manager

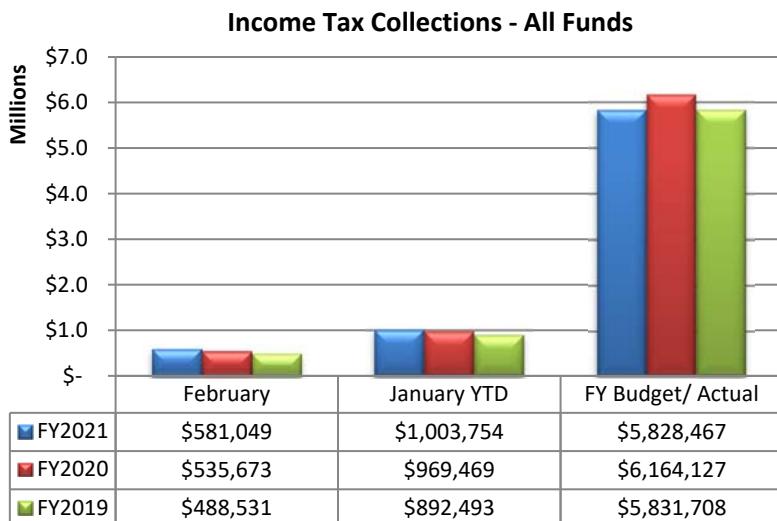

February was another busy month in the Finance department. During the month, we accomplished the following: (1) completed the development of most of the 2020 GAAP compilation worksheets - including updating the capital asset database, finalizing the accrued wage and benefit worksheets and compiling the construction in-progress as of 12/31/20; (2) responded to numerous requests for information from the internal control auditors; (3) assisted the Parks Manager in recruiting and hiring employees for the swimming pool and parks maintenance staff; (4) presented a 'Budget Basics' webinar for approximately 150 Ohio GFOA members; (5) participated in fact-finding with the FOP, including preparation of testimony and supporting documentation; and (6) prepared and submitted the capital lease paperwork required for the purchase of the Public Service department's dump truck.

The month of March will also be a very busy month. In addition to providing routine payroll and accounts payable services, we also plan to: (1) complete the development of the remaining 2020 GAAP conversion and CAFR-related schedules and reports; (2) support the auditor's on-site or virtual fieldwork; (3) work with the Administration and Council in their consideration of a potential income tax increase ballot issue to provide additional funding for the Police department; and (4) identify investment strategies to manage the city's investment portfolio in an extremely low interest rate environment. Please note that I will be on vacation the week of March 29th.

REVENUE/RECEIPTS

I am pleased to present this report on the financial condition of the city as of February 28, 2021. On a year-to-date (YTD) cash basis, the city has collected approximately \$3.79 million in total revenue from all sources, or 23.61% of the full-year budget. This total is overstated, however, due to \$1.19 million in interfund transfers made in January and \$251.5 thousand more in grant revenues than budgeted. This amount is partially offset, however, by property tax/TIF PILOT revenues of \$1.41 million not yet received. Excluding those items would result in a YTD collections rate that is equal to 16.21% of budget, much closer to the straight-line rate of 16.67%.

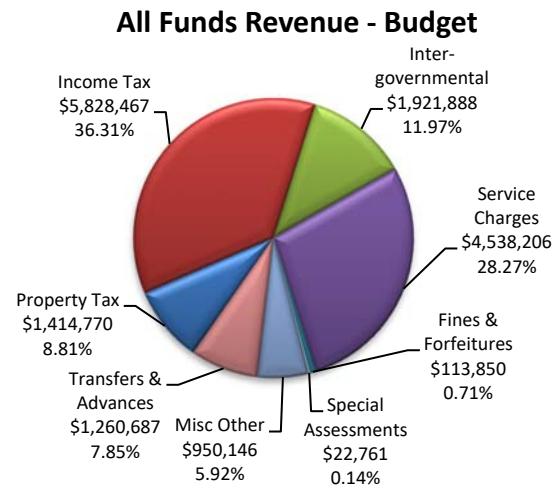

Income tax collections for the month of February were \$581.0 thousand (equal to 9.97% of budget) and were 8.47% higher than last year when compared to February 2020. Total year to-date collections are \$1.0 million (17.22% of budget) and, when compared to a February 2020 YTD total of \$969.5 thousand, are \$34.3 thousand (3.54%) higher. The full-year budget is currently projected to be \$5.83 million, a decrease of \$335.7 thousand, or 5.44% over FY 2020 collections. The 2021 revenue projections were developed in

early-Fall when the overall collections were significantly lower than where they ended the year. As a result, the forecast was understated given the overall higher rate of collections experienced in Q4-20. It is important to note that the February 2020 collections were equal to 15.73% of the full-year 2020 collections, and in 2019, the rate was equal to 15.30% of FY 2019 collections. We will monitor the revenue collections rate closely and will modify the projections once we have confidence in the increased collections rate.

The city has not yet received its' first-half 2021 property tax settlement (tax year 2020) from Licking County and will most likely not do so until either late-March or early-April. The 2021 budget in this line is \$1.41 million and is projected to be up by \$51.1 thousand (3.75%) from FY 2020 receipts.

Intergovernmental revenues represent one of the other more significant revenue categories for the city. They reflect funding received by the city from the federal, state and county governments. The revenues can come in the form of loans, grants or reimbursements. For 2021, a total of \$1.92 million is budgeted, with \$217.5 thousand of the total expected to come from grants and loans. Through February 28, approximately \$725.5 thousand has been collected (37.75% of the category budget). The significant variance is the result of receiving distributions in 2021 from the OWDA for the WRF facility improvement project. The 2020 budget assumed that all OWDA grant proceeds would be received in 2020, so the 2021 forecast will need to be increased to reflect the additional grant funding receivable.

Service charge revenues are another major revenue category for the city. As the title would imply, these revenues are received in exchange for providing services to residents, businesses and other customers. For 2021, approximately \$4.54 million is budgeted for total service charge revenues. Year to-date collections are \$776.0 thousand, or 17.10% of budget. The two-month total is down by \$10.3 thousand (1.31%) when compared to 2020. At \$4.12 million or 90.73% of the category budget, water and sewer usage fees represent the largest single component of this category. Usage fees collected through February 28 are

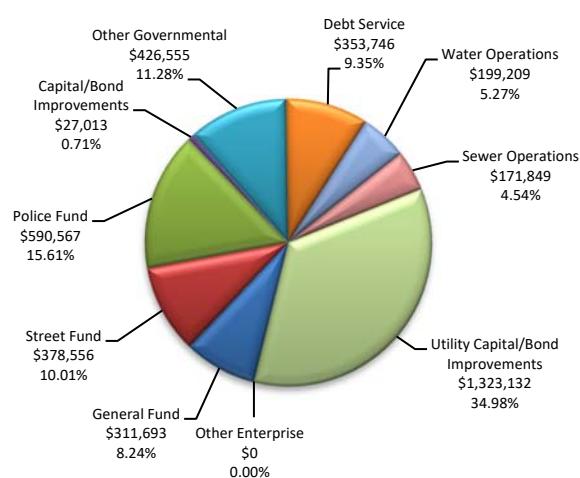

\$743.7 thousand, or 18.0% of the full-year budget in this line item.

EXPENDITURES/SPENDING

Although there are only two months on the books in 2021, early spending trends appear to be in-line with expectations. Excluding debt service expenses and interfund transfers in the calculation results in a spending rate equal to 13.49%, still below the straight-line rate of 16.67%. The lower than anticipated spending was the result of reduced spending on contractual services when compared to 2020. Including 2020 carryover encumbrances (e.g. purchase orders) as well as FY 2021-issued POs in the total results in a ratio of 51.63%. Many of these 2021 purchase orders encumber full-year spending and have the effect of overstating the impact of the encumbrances.

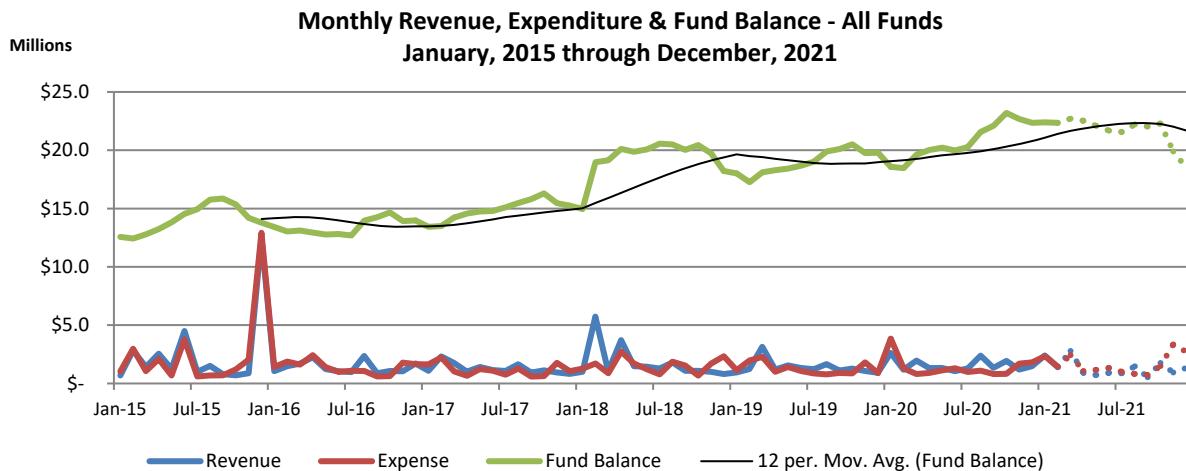

YTD Expenditures by Fund

(excludes encumbrances)

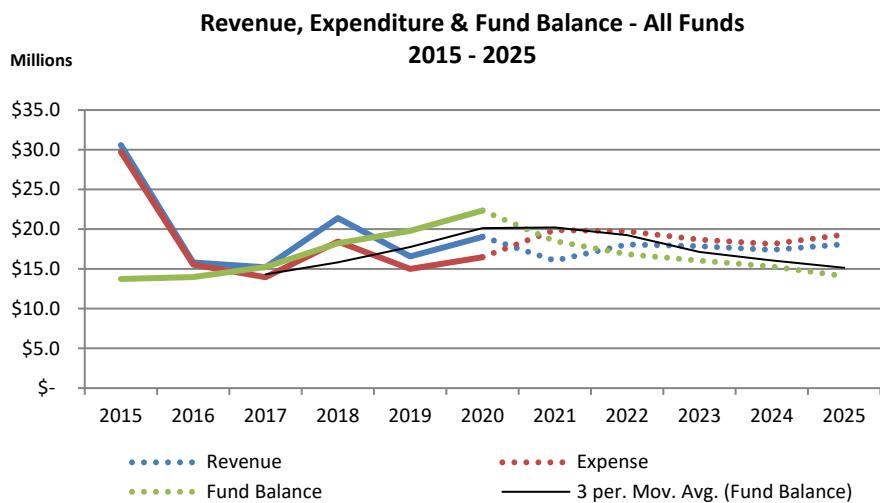

FUND BALANCE/FINANCIAL HEALTH

The chart below plots revenue, expenditures and fund balance since January 2015. The solid color lines represent actual numbers and any dotted lines reflecting the current forecast. A trend line has also been added to the chart to smooth out the periodic ups and downs and provide a smoothed trend of the fund balance over the time horizon of the chart.

Current projections call for the total all-funds balance to decline by \$3.85 million in 2021 (see chart at the top of the following page which has been updated to reflect the current 5-year forecast) to a total funds balance of about \$18.51 million. The year-end 2020 total fund balance was \$22.35 million, an increase of \$6.13 million (37.82%) over the budget which resulted from below-budget spending in 2020 (down \$6.17 million). From 2021 – 2025, however, the balance will decline every year during that period of time. This is due to expenditures either exceeding or being roughly equal to revenues in each of those succeeding years.

The General fund ended the month of February 2021 with an unencumbered balance of \$1.22 million and is down by \$836.8 thousand, or 40.63% from December 2020. The Street (201) fund is down by \$46.5 thousand (1.99%), and the Police (208) fund decreased by \$578 1 thousand (19.08%). The 2021 forecast

calls for these funds to end the year approximately 15-20% below where they ended 2020. As we go into the 2021, it is critical for the city to continue to closely monitor each of the key fund balances to ensure that adequate funding is available to provide the desired level of service to the community in the future. Maintaining adequate reserves to ensure ongoing operations

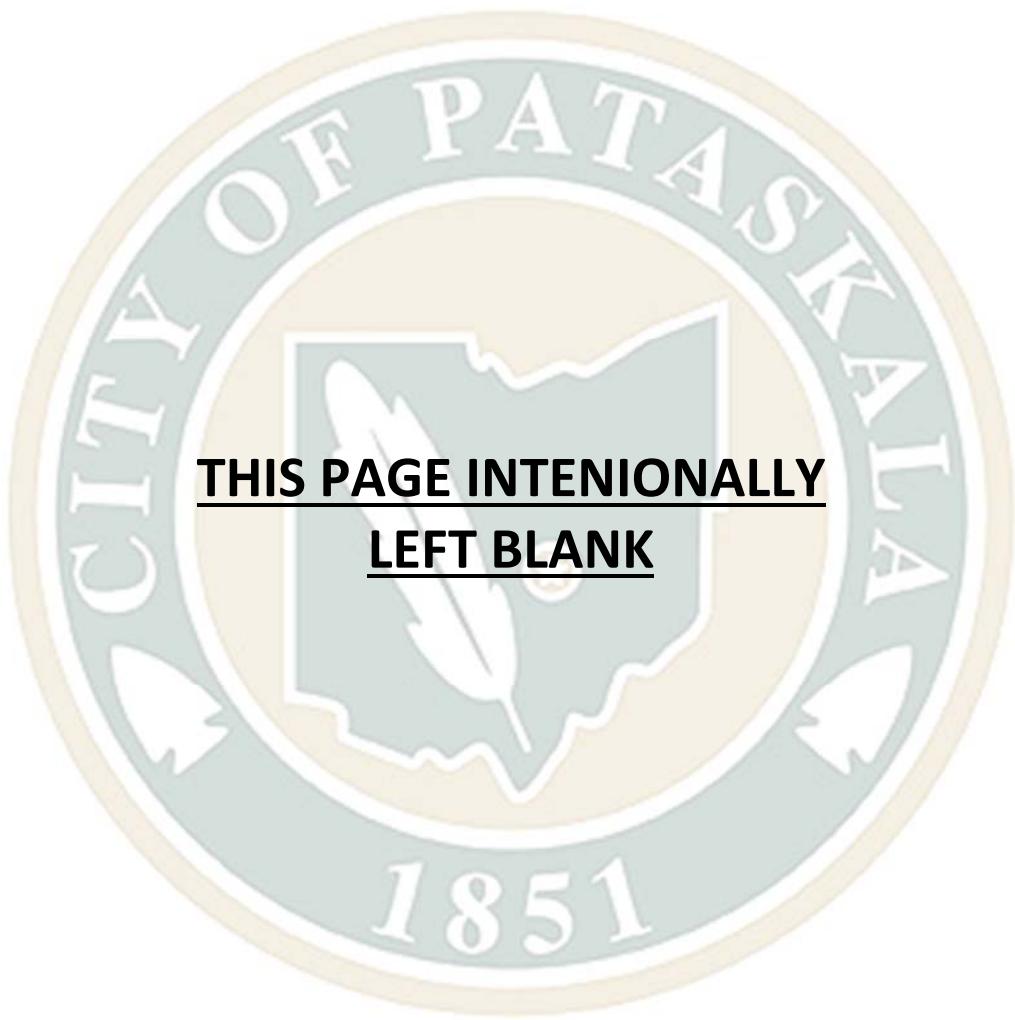

and the ability to service our debt are just some of the factors that the ratings agencies consider when evaluating the city's overall fiscal health, and it's a 'best practice' in the public finance profession. We will also be working to reduce and manage the spending side of the equation in order to minimize the need to draw from existing reserves.

I am providing this summary analysis to facilitate a better understanding of the sources of all city revenues, the status of collections to-date and available fund balances. The report will now turn its focus to each of the primary governmental and enterprise funds of the city: 101 – General Fund; 201 – Street Fund; 208 – Police Fund; 301 – Capital Improvements; and 601/651 – Water and Sewer Operations funds.

Respectfully submitted,

CITY OF PATASKALA, OHIO

General Fund (101)

Revenue – On a year to-date-year basis, the general fund has been credited with total revenue of approximately \$63.5 thousand, which represents 3.56% of budget. When compared to a straight-line rate of 16.67%, it is clear that general fund revenues through February 28th are running behind budget. The timing of when the city receives its semi-annual property tax settlements, however, does skew the total. Eliminating the impact that the property tax receipts have in the calculation, the total is running at 10.29%, or approximately 6.4% below budget.

**General Fund Revenue
Budget by Source**

**General Fund Revenue
Budget vs YTD Actual**

The largest revenue source for the general fund is property taxes, which accounts for 65.38% of the 2021 general fund revenue budget. The 2021 budget for this category is projected to be \$1.16 million and would be up by \$47.8 thousand (4.28%) when compared to 2020 full-year collections. To-date, however, the general fund has not yet received any property tax revenues from the Licking County Treasurer and would not anticipate doing so until late-March or early-April.

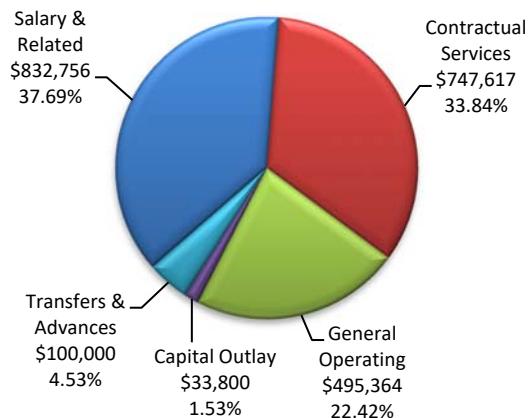

Service charge revenues represent the second largest revenue category for the general fund. These revenues are received in exchange for providing services to residents, businesses and other customers including building licenses/permits, and other miscellaneous permits. The 2021 budget in this category is \$252.8 thousand (14.19% of budget). Through February 28, the city has received only \$20.3 thousand (8.02% of budget) and is up by \$10.1 thousand (100.3%) from FY 2020. The variance is the result of increased requests for permits from the city in 2021 (up \$3.5 thousand) and increased variance applications and zoning permit requests (up \$6.7 thousand).

Intergovernmental revenue is the next major general fund revenue source. It reflects funding received by the city from the federal, state and county governments. The revenues can come in the form of loans, grants or reimbursements. For 2021, it is projected to account for approximately \$208.0 thousand (11.67% of total fund budget). This category consists of the following revenue items: local government distributions, property tax rollback/homestead exemption reimbursements from the state; electric utility income tax reimbursement; and cigarette/liquor taxes and fees. On a year to-date basis, the fund has received \$20.5 thousand in this category (9.88% of budget) and is up by only \$0.8 thousand (3.95%) when compared to the same two-month period in 2020.

Fines and forfeitures revenue represent the other major revenue category for the general fund. The 2021 budget in this category is \$102.9 thousand (5.77% of budget) and consists of fines and forfeitures generated by the operation of the city's Mayor's Court, as well as other state-generated fines. Through February 28, the city has received \$6.6 thousand in this category, which represents 6.46% of budget. Compared to the same two-month period in 2020, the total is down by \$5.7 thousand, or 46.39%. The primary driver of the decline is the reduced revenue generated by the Mayor's Court.

Expenditures – The general fund has a total appropriated expenditure budget for 2021 of approximately \$2.21 million. Total spending through February 28 is \$311.7 thousand and is equal to 14.11% of the budget. Including encumbrances (e.g., purchase orders) of \$819.1 thousand (but excluding transfers) in the total results in a total ratio equal to 48.86% of budget. Most of the encumbered balances represent full-year purchase orders which tend to overstate the impact. Compared to the same two-month period in 2020 (and excluding transfers), the total is down by \$103.0 thousand (32.73%).

**General Fund Expense Budget
by Category**

**General Fund Spending
Budget vs YTD Actual
(excludes encumbrances)**

Salaries, wages and other employee-related costs represent the largest expense category, with a 2021 budget of \$832.8 thousand, or 37.69% of the general fund budget. Spending through February 28 was \$116.3 thousand, or 13.97% of budget. The positive variance (\$22.5 thousand above budget) was primarily the result of there being three (3) pay periods (versus the usual two pay periods) in January 2020 that didn't recur in 2021.

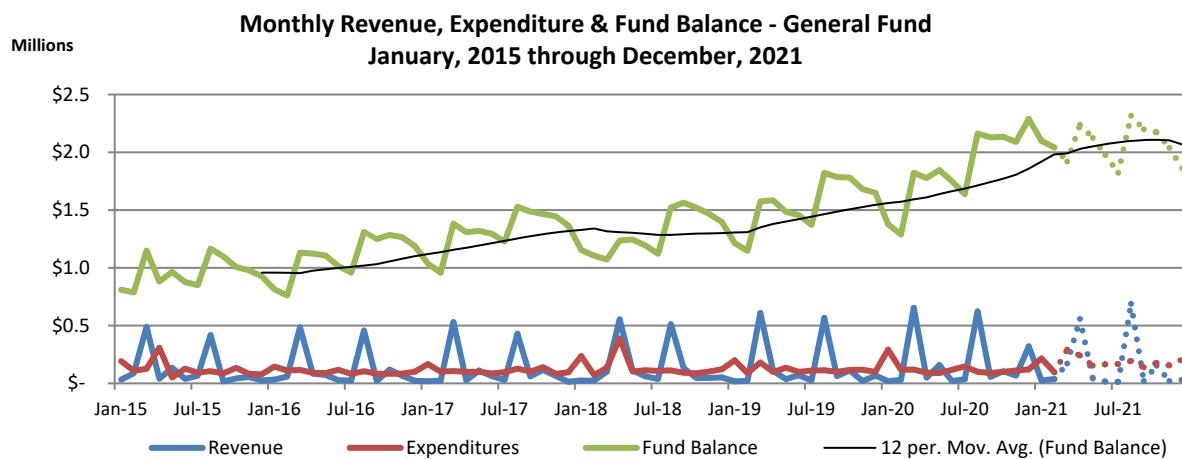

Contractual services is another major expense category in the General fund. The 2021 budget in this category is \$747.6 thousand (33.84% of budget) and provides for non-employee personal services, such as legal, audit and engineering services. Spending through February 28 is \$54.3 thousand (7.26% of budget). Including encumbrances (e.g. purchase orders) of \$421.3 thousand in the total, 63.62% has been either spent or committed to be spent. It is important to note that much of the spending in this category does not tend to follow a linear path; rather, it is typically disbursed in large 'chunks' to the vendors and consultants when the services are provided. We monitor this category closely to ensure that spending remains within budget.

General operating expenditures is another significant expense category in the general fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2021 budget of \$495.4 thousand, or 22.42% of the fund's budget. Year

to-date 2021 spending in this category is \$41.1 thousand and is equal to 8.29% of budget. Including encumbrances in the calculation, the total spent or committed is \$286.8 thousand, or 57.89% of budget. Spending in this category is down by \$7.5 thousand (15.52%) from the same two-month period in 2020.

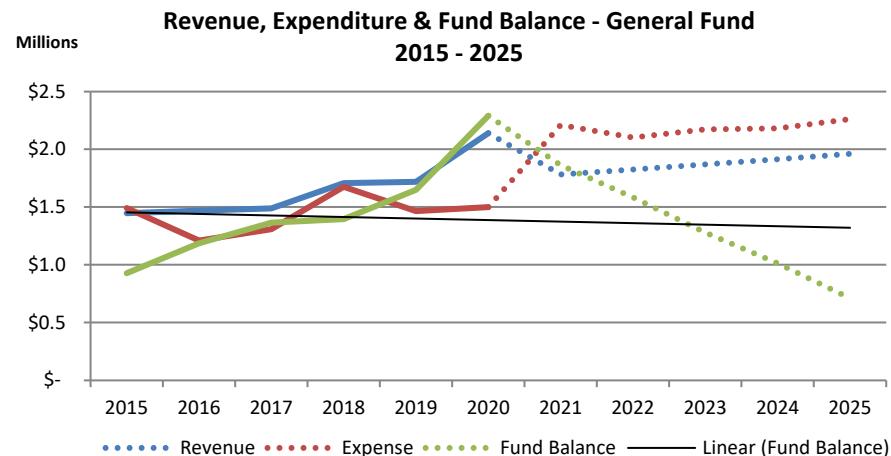

The approved 2021 budget in the general fund includes \$100,000 in interfund transfers to the Recreation (206) fund to provide additional funding for recreational programming. This is a slight increase from FY 2020 which had a total of \$95,000 in interfund transfers. The 2021 transfers were made on the accounting system during the month of January.

Fund Balance – The general fund is the primary operating account for the city from which expenses, other than those associated with the Street, Police and Debt Service functions, are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues, or during periods of greater than typical spending. Evaluating the fund balance (and the related revenues/expenses) is a valuable exercise, in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

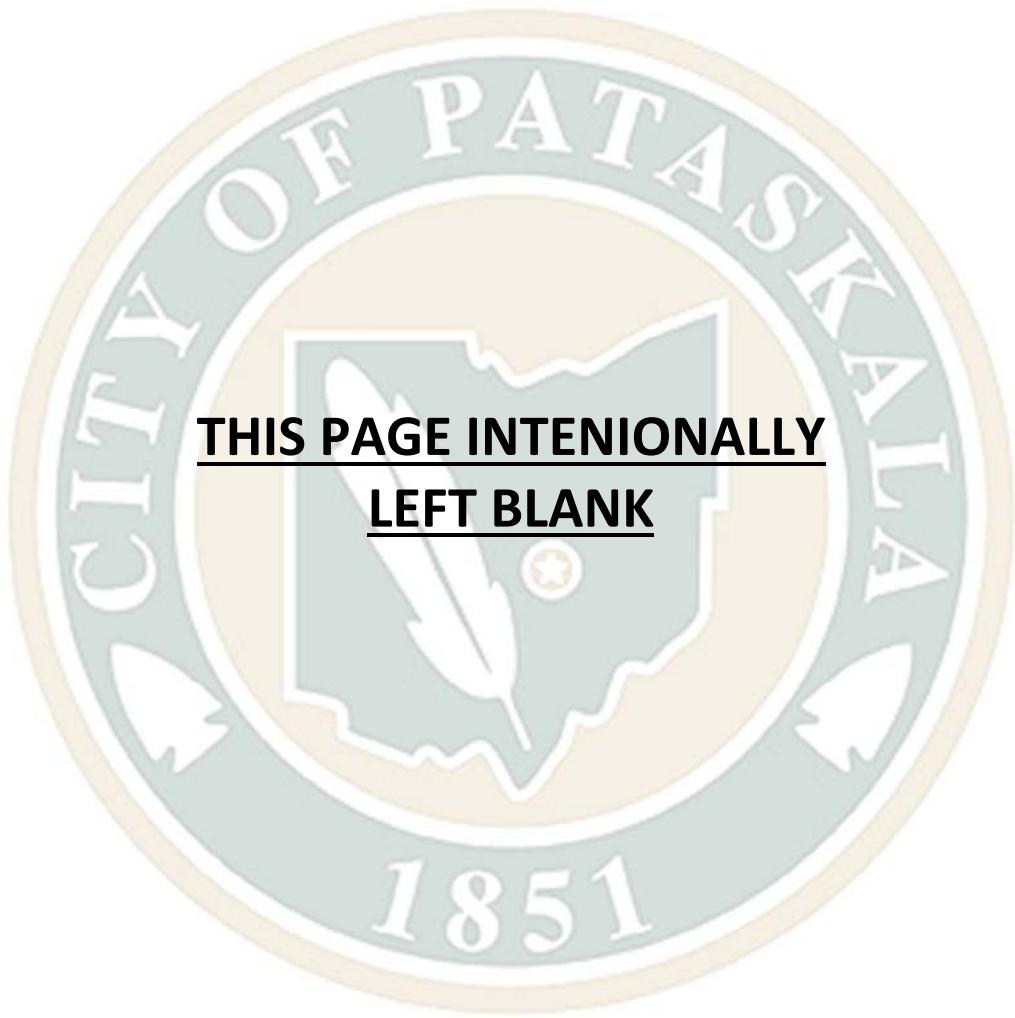

The chart above plots revenue, expenditures and fund balance on a monthly basis since January 2015. The solid color lines represent historical numbers, and any dotted lines representing projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs and provide a smoothed trend of the fund balance over the time horizon of the chart. Since 2015, the fund has generally been on an upward trajectory. The approved 2021 budget would have the fund declining by \$440.2 thousand (19.22%) if 100% of the projected revenue was collected and 100% of appropriations spent. The major spikes in revenue (typically March & August) represent the receipt of the semi-annual property tax settlements. The April 2015 and April 2018 spikes reflect interfund transfers of \$200 and \$250 thousand, respectively, to the Capital Improvements fund.

As you can see from the chart at right, fiscal years 2016 through 2020 were very positive for the general fund balance, even

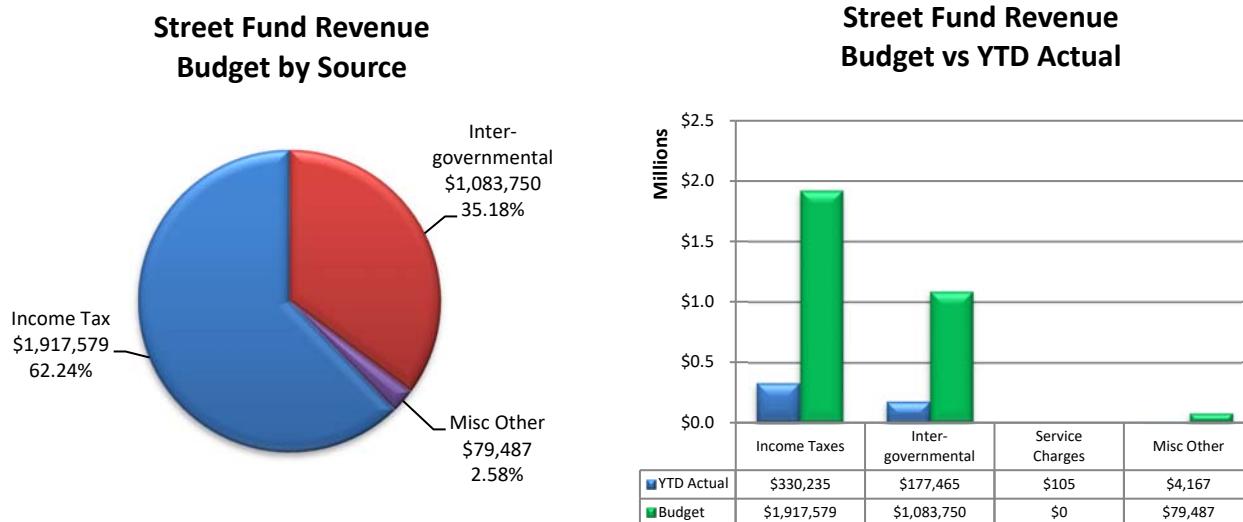

though the fund had been generally declining over the prior several years. This improvement was due to both reduced spending and increased revenues received during the year. Of note, the fund received nearly \$300 thousand in BWC rebates in 2020 and spending in the 2016 - 2020 period was less than revenue received which resulted in the increasing fund balance. The fund is projected to be unable to maintain this positive trend in 2021 as the current forecast calls for deficit spending in each future year through 2025. The result of this is a declining fund balance in all future years. This chart has been updated with the approved 2021 budget data and the forecast through 2025. Based upon the numbers, the fund balance is currently projected to be \$710.3 thousand at the end of FY 2025 and would reflect a carryover balance ratio of 31.40% which is within the 25-35% target range in the city's fund balance policy.

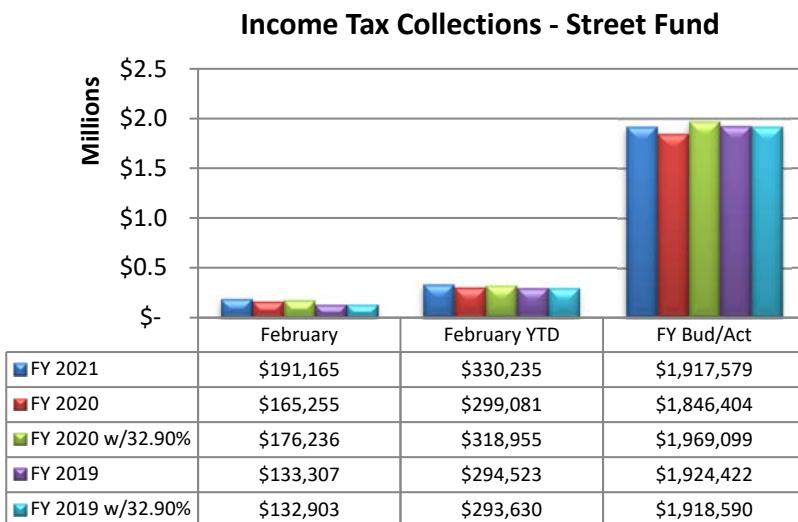

Street Fund (2021)

Revenue – The Street Fund has a 2021 revenue budget of approximately \$3.08 million with the fund's primary revenue sources being income taxes and intergovernmental revenues. On a year to-date basis, the Street fund has been credited with total revenue of approximately \$512.0 thousand, which represents 16.62% of the full-year budget. Total revenue to-date is up by \$7.6 thousand (1.50%) from the same two-month period in 2020.

Income tax collections in February were \$191.2 thousand and represent 9.97% of the 2021 budget. Collections are up by \$25.9 thousand (15.68%) when compared to the same period in 2020. Year to date income tax revenues credited to the fund are \$330.2 thousand and represent 17.22% of budget. In comparison, collections through February 2020 were \$299.1 thousand, and were equal to 16.20% of the 2020 full-year collections. In 2019, the rate was equal to 15.30% of full-year collections. The increase in the fund's 2021 allocation rate from 30.85% to 32.90% had the effect of increasing the revenue credited to the fund by \$6.8 thousand. The increased level of total collections through February resulted in an increase of \$24.4 thousand. The net impact of these variances is the overall increase in fund revenue of \$31.2 thousand. The green and light blue bars in the chart to the right reflect the revenue that would have been allocated to the fund had the percentage not been modified. Taking the different allocation rates into consideration, the fund would have received \$11.3 thousand (3.54%) more in 2021 than 2020 had the allocation rate not been changed, and collections would have been \$36.6 thousand (12.47%) lower than 2019 collections.

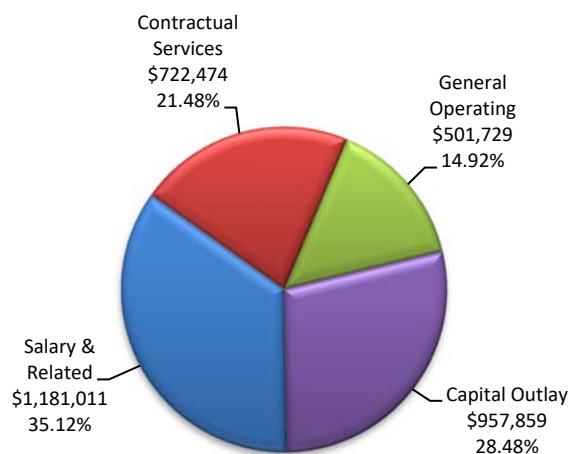

Intergovernmental revenues in the Street fund are budgeted at \$1.08 million and represent 35.18% of the fund's revenue budget. They reflect funding received by the city from the federal, state and county governments. This category is comprised of state-shared (e.g., permissive) taxes, and grants/loans from other governmental agencies. On a year to-date basis, the city has received \$177.5 thousand in this category (16.38% of budget) which is down by \$14.0 thousand (7.33%) from the same two-month period in 2020.

The other category, Other Sources, is budgeted at \$79.5 thousand and represents only 2.58% of the total fund revenue budget. To date, the city has received \$4.2 thousand (5.24% of budget), which is down by \$9.5 thousand (69.59%) from the same two-month period in 2020.

Expenditures – The Street fund has a total appropriated expenditure budget for 2021 of approximately \$3.36 million. Total spending through February 28 was \$378.6 thousand and is equal to 11.26% of budget. The lower than anticipated spending rate is the result of below budget spending in all budget categories. Including encumbrances of \$734.5 thousand in the total (but excluding transfers) results in total fund spending equal to 33.10% of budget. Compared to year to-date 2020 (and excluding transfers), the total is down by \$1.07 million (73.83%) and is the result of paying invoices from 2018 construction projects in January 2020 which didn't recur in 2021.

Street Fund Expense Budget by Category

Street Fund Spending Budget vs YTD Actual

(excludes encumbrances)

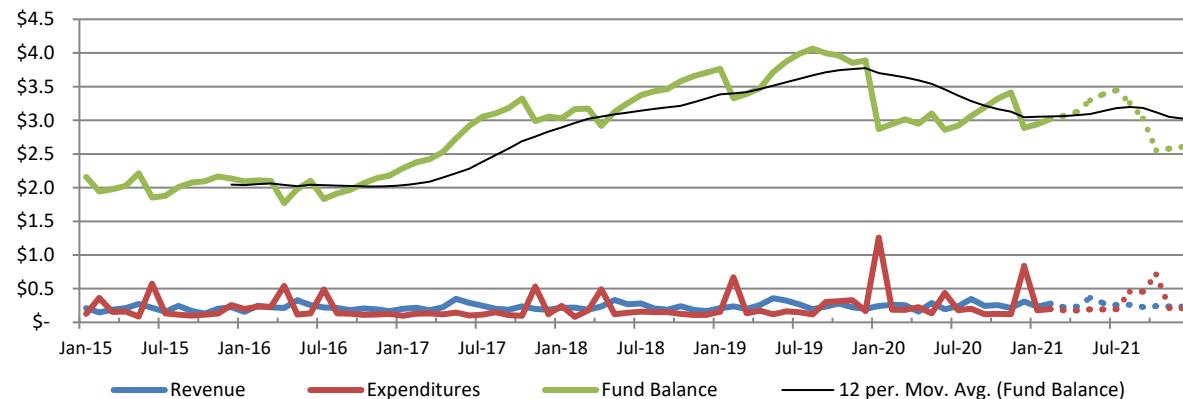

Salaries, wages and other employee-related costs is the largest expense category in the Street fund with a 2021 budget of \$1.18 million, or 35.12% of the fund's budget. Spending through February 28 was \$169.9 thousand, or 14.38% of budget. The positive budget variance (\$27.0 thousand below budget) is primarily the result of the early funding of employee HRA accounts in 2021 being lower than the straight-line rate. Spending in this category is down by \$12.8 thousand (8.15%) from the level in 2020 and is also the result of there being three (3) pay periods (versus 2) in January 2020 that didn't recur in 2021.

Spending on capital projects and equipment represents the next major expense category in the Street Fund with a 2021 budget of \$1.0 million, or 28.48% of the fund's budget. The budget provides funding for street and roadway infrastructure maintenance and related equipment. Spending through February 28 was \$97.3 million, or 10.15% of budget. The positive variance to budget is the result of planned infrastructure improvement projects that won't begin until Spring or later. Including encumbrances (e.g., purchase orders) in the total results in a spending commitment equal to \$247.2 thousand, or 25.81% of budget.

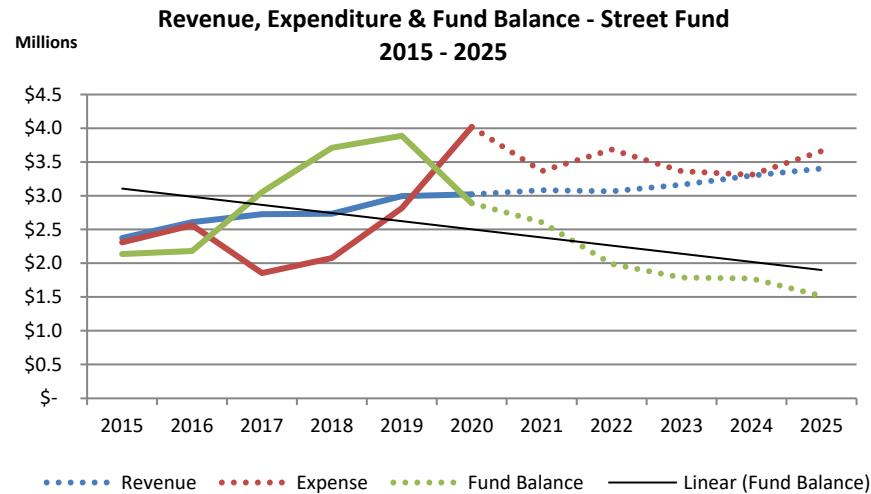

General operating expenditures is another significant expense category for the Street fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2021 budget of \$501.7 thousand, or 14.92% of the fund's budget. Spending through February 28 was \$46.7 thousand, or 9.31% of budget. Including encumbrances in the calculation, total spending is \$166.4 thousand, or 33.16% of the budget. Spending in this category is down by approximately \$5.0 thousand (9.66%) when compared to the same two-month period in 2020.

Fund Balance – The Street fund is the primary operating account for the city from which expenses associated with the maintenance of the city's streets, roads and rights-of-way are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues, or periods of greater than typical spending. Evaluating the fund balance, revenues, and expenses is a valuable exercise, in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

Monthly Revenue, Expenditure & Fund Balance - Street Fund
January, 2015 through December, 2021

The chart above plots revenue, expenditures and fund balance monthly since January 2015. The solid color lines represent actual numbers, and the dotted lines represent future projections. A trend line has also been added to the chart to smooth out the periodic ups and downs and provide a smoothed trend of the fund balance over time. The expense spikes, particularly in February 2019, January 2020 and December 2020 are the result of paying high-dollar invoices related to construction projects. Other than those items, revenues and spending have been closely matched. Since January 2015, revenues have generally equaled or exceeded expenses, except for large-dollar progress payments on capital improvement projects. In 2021, however, the fund balance is projected to decline by \$282.3 thousand (9.77%) due to planned roadway and infrastructure improvement projects expected to be completed in 2021. This balance represents a carryover ratio of 77.52% which is above

the 25-35% target per city policy.

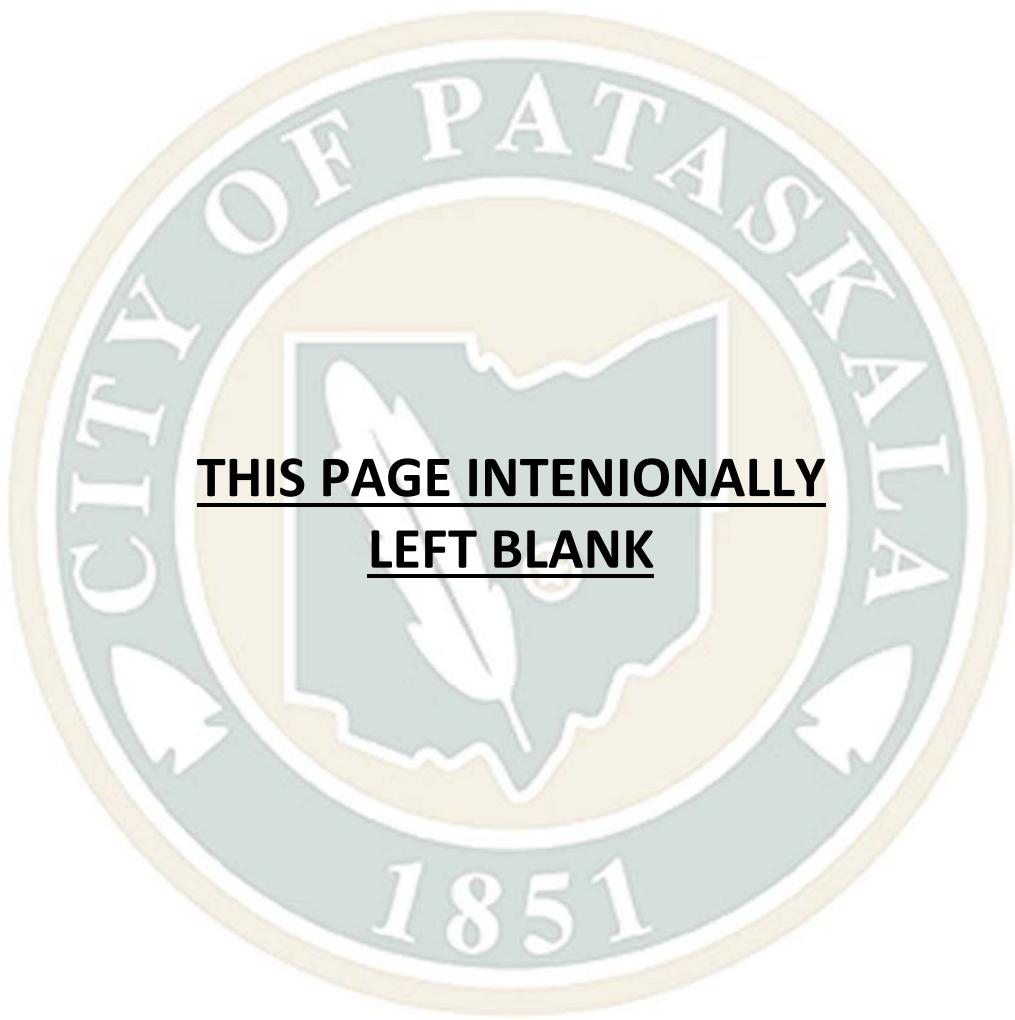

As you can see from chart at the bottom of the previous page, which has been updated with the proposed 2021 budget data through 2025, the balance of the Street fund increased significantly from 2016 – 2019 but dramatically declined in 2020 due to increased approved capital spending. However, current projections also call for the fund balance to continue to decline in 2021. From 2022 and beyond, the fund balance remains somewhat stable between \$1.52 and \$1.99 million. The 2025 year-end carryover balance is currently projected to be 41.41% of planned spending which is slightly higher than policy.

CITY OF PATASKALA, OHIO
2021 REVENUE BUDGET ANALYSIS - Street Fund (201)
THROUGH FEBRUARY 29, 2021

| Row Labels | Year To-Date | Budget | Uncollected Balance | Permanent Budget | Revenue Adjustments |

Police Fund (208)

Revenue – The fund's primary revenue sources are income taxes and other sources, and it has a 2021 total revenue budget of \$3.31 million. On a year-to-date basis, the Police Fund has been credited with total revenue of approximately \$556.0 thousand, which represents 16.77% of budget. Total revenue to-date is \$11.9 thousand (2.18%) higher than that collected during the same two-month period in 2020. The primary cause of the increase is the somewhat higher overall level of income tax collections in 2021, as well as the fund receiving a greater portion of the tax revenues than in 2020 (55.0% vs 54.15%).

**Police Fund Revenue
Budget by Source**

**Police Fund Revenue
Budget vs YTD Actual**

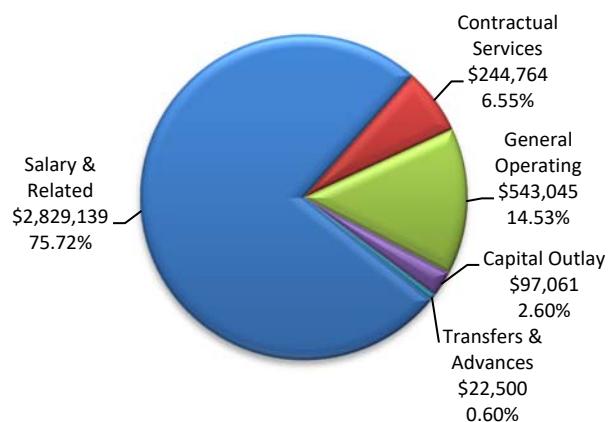

Income tax collections in February were \$319.6 thousand and represent 9.97% of the 2021 budget. Collections are up by \$25.0 thousand (8.47%) when compared to the same period in 2020. Year-to-date income tax revenues credited to the fund are \$552.1 thousand and represent 17.22% of budget. In comparison, collections through February 2020 were \$533.2 thousand, and reflected 16.06% of the 2020 full-year collections. In 2019, the rate was equal to 15.29% of full-year collections. As the allocation rate wasn't changed in 2020 until April, the overall increased level of collections through February resulted in an increase of \$18.9 thousand (3.54%). The green and light blue bars in the chart to the right reflect the revenue that would have been allocated to the fund had the percentage not been modified. Taking the different allocation rates into consideration, the fund would have received the same in 2021 as in 2020 since the allocation rate not been changed, and collections would have been \$61.2 thousand (12.47%) higher than the 2019 collections.

The other significant revenue category, Other Sources, is budgeted at \$96.1 thousand, and represents only

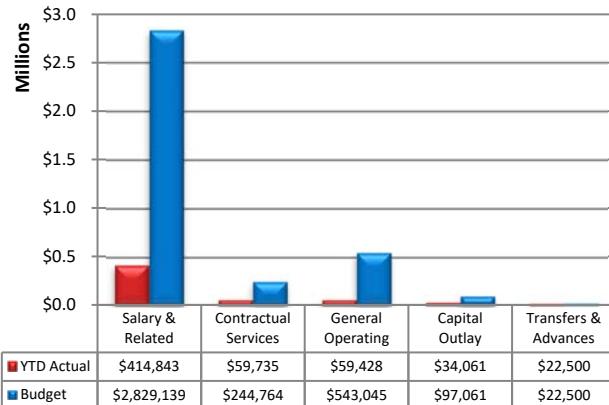

2.90% of the total fund revenue budget. To date, the city has received \$3.9 thousand (4.01% of budget) and is down by \$5.7 thousand (59.87%) from the same two-month period in 2020.

Expenditures – The Police fund has a total appropriated expenditure budget for 2021 of approximately \$3.74 million. Total spending through February 28 is approximately \$590.6 thousand and is equal to 15.81% of budget. Excluding interfund transfers of \$22.5 thousand, total spending is equal to 15.30% of budget. Including encumbrances (e.g., purchase orders) of \$734.1 thousand in the total results in total spending equal to 35.06% of budget. Compared to the same two-month period in 2020 (and excluding transfers), the total is down by \$33.6 thousand (5.58%) and is primarily the result of reduced spending in the Salary & Related and Contractual Services budget categories, partially offset by increased capital spending.

**Police Fund
Expense Budget by Category**

**Police Fund Spending
Budget vs YTD Actual
(excludes encumbrances)**

Salaries, wages and other employee-related costs represent the largest expense category with a 2021 budget of \$2.83 million, or 75.72% of the fund's budget. Spending through February 28 was \$414.8 thousand, or 14.66% of budget. Spending in this category is down by \$55.6 thousand (11.83%) from the level in 2020 and is primarily the result of there being three (3) pay periods paid in January 2020 versus the two (2) paid in 2021.

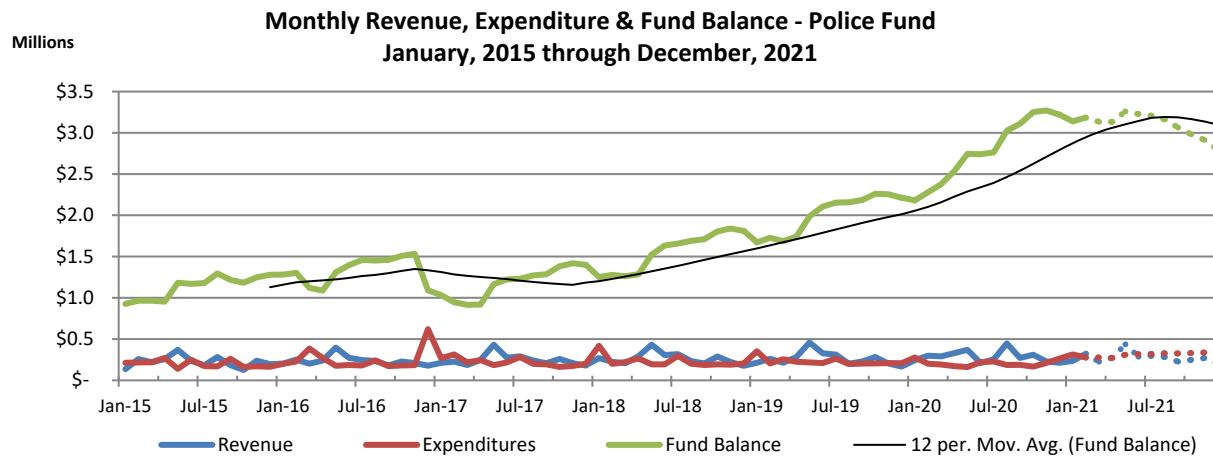

General operating expenditures is the next major expense category in the Police fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2021 budget of \$543.0 thousand, or 14.53% of the total fund expenditure budget. Year to-date spending in this category is \$59.4 thousand, or 10.94% of budget and is up by \$5.8 thousand (10.86%) from the same two-month period in 2020.

Spending on capital equipment is another significant expense category in the Police fund. The 2021 budget in this category is \$97.1 thousand (2.60% of budget) and provides funding for the acquisition of Police cruisers, law enforcement-related equipment and other capital improvements. Year to-date spending in this category is \$34.1 thousand (35.09% of budget) and is up by \$23.9 thousand (234.3%) from the same two-month period in 2020.

The approved 2021 budget in the Police fund includes an interfund transfer of \$22.5 thousand. The purpose of the transfer is to provide funding to the Debt Service (401) fund to meet the department's financial

obligations on the LGIF loan for the construction of the MARCS tower. This transfer was completed during the month of January.

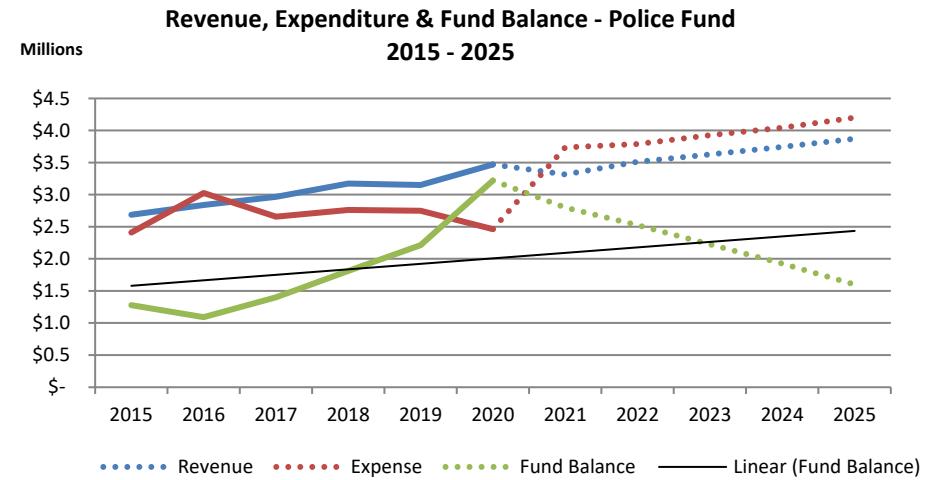

Fund Balance – The Police fund is the primary operating account for the city from which expenses associated with the operation of the city's Police department are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues or periods of greater than typical spending. Evaluating the fund balance, revenues, and expenses is a valuable exercise, in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

The chart above plots monthly revenue, expenditures and fund balance since January 2015. The solid color lines represent actual numbers, and the dotted lines represent projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs and provide a smoothed trend of the fund balance over the time horizon of the chart.

As you can see from the chart above, the balance in the Police fund has been fluctuating up and down since January 2015 but has seen growth since early-2017. In general, revenues and expenditures have been closely matched. The spike in December 2016 spending was the interfund transfer of \$400,000 to the Capital Facilities fund related to the construction and outfitting of the new Police station.

Current projections called for the balance to decline in starting in 2021 and continuing to do so through 2025 (see chart at right). However, the fund ended 2020 at a balance of \$3.22 million or \$1.25 million better than projected. The primary cause of the favorable balance was the fund receiving nearly \$700 thousand in CARES Act funding for Police wages. The carryover balance at this point reflects a reserve ratio of 74.89%. The fund is projected to decline annually through 2025 when it has a year-end balance of \$1.60 million, where it will have a 38.03% carryover balance. This is very slightly above

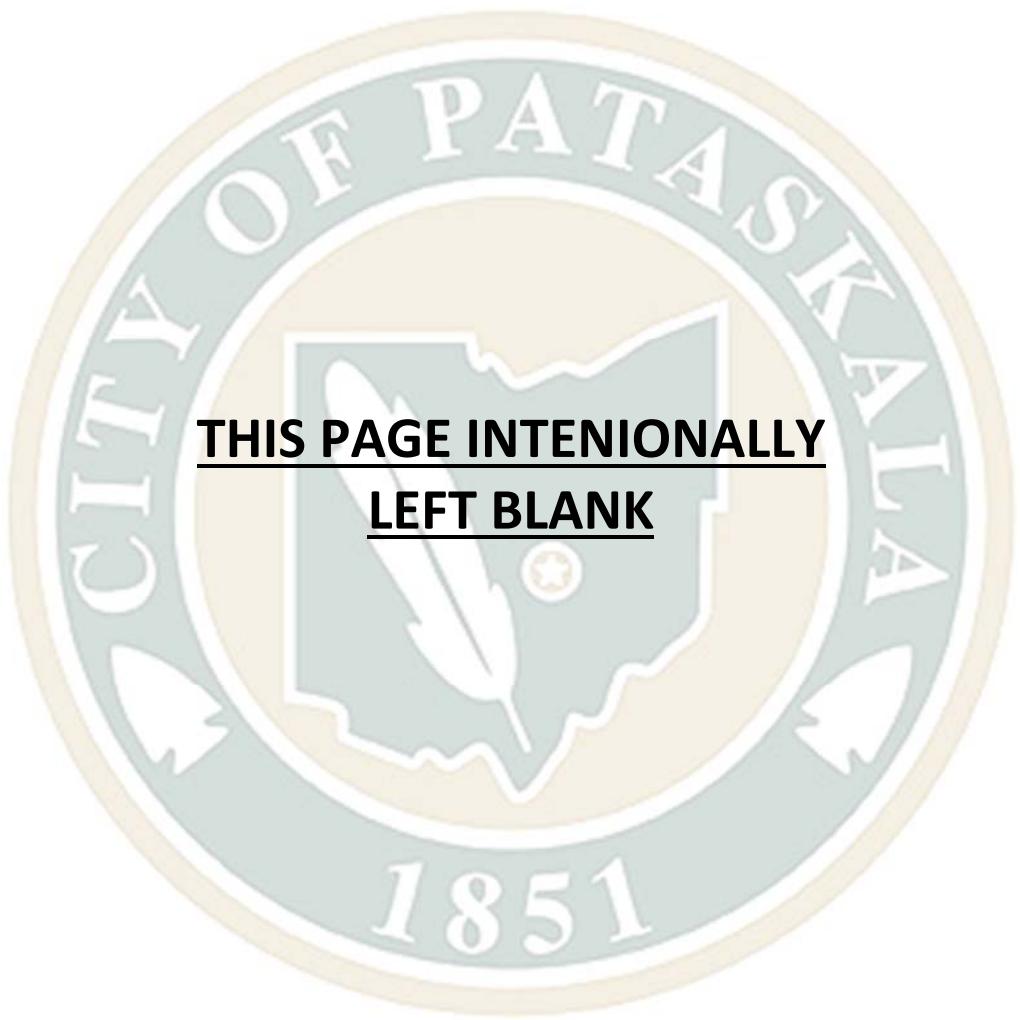

the top-end of the 25-35% target range. The chart has been updated with the approved 2021 budget data through 2025.

Capital Improvements Fund (301)

Revenue – The Capital Improvements Fund has a 2021 revenue budget of approximately \$102.1 thousand. The fund's primary revenue sources are income taxes, intergovernmental revenues and interfund transfers. On a year-to-date basis, the Capital Improvements fund has been credited with total revenue of approximately \$16.7 thousand, which represents 16.36% of budget. The two-month total is somewhat lower than budget and is due to below-budget other source revenues. The fund is slated to receive a 1.50% allocation of income tax revenues in 2021, which is down from the 1.75% allocation rate to the fund in 2020.

**Capital Improvements Fund
Revenue Budget by Source**

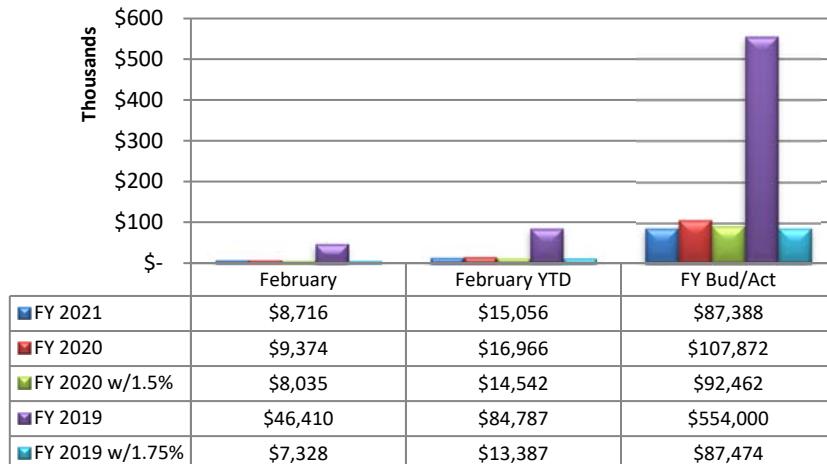

**Capital Improvements Fund Revenue
Budget vs YTD Actual**

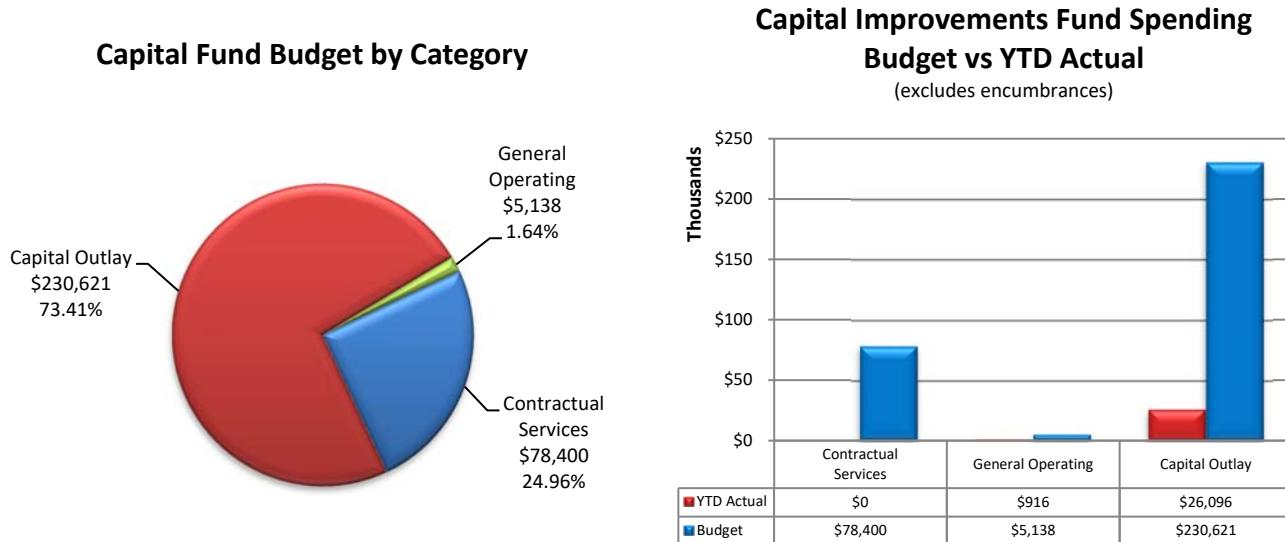

In 2021, income taxes are the primary external revenue source for the Capital Improvements fund representing 85.56% of the fund's total revenue sources. Income tax collections in February were \$8.7 thousand and represent 9.97% of the 2021 budget. Collections are down by \$0.7 thousand (7.3%) when compared to the same period in 2020. Year-to-date income tax revenues credited to the fund are \$15.1 thousand and represent 17.23% of budget. In comparison, collections through February 2020 were \$17.0 thousand, and reflect 15.73% of the 2020 full-year collections. In 2019, the rate was equal to 15.30% of full-year collections. The decrease in the fund's 2021 allocation rate from 1.75% to 1.50% had the effect of reducing the revenue credited to the fund by \$2.5 thousand. The overall higher level of collections through February resulted in an increase of \$0.7 thousand. The net impact of these variances is the overall increase in fund revenue of \$1.9 thousand. The green and light blue bars in the chart to the right reflect the revenue that would have been allocated to the fund had the percentage not been modified. Taking the different allocation rates into consideration, the fund would have received

**Income Tax Collections
Capital Improvements Fund**

\$0.5 thousand (3.54%) more in 2021 than 2020 had the allocation rate not been changed, and collections would have only been \$1.7 thousand (12.47%) higher than 2019 collections.

Expenditures – The Capital Improvements fund has a total appropriated expenditure budget for 2021 of approximately \$314.2 thousand. Total spending through February 28 was \$27.0 thousand and is equal to 8.60% of the budget. Including encumbrances (e.g., purchase orders) of \$132.4 thousand in the total results in total spending equal to 50.73% of budget. Compared to the same two-month period in 2020 (and excluding transfers), the total is up by \$16.5 thousand (155.9%) and is due to increased spending in the Capital Outlay category, partially offset by reduced spending in the General Operating category.

As would be expected, spending on capital projects and equipment is the major expense category in the Capital Improvements fund. The 2021 budget in this category is \$230.6 thousand, (73.41% of budget), and provide funding for the construction of a number of infrastructure improvements. Spending through February 28 was \$26.1 thousand and represents 8.60% of the category's budget. The primary planned expenditures in this category are related to the Old Town Hall improvements and various park facility improvement projects. The list of projects included the following: (*asterisk indicates projects funded by prior-year carryover encumbrances)

| Project Name | 2021 Budget | Spent and/or Encumbered | Unspent or Uncommitted |
|--|------------------|-------------------------|------------------------|

| Karr Park improvements (2020 project increase in 2021) | 40,000 | 40,000 | 0 |
| Town Hall improvements and repairs | 60,000 | 0 | 60,000 |
| Foundation Park parking lot expansion | 10,000 | 0 | 10,000 |
| Upgrade/new playground structures | 40,000 | 36,646 | 3,354 |
| GRAND TOTAL | \$230,622 | \$157,268 | \$73,354 |

General Operating is another expense category in the Capital Improvements fund. The 2021 budget in this category is \$5.1 thousand (1.64% of budget) and provide for other non-capital operating expenditures incurred by the fund. Spending through February 28 was \$1.0 thousand and represents 17.84% of the

category's budget. Spending planned in this category in 2021 is for the payment of income tax collection fees and taxpayer refunds to RITA.

| Project Name | 2021 Budget | Spent and/or Encumbered | Unspent or Uncommitted |
|---|----------------|-------------------------|------------------------|
| Income tax collection fees and taxpayer refunds | \$5,138 | \$916 | \$4,222 |
| GRAND TOTAL | \$5,138 | \$916 | \$4,222 |

Contractual services is the other remaining major expense category in the general fund. The 2021 budget in this category is \$78.4 thousand (24.96% of budget) and provides for non-employee personal services, principally engineering and construction inspection services. Spending through February 28 was \$0 and there are encumbrances of only \$1.2 thousand in this category. It is important to note that much of the spending in this category does not tend to follow a linear path; rather, it is typically disbursed in large 'chunks' to the vendors and consultants when the services are provided. We monitor this category closely throughout the year to ensure that spending remains within the approved budget. The projects planned in this category for 2021 include the following:

| Project Name | 2021 Budget | Spent and/or Encumbered | Unspent or Uncommitted |
|---|-----------------|-------------------------|------------------------|
| Broad Street/Summit Road intersection engineering | \$70,000 | \$0 | \$70,000 |
| Miscellaneous City Hall repairs & maintenance | 6,000 | 0 | 6,000 |
| Miscellaneous park maintenance services | 2,400 | 1,200 | 1,200 |
| GRAND TOTAL | \$78,400 | \$1,200 | \$77,200 |

Fund Balance – The Capital Improvements fund is the primary capital fund account for the city from which expenses associated with the construction of infrastructure improvements and purchase of equipment are paid. Fund balance represents the accumulation of prior period revenues minus expenses and can be used in future periods to stabilize fluctuations in revenues or periods of greater than typical spending. Evaluating the fund balance, revenues, and expenses is a valuable exercise, in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?). The fund ended 2020 with an unencumbered balance of \$1.37 million, which was down by \$9.7 thousand (0.71%) from FY 2019. The unencumbered balance equates to a reserve ratio equal to 343.55% of expenditures which is outstanding and provides the ability for the city to fund future projects (e.g. Parks, Streets, etc.). In comparison, FY 2019 ended the year with an unencumbered balance of \$1.25 million, which was up by \$379.4 thousand (43.8%) from FY 2018. In comparison, the 2021 budget projects a year-end fund balance of \$1.24 million, which would equate to a reserve ratio equal to 394.36% of expenditures. The higher ratio at year-end 2021 is the result of the higher starting carryover balance and reduced spending planned from this fund during the year, partially offset by a reduced income tax allocation (from 1.75% to 1.50%).

Water Operations Fund (601)

Revenue – The Water Operations fund's primary revenue sources are charges for service and other sources, and it has a 2021 revenue budget of approximately \$1.34 million. On a year to-date basis, the fund has been credited with total revenue of approximately \$228.6 thousand, which represents 17.09% of budget. The total revenue amount is up by \$13.2 thousand (6.11%) when compared to the same two-month period in 2020.

**Water Fund Revenue
Budget by Source**

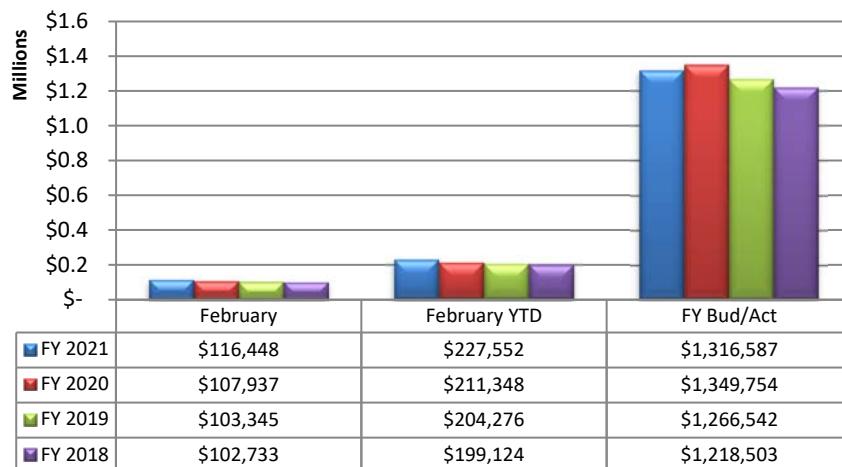

**Water Fund Revenue
Budget vs YTD Actual**

Charges for service represent the primary revenue category in this fund and are generated by water customer billings. Year to-date revenues credited to the fund are \$227.6 thousand, or 17.28% of budget.

Usage Fee Collections - Water Fund

In comparison, collections for the same two-month period in 2020 were \$211.3 thousand and were about 15.66% of full-year collections. The 2021 collections amount to date represents an increase of \$16.2 thousand (7.67%) in 2021 over the 2020 collections.

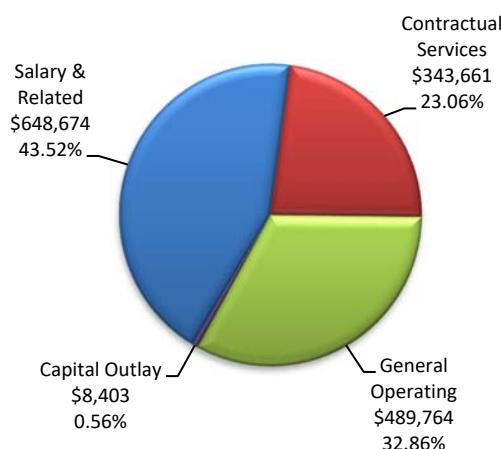

The other category, Other Sources has a 2021 budget of \$20.9 thousand. These revenues vary widely in nature and are relatively insignificant to the total. To date, the city has

received \$1.1 thousand and account for investment income, as well as any other miscellaneous non-usage related fees and charges.

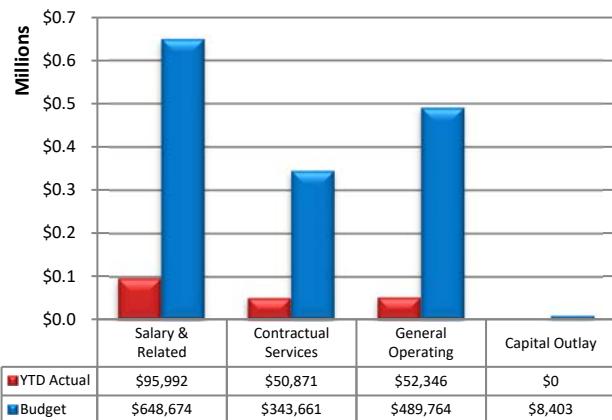

Expenditures – The Water Operations fund has a total appropriated expenditure budget for 2021 of nearly \$1.49 million. Total spending through February 28 was approximately \$199.2 thousand, or 13.37% of budget. Including encumbrances (e.g., purchase orders) of \$706.9 thousand in the total results in total

committed spending equal to 60.80% of budget. Compared to the same two-month period in 2020 (and excluding transfers), the total is down by \$14.5 thousand (6.80%) and is due primarily to decreased spending in the Salary & Related and General Operating categories.

Water Fund Expense Budget by Category

Water Fund Spending Budget vs YTD Actual (excludes encumbrances)

Salaries, wages and other employee-related costs represent the largest expense category with a 2021 budget of \$648.7 thousand, or 43.52% of the fund's budget. Spending through February 28 was \$96.0 thousand and is equal to 14.80% of budget. The positive budget variance (\$12.1 thousand below budget) is primarily the result of the city funding a smaller amount the 2021 employee HRA accounts early in the year. This is expected as the city pays for the first dollars (\$1,500/\$3,000) of employee and dependent medical insurance claims. Spending in this category is down by \$7.2 thousand (6.94%) from the level in 2020 and is the result of there being three (3) pay periods in 2020 versus the two (2) pay periods in 2021.

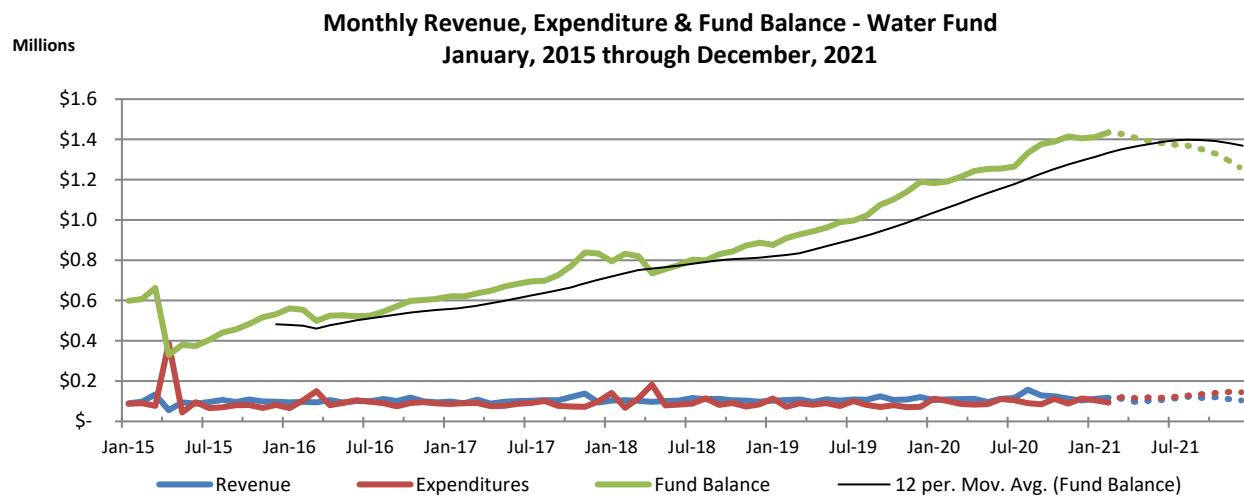

General operating expenses represent the other major expense category. It combines a number of other basic types of expenditures including operating supplies, equipment, utilities and other miscellaneous expenses. It has a 2021 budget of \$489.8 thousand, or 32.86% of the fund budget. Spending through February 28 was \$52.3 thousand, or 10.69% of budget. Including encumbrances of \$347.9 thousand in the calculation results in a total spending commitment of \$400.3 thousand, or 81.73% of budget. Many of these 2021 purchase orders encumber full-year spending and have the effect of overstating the impact of the encumbrances. Spending in this category is down by \$13.4 thousand (20.33%) when compared to the same two-month period in 2020 and is due to reduced spending on supplies/materials (down \$11.9 thousand) and reduced utility usage (down \$1.2 thousand).

The approved 2021 budget in the Water Operations fund does not provide for an interfund transfer of to the Water Debt Service (604) fund to assist in meeting the department's debt service financial obligations. The last time this was required was in 2018. Prior to that, the operating budgets did not provide for any interfund transfers during the previous two years (2016 and 2017). The Water Capital Improvements (602) fund is capable of providing the debt service funding, although it was projected to a bit short in 2018, thus the required funds transfer at that time.

Fund Balance – The Water Operations fund is the primary operating account for the city from which expenses associated with the operation of the city's water treatment and distribution operations are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can

be used in future periods to stabilize fluctuations in revenues, or during periods of greater than typical spending. Evaluating the fund balance (and the corresponding revenues and expenses) is a valuable exercise in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

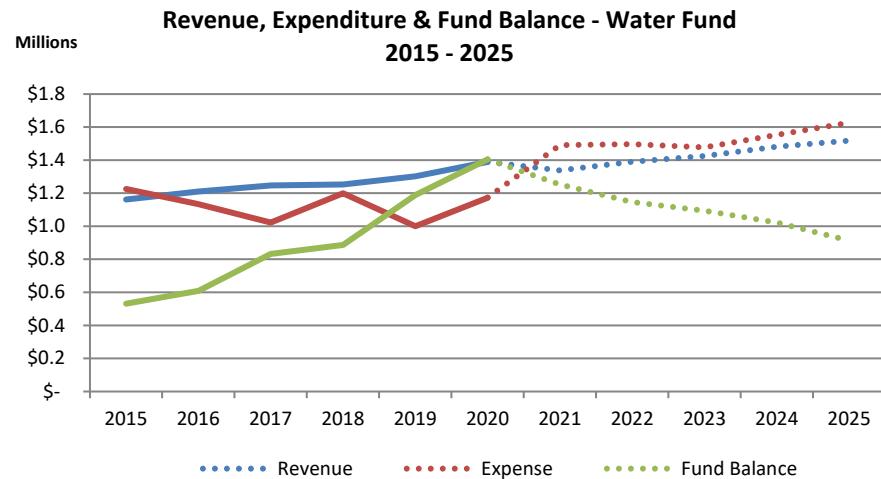

The chart below plots revenue, expenditures and fund balance since January 2015. The solid color lines represent actual numbers, and the dotted lines represent projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs and provide a smoothed trend of the fund balance over the time horizon of the chart.

The fund ended 2020 with an unencumbered fund balance of \$1.24 million, which is \$234.7 thousand (23.32%) higher than year-end 2019 and was equal to 92.81% of FY 2020 spending. In contrast, the FY 2021 budget projects a year-end fund balance of \$1.25 million, which would equate to a reserve ratio equal to 84.03% of expenditures. The fund ended 2019 with an unencumbered fund balance of \$1.0 million, an increase of \$201.4 thousand (25.02%) from year-end 2018

As you can see from the chart above, the balance in the Water Utility fund has been fluctuating between \$330 thousand and \$1.43 million. The trend line illustrates that the overall trend, however, is that the fund balance is a gradual increase in fund balance over the 5-year period. The April 2015 and April 2018 spikes in spending are the result of transfers to the water debt service (604) fund. Except for those anomalies, revenues have generally been in excess of expenditures resulting in the trend line to be positively sloped.

During 2019, the year-end balance in the fund increased to approximately \$1.19 million, and it increased to \$1.41 million at year-end 2020. From 2021 through 2025, however, the fund balance is expected to decline to \$913.1 thousand at the end of FY 2025 (see chart at right). This chart has been updated with the approved 2021 budget data through 2025.

Sewer Operations Fund (651)

Revenue – The Sewer Operations fund's primary revenue sources are charges for service and other sources, and the fund has a 2021 revenue budget of approximately \$1.47 million. On a year-to-date basis, the fund has been credited with total revenue of approximately \$275.8 thousand, which represents 18.82% of budget. The total is up by \$29.5 thousand (12.0%) from the same two-month period in 2020.

**Sewer Fund Revenue
Budget by Source**

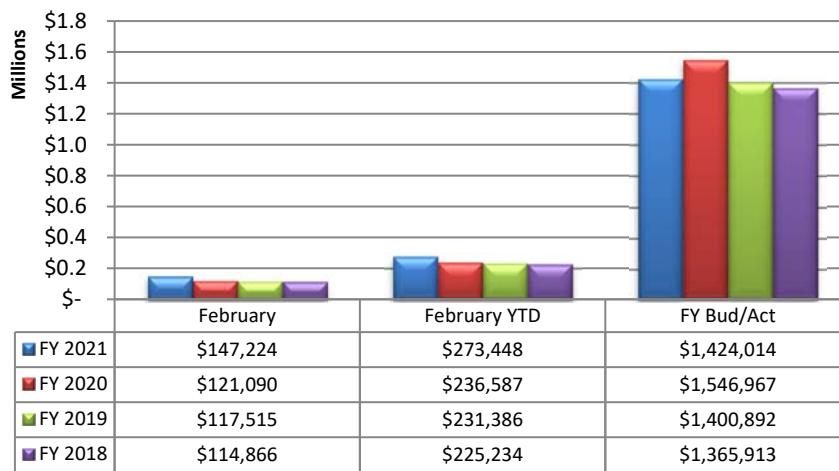

**Sewer Fund Revenue
Budget vs YTD Actual**

Charges for service represent the primary revenue category in this fund and has a 2021 budget of approximately \$1.42 million (97.15% of budget). Year-to-date revenues credited to the fund are

Usage Fee Collections - Sewer Fund

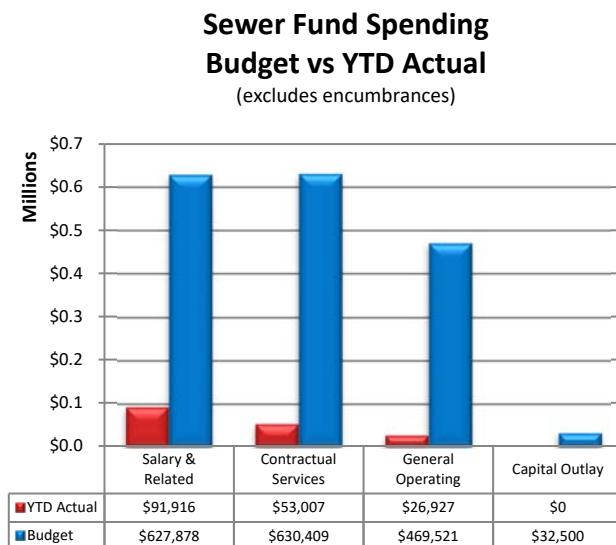

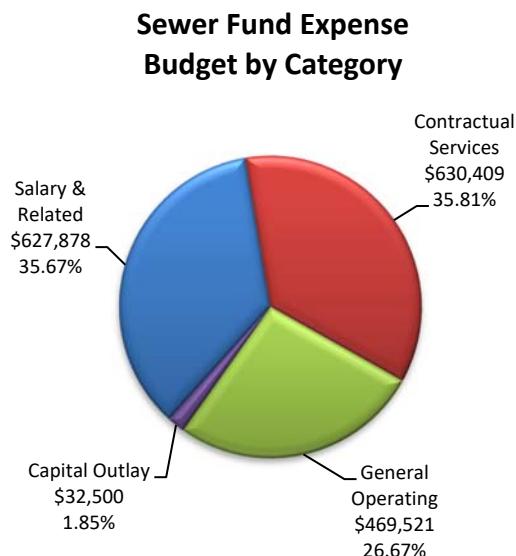

approximately \$273.4 thousand, or 15.58% of budget. In comparison, collections for the same two-month period in 2020 were \$236.6 thousand, an increase of \$26.1 thousand (21.58%) in 2021 over 2020 collections.

The other revenue category, Other Sources, has a 2021 budget of \$41.8 thousand. These revenues can vary widely and are not material to the total. To date, the city has

received \$2.4 thousand, which is \$7.3 thousand (75.70%) lower than FY 2020. The revenues account for investment income, as well as any other miscellaneous non-usage related fees and charges.

Expenditures – The Sewer Operations fund has a total appropriated expenditure budget for 2021 of about \$1.76 million. Total spending through February 28 was approximately \$171.8 thousand, or 9.76% of budget. Including encumbrances (e.g., purchase orders) of \$754.0 thousand in the total results in total committed spending equal to 52.59% of budget. Compared to the same two-month period in 2020 (and excluding transfers), the total is down by \$20.0 thousand (10.44%) and is due primarily to decreased spending in the

Salary & Related and General Operating budget categories.

For 2021, the largest expense budget category for the Sewer fund is Contractual services. The 2021 budget in this category is \$627.9 thousand (35.67% of budget) and provides for non-employee personal services. Spending through February 28 is \$53.0 thousand (8.41% of budget). Including encumbrances (e.g. purchase orders) in the total, results in a finding that 66.19% of the budget has been either spent or committed to be spent. It is important to note that much of the spending in this category does not tend to follow a linear path; rather, it is typically disbursed in large ‘chunks’ to the vendors and consultants when the services are provided. We regularly monitored this category closely during 2020 to ensure that spending remained within the approved budget and will continue to do so in 2021.

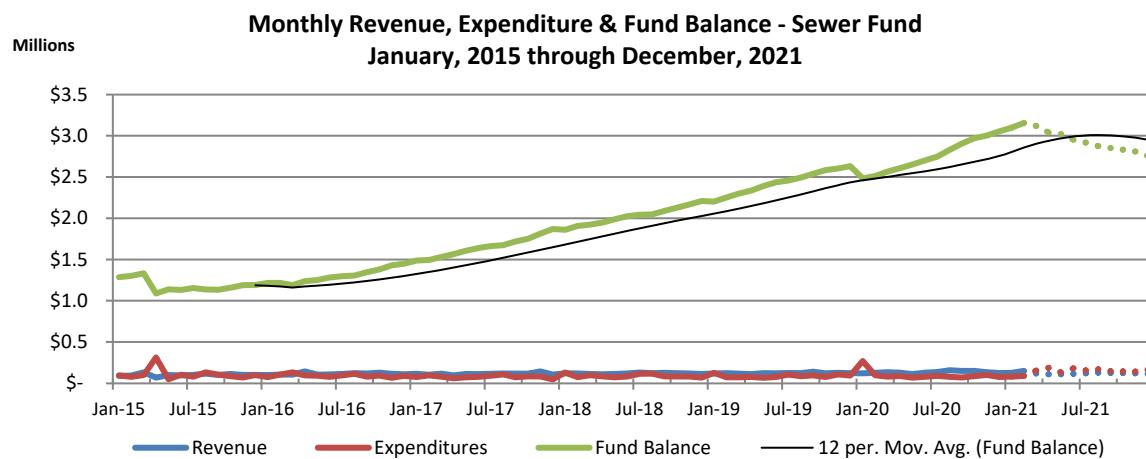

Salaries, wages and other employee-related costs is the next major expense category in the Sewer fund with a budget of \$627.9 thousand, or 35.67% of the total fund budget. Spending through February 28 was \$91.9 thousand, or 14.64% of budget. The positive budget variance (\$12.8 thousand below budget) is primarily the result of the city funding a lesser share of the 2021 employee HRA accounts early in the year. This is expected as the city pays for the first dollars (\$1,500/\$3,000) of employee and dependent medical insurance claims. Spending in this category is down by \$10.6 thousand (10.35%) from the level in 2020 and is the result of the city having three (3) pay periods in 2020 versus two (2) in 2021.

General operating expenditures represent another major expense category. It combines a number of other basic types of expenditures including operating supplies, equipment, utilities and other miscellaneous expenses. It has a 2021 budget of \$469.5 thousand, or 26.67% of the fund budget. Spending through February 28 was \$26.9 thousand, or 5.73% of budget. Including encumbrances (e.g., purchase orders) of \$241.2 thousand in the total results in a spending ratio of 57.10% of budget. Many of these 2021 purchase orders encumber full-year spending and have the effect of overstating the impact of the encumbrances. Compared to the same two-month period in 2020, spending in this category is down by \$4.7 thousand, or 14.90%.

The 2021 budget did not include any interfund transfers from the Sewer fund. However, the approved 2020 budget in the Sewer Operations fund did include an interfund transfer of \$175,000 to the Sewer Debt Service (654) fund to meet the department’s obligations on the system’s portion of the outstanding utility-related debt. This was a significant change as there weren’t any authorized interfund transfers in 2016 through

2019 for debt service funding support.

Fund Balance – The Sewer Operations fund is the primary operating account for the city from which expenses associated with the operation of the city's wastewater treatment operations are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues, or during periods of greater than typical spending. Evaluating the fund balance (and the corresponding revenues and expenses) is a valuable exercise in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

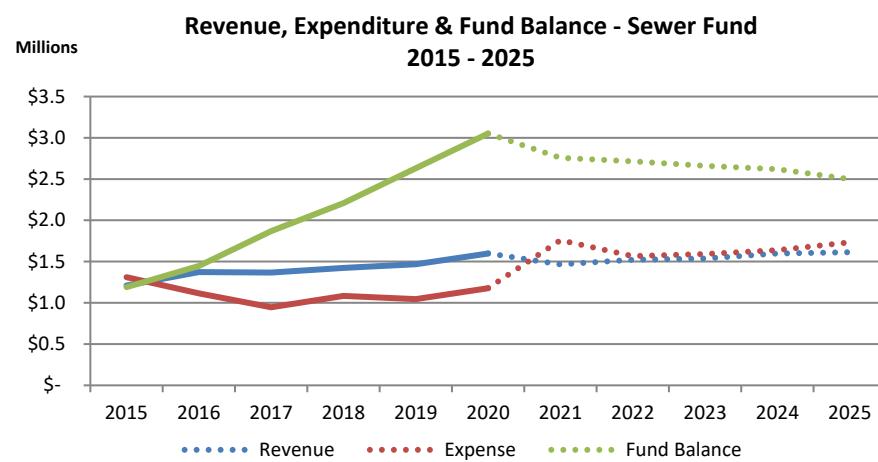

The chart above plots revenue, expenditures and fund balance since January 2015. The solid color lines represent actual numbers, and the dotted lines represent projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs and provide a smoothed trend of the fund balance over the time horizon of the chart.

The fund ended 2020 with an unencumbered fund balance of \$2.73 million, which was \$118.3 thousand (4.16%) lower than year-end 2019 and was equal to 181.2% of FY 2020 spending (including carry over encumbrances). The fund ended 2019 with an unencumbered fund balance of \$2.42 million, an increase of \$366.0 thousand (17.83%) from 2018. In contrast, the FY 2021 budget projects a year-end fund balance of \$2.76 million, which equates to a reserve ratio equal to 156.66% of expenditures.

As you can see from the chart above, the balance in the Sewer Operations fund has been increasing consistently from 2015 through 2020. With the exception of early-2015, revenues have tracked fairly closely to, or exceeded, revenues over the years covered by the graph, resulting in an upward sloping fund balance.

Based upon current estimates of revenues and expenditures, the current projections call for the

fund balance to decline gradually every year after over the next five years (see chart at the bottom of the previous page), with expenditures generally exceeding revenues. The fund is projected to end 2025 with a fund balance of \$2.50 million, or a ratio of 144.13%. This chart has been updated with the approved 2021 budget data through 2025.

Important Account Information

The following is important information related to your Raymond James accounts. If you have questions about this information, please contact your financial advisor or call Raymond James Client Services at 800.647.7378.

To view important client information and disclosures, visit <http://www.raymondjames.com/CI>.

Cash Sweep Program: Additional cash deposits to non-retirement accounts may be held at RJA in the Client Interest Program until bank capacity is restored. Cash deposits have increased significantly industry-wide, as well as in the Raymond James Bank Deposit Program (RJBDP). As a result, many RJBDP banks have reached their deposit limit. If RJBDP banks on the Bank Priority List applicable to your account decline to accept additional RJBDP cash, then additional cash deposited into your account will not sweep to an RJBDP bank. Instead, additional cash will be held at Raymond James & Associates (RJA), where it will be eligible for Securities Investor Protection Corporation (SIPC) coverage of up to \$250,000 for claims of cash, and excess SIPC coverage of up to \$1.9 million per customer (with an aggregate firm limit of \$750 million), as opposed to FDIC coverage through RJBDP banks. These funds will be treated as part of the Client Interest Program (CIP) (if in compliance with eligibility criteria), under which you will receive interest from RJA at the same rate that you would receive under RJBDP. As RJBDP capacity is restored, cash will resume sweeping to RJBDP as soon as practicable.

Please contact your financial advisor with any questions you may have.

Shareholder Message Center

The market will close early at 1:00 pm on Thursday, April 1, 2021 and Friday, April 2, 2021 in observance of Good Friday.

The daily fund close time for STAR Ohio is 2:00pm. (Excluding holidays and/or early close days listed above)

24 hr. advance transaction notification of both purchases and redemptions over \$100 million is highly recommended, including the length of time the deposited funds are expected to remain in STAR Ohio. Advanced notification allows the STAR Ohio fund to invest timely to achieve the best yield possible.

Go paperless! Contact STAR Ohio Client Services to stop paper statements or to register for web access on your STAR Ohio account.

Visit the Frequently Asked Questions section online at www.starohio.com for more information and other helpful tips regarding your STAR Ohio account. STAR Ohio Client Services can be reached from 8:30am to 5:00pm Monday through Friday at 1-800-648-STAR (7827) or by emailing info@starohio.com.

The market will close early at 1:00 pm on Thursday, April 1, 2021 and Friday, April 2, 2021 in observance of Good Friday.

The daily fund close time for STAR Ohio is 2:00pm. (Excluding holidays and/or early close days listed above)

24 hr. advance transaction notification of both purchases and redemptions over \$100 million is highly recommended, including the length of time the deposited funds are expected to remain in STAR Ohio. Advanced notification allows the STAR Ohio fund to invest timely to achieve the best yield possible.

Go paperless! Contact STAR Ohio Client Services to stop paper statements or to register for web access on your STAR Ohio account.

Visit the Frequently Asked Questions section online at www.starohio.com for more information and other helpful tips regarding your STAR Ohio account. STAR Ohio Client Services can be reached from 8:30am to 5:00pm Monday through Friday at 1-800-648-STAR (7827) or by emailing info@starohio.com.

ICS Monthly Statement

The following information is a summary of activity in your ICS® account(s) for the month of February 2021 and the list of FDIC-insured institution(s) that hold your deposits as of the date indicated. These deposits have been placed by us, as your agent and custodian, in deposit accounts through the ICS, or Insured Cash Sweep®, service. Funds in your deposit accounts at the FDIC-insured institutions at which your funds have been placed will be "deposits," as defined by federal law.

Summary of ICS Accounts

| Account ID | Deposit Option | Interest Rate | Opening Balance | Ending Balance |
|--------------|----------------|---------------|-----------------------|-----------------------|
| *****746 | Demand | 0.025% | \$5,351,853.12 | \$5,577,893.89 |
| *****749 | Demand | 0.025% | 4,588,162.36 | 4,389,835.46 |
| TOTAL | | | \$9,940,015.48 | \$9,967,729.35 |
