I am interested in the appointment from Lima township to the Southwest Licking Sewer and Water District. I have resided and raised my children in Lima/Pataskala since 1986. I am very interested in bringing the SWLSWD forward for the benefit of Pataskala, Lima Township and Western Licking County. The building of the Intel site will bring a massive amount of business to Pataskala. It is important that the infrastructure be completed in a timely fashion for the Township, Pataskala and Western Licking County.
