DATE: September 12, 2016

RE: **August 2016 Financial Condition Report**

The month of August was very busy, as we focused much of our effort in the Finance department on the development of a proposed 2017 operating budget. During the month, we worked on the following items: (1) priced and closed the \$500,000 debt issuance transaction; (2) updated the summary monthly financial report to supplement this comprehensive report; (3) updated the 2017-2021 revenue projections and debt service requirements; (4) consolidated the 2017-2021 capital improvement (CIP) requests into the project database and provided financial impacts to the departments; (6) consolidated the 2017 operating budget submissions into a comprehensive budget; and (7) prepared a draft budget deck (e.g., summary document) for review by Council at the September 12th special Council meeting.

During the month of September, we will continue to concentrate most of our effort on the 2017 budget process. The next step in the process will be the development of the formal, comprehensive budget document. In addition to working on the budget, we also plan to: (1) develop budget legislation, including budget and income tax distribution ordinances; (2) attend the annual Ohio GFOA conference in Columbus; (3) work with the city's information technology consultants (Keytel) to implement a comprehensive technology upgrade, including networking the Public Service garage and Police station to the City Hall network and providing remote access to other city facilities; and (4) work with the City Administrator to review and evaluate the 2017 medical insurance renewal, including identifying potential alternatives.

I am pleased to present this report on the financial condition of the city as of August 31, 2016. On a year to-date (YTD) cash basis, the city has collected approximately \$11.13 million in total revenue from all sources, or 53.22% of the full-year budget. This total is understated, however, due to: (1) \$171.8 in interfund transfers not yet made; and (2) \$3.88 million in grant revenues not yet received. Excluding those items would result in YTD collections rate that is equal to 60.59% of budget, somewhat below the straight line rate of 66.67%.

REVENUE/RECEIPTS

Income tax collections for the month of August were \$430.1 thousand, and were 16.87% lower than last year when

compared to August 2015. Total year to-date collections are \$3.7 million (70.57% of budget) and, when compared to an August 2015 YTD total of \$3.49 million, are \$207.1 thousand (5.93%) higher. The full-year 2016 budget is currently projected to be \$5.24 million. It is important to note that the August 2015 year to-date collections were 72% of full-year 2015 collections, and the 2014 YTD collections were 68.76% of the full-year collections. Based upon the past two years, it appears that the current budget estimates are in-line with receipts.

Income Tax Collections - All Funds

During August, the city received its second-half 2016 property tax settlement from Licking County. Total property taxes received to-date were \$1.04 million, and are \$58.7 thousand (5.95%) higher than the same period in 2015. The 2016 budget in this line is \$1.01 million and is projected to be up by \$25.1 thousand (2.54%) from the 2015 full year collections. The total also includes \$167.5 thousand in TIF payments in lieu of taxes (PILOT) from the State Route 310 TIF district. The overall increase is due to higher estimated real property tax collections (up \$20.1 thousand, or 2.37%), including TIF PILOT payments, which are projected to be higher by \$13.6 thousand (8.87%).

All Funds Revenue - Budget

Intergovernmental revenues represent one of the largest revenue categories for the city. They reflect funding received by the city from the federal, state and county governments. The revenues can come in the form of loans, grants or reimbursements. For 2016, a total of \$5.51 million is budgeted, with \$4.3 million of the total expected to come from grants and loans. Through August 31, approximately \$1.32 million has been collected (23.86% of the category budget). Most of the current shortfall is due to: approximately \$273.5 thousand in Mink Street grant/loan proceeds from OPWC not yet received; \$550 thousand in federal grant proceeds on the Mink Street phase II project not yet received; and \$2.13 million in in state grant funding for Mink Street phase III improvements not yet constructed. In addition, there is \$676 thousand in the Sewer Utility for OPWC State Issue II grant proceeds which have not yet been awarded.

Service charge revenues are another major revenue category for the city. As the title would imply, these revenues are received in exchange for providing services to residents, businesses and other customers. For 2016, approximately \$3.85 million has been budgeted for total service charge revenues. Year to-date collections are \$2.88 million, or 74.79% of the budget. The eight-month total is down by \$3.4 thousand (0.12%) when compared to the same period in 2015. At \$3.55 million or 92.35% of the category budget,

water and sewer usage fees represent the largest single component of this category. Usage fees collected through August 31 are \$2.66 million, or 74.88% of the full-year budget in this line item. In comparison, August 2015 YTD collections were \$2.7 million, and represented 70.05% of full-year 2015 collections. This line item was increased in June by \$325.5 thousand (10.09%) to more closely reflect the higher rate of collections in 2016. It appears that we may need to increase it again based upon current collections.

EXPENDITURES/SPENDING

After eight months of operations in 2016, spending for the year continues to appear to be in-line with expectations. Excluding debt service expenses and interfund transfers in the calculation results in a spending rate equal to 41.43%, significantly below the straight-line rate of 66.67%. While this compares favorably, if we include any outstanding 2015 carryover encumbrances (e.g., purchase orders) as well as FY 2016 issued POs in the total, the ratio of funds spent (or committed to spend) becomes 53.73%. Many of these 2016 purchase orders encumber full-year spending, and have the effect of overstating the impact of the encumbrances.

YTD Expenditures by Fund
(excludes encumbrances)

FUND BALANCE/FINANCIAL HEALTH

The chart below plots revenue, expenditures and fund balance since January 2012. The solid color lines represent actual numbers and any dotted lines reflecting the current forecast. A trend line has also been added to the chart to smooth out the periodic ups and downs, and provide a smoothed trend of the fund balance over the time horizon of the chart.

Current projections call for the overall total fund balance to decline significantly each year through 2018 (see chart at the top of the following page), at which time the trend will stabilize but continuing to decline slightly each year thereafter through 2021. This is due to expenditures either exceeding or being roughly equal to revenues in each of those succeeding years.

The General fund ended the month of August 2016 with an unencumbered balance of \$1.05 million and is

up by \$120.1 thousand, or 12.96% from December 2015. The Street (201) fund unencumbered fund balance decreased by \$627.5 thousand (29.37%), and the Police (208) fund decreased by \$18.6 thousand (1.45%) from December 2015. The 2016 forecast for these funds calls for them to end the year at approximately the same value as they ended 2015. It will be very important for the city to

continue to closely monitor each of the key fund balances to ensure that adequate funding is available to provide the desired level of service to the community in the future. Unless income tax and other revenues increase dramatically in the near future (such as securing a major tenant for the business park/JRS), the ability of the city to be able to fund spending on future capital projects or related debt service may become limited. Maintaining adequate reserves to ensure ongoing operations and the ability to service our debt are just some of the factors that the ratings agencies consider when evaluating the city's overall fiscal health.

I am providing this summary analysis to facilitate a better understanding of the sources of all city revenues, the status of collections to-date and available fund balances. The report will now turn its focus to each of the primary governmental and enterprise funds of the city: 101 – General Fund; 201 – Street Fund; 208 – Police Fund; 301 – Capital Improvements; and 601/651 – Water and Sewer Operations funds.

Respectfully submitted,

**CITY OF PATASKALA, OHIO

General Fund (101)

Revenue – On a year to-date-year basis, the general fund has been credited with total revenue of approximately \$1.24 million, which represents 83.08% of budget. When compared to a straight-line rate of 66.67%, it is clear that general fund revenues through August 31st are significantly above budget. The positive variance, however, is due to the receipt timing of the 2nd half property tax settlement which is was received in August. Adjusting for the timing of the property tax receipts results in a collection rate equal to 64.06% of budget.

YTD General Fund Revenue by Source

General Fund Revenue - Budget

The largest revenue source for the general fund is property taxes, which accounts for 56.86% of the 2016 general fund revenue budget. The 2016 budget for this category is projected to be \$850.5 thousand, and would be up by \$12.4 thousand (1.47%) when compared to 2015 full-year collections. To-date, the general fund has received \$855.7 thousand in property taxes, equal to 100.6% of budget. This total is up by \$19.2 thousand (2.29%) when compared to the same period in 2015.

Service charge revenues represent the second largest revenue category for the general fund. These revenues are received in exchange for providing services to residents, businesses and other customers including building licenses/permits, and other miscellaneous permits. The 2016 budget in this category is \$282.3 thousand (18.87% of budget). Through August 31st, the city has received \$175.3 thousand (62.12% of budget), and is up by \$2.9 thousand (1.7%) from the same eight-month period in 2015.

Intergovernmental revenues is the next major general fund revenue source. They reflect funding received by the city from the federal, state and county governments. The revenues can come in the form of loans, grants or reimbursements. For 2016, it is projected to account for approximately \$183.4 thousand (12.26% of budget). This category consists of the following revenue items: local government distributions, property tax rollback/homestead exemption reimbursements from the state; electric utility income tax reimbursement; and cigarette/liquor taxes and fees. On a year to-date basis, the fund has received \$102.1 thousand in this category (55.66% of budget), and is in-line with last year's collections. The total is up by only \$0.8 thousand (0.82%) when compared to the same eight-month period in 2015.

Fines and forfeitures revenue represents the other major revenue category for the general fund. The 2016

budget in this category is \$154.6 thousand (10.34% of budget), and consists of fines and forfeitures generated by the operation of the city's Mayor's Court, as well as other state-generated fines. Through August 31, the city has received \$93.2 thousand in this category, which represents 60.25% of budget. Compared to the same eight-month period in 2015, the total is down by \$20.1 thousand, or 17.71%. The primary driver of the decline is the reduced revenue generated by the Mayor's Court. This trend has been consistent every month, and in June the full-year forecast was reduced by \$25.4 thousand (14.1%) to more appropriately reflect the reduced amount of resources in the fund.

Expenditures – The general fund has a total appropriated expenditure budget for 2016 of approximately \$1.6 million. Total spending through August 31 is \$857.3 thousand, and is equal to 53.44% of the budget. Including encumbrances (e.g., purchase orders) of \$265.2 thousand (but excluding transfers) in the total results in a total ratio equal to 69.97% of budget. Most of the encumbered balances represent full-year purchase orders which tend to overstate the impact. Compared to the same eight-month period in 2015 (and excluding transfers), total spending (or commitments to spend) is down by \$54.2 thousand (5.95%).

Salaries, wages and other employee-related costs represent the largest expense category, with a 2016 budget of \$657.0 thousand, or 40.95% of the general fund budget. Spending through August 31 is \$392.0 thousand, or 59.68% of budget. This category is running somewhat below expectations at this point in the year. This favorable YTD variance (\$45.9 thousand below budget) is primarily the result of open positions (e.g., Human Resources Manager and Planner). Including encumbrances in the total, however, results in a 66.0% spending rate, in line with the year to-date budget.

Contractual services is another major expense category in the General fund. The 2016 budget in this category is \$535.7 thousand (33.39% of budget) and provides for non-employee personal services, such as legal, audit and engineering services. Spending through August 31 is \$272.4 thousand (50.85% of budget). Including encumbrances (e.g. purchase orders) in the total, 71.72% has been either spent or committed to be spent. It is important to note that much of the spending in this category does not tend to follow a linear path; rather, it is typically disbursed in large 'chunks' to the vendors and consultants when the services are provided. We monitor this category closely to ensure that spending remains within the approved budget.

General operating expenditures is another significant expense category in the general fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2016 budget of \$399.4 thousand, or 24.9% of the fund's budget. Year-to-date spending in this category is \$186.3 thousand, and is equal to 46.65% of budget. Including encumbrances in the calculation, the total spent or committed is \$292.4 thousand, or 73.22% of budget. Spending in this category is down by \$24.1 thousand (11.44%) from the same eight-month period in 2015.

The approved 2016 budget in the general fund did not include any interfund transfers. This is down from the 2015 interfund transfers of \$200 thousand which were used to provide funding to the Capital Improvements (401) fund for infrastructure projects undertaken in 2015.

Fund Balance – The general fund is the primary operating account for the city from which expenses, other than those associated with the Street, Police and Debt Service functions, are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues, or during periods of greater than typical spending. Evaluating the fund balance (and the corresponding revenues and expenses) is a valuable exercise, in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

The chart above plots revenue, expenditures and fund balance on a monthly basis since January 2012. The solid color lines represent historical numbers, and the dotted lines represent projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs, and provide a smoothed trend of the fund balance over the time horizon of the chart. With the exception of March and August 2016, it also is projected to generally decline. The major spikes in revenue (typically March & August) represent the receipt of the semi-annual property tax settlements. The expense spikes in January and March 2014 were the result of: (1) transfer of \$242.4 thousand to debt service for a loan payment on the municipal building note; and (2) annual payments to the Grow Licking County CIC and MORPC. The expense spike in December 2012 was primarily the result of the annual note payment on the municipal building debt. The March 2013 spike reflects the refunding of the 2012 notes, and the April 2015 spike reflects a \$200 thousand interfund transfer to the Capital Improvements fund.

As you can see from the chart at the top of the following page, 2014 was a very positive year for the general fund balance, even though the fund had been generally declining over the prior several years. This improvement was due to both reduced spending and increased revenues received during the year. Of note,

spending in 2015 was approximately equal to revenue, resulting in a stabilizing fund balance. This trend is projected to remain relatively stable through 2018. This chart has been updated with the proposed 2017 budget data through 2021. The current forecast, however, calls for deficit spending in each later year through 2021, which results in a declining fund balance in all future years.

Street Fund (201)

Revenue – The Street Fund has a 2016 revenue budget of approximately \$2.67 million, and is projected to be \$242.1 thousand (17.27%) higher than total 2015 revenues collected. The fund's primary revenue sources are income taxes and intergovernmental revenues. On a year to-date basis, the Street fund has been credited with total revenue of approximately \$1.86 million, which reflects 69.6% of the full-year budget. Total revenue to-date is up by \$213.8 thousand (13.0%) from the same eight-month period in 2015.

YTD Street Fund Revenue by Source

Street Fund Revenue - Budget

Income tax collections in August were \$153.3 thousand, and are down by \$19.0 thousand (11.0%) when compared to the same period in 2015. Year to-date income tax revenues credited to the fund are \$1.32 million, and represent 70.71% of the 2016 budget. In comparison, last year's collections through August 2015 were \$1.16 million, and represented 72.05% of the full-year collections. Even considering that the allocation to the fund was changed in 2016 from 33.3% to 35.65% of total collections, collections are running in line with expectations. The full-year forecast was increased in July by \$74.0 thousand (4.13%) to reflect increased collections. This is an important trend to monitor, as income taxes are the primary revenue source for this fund. The green and light blue bars in the chart to the right reflect the revenue that would have been allocated to the fund had the percentage not been modified in 2014 and 2015.

Income Tax Collections - Street Fund

In both years, the fund would have received a lower year to-date distribution than in 2015 when calculating the amount 'as-if' the fund was receiving the current

allocation percentage in that year. Collections in 2016 would have been \$73.8 thousand (5.93%) higher than that in 2015, and \$215.3 thousand (19.5%) higher than in 2014.

Intergovernmental revenues in the Street fund are budgeted at \$721.4 thousand, and represent 27.01% of the fund’s revenue budget. They reflect funding received by the city from the federal, state and county governments. This category is comprised of state-shared (e.g., permissive) taxes, and grants/loans from other governmental agencies. On a year to-date basis, the city has received \$477.3 thousand in this category (66.16% of budget), and is up by \$32.9 thousand (7.4%) from the same eight-month period in 2015. Compared to the straight-line rate of 66.67%, however, current year collections appear to be running in line with expectations.

The other category, Other Sources, is budgeted at \$83.5 thousand, and represents only 3.13% of the total fund revenue budget. To date, the city has received \$62.2 thousand (74.46% of budget), and is up by \$25.0 thousand (67.2%) from the same eight-month period in 2015. One driver of the positive variance is the increased amount of investment income credited to the fund (up by 51.22%).

Expenditures – The Street fund has a total appropriated expenditure budget for 2016 of approximately \$2.89 million. Total spending through August 31 was \$2.08 million, and is equal to 71.94% of budget. The driver of the higher-than-anticipated spending rate is the significant amount of capital expenditures to-date. Including encumbrances of \$404.3 thousand in the total (but excluding transfers) results in total spending equal to 86.02% of budget. Compared to year to-date 2015 (and excluding transfers), the total is up by \$535.1 thousand (34.64%), and is due primarily to increased spending in the General Operating and Capital Outlay categories, partially offset by reduced interfund transfers in 2016 (down by \$165.2 thousand).

Street Fund Budget by Category

YTD Street Fund Spending
(excludes encumbrances)

Spending on capital projects and equipment represents the largest expense category in the Street Fund. The 2016 budget in this category is \$1.13 million (39.22% of budget) and provides funding for street and roadway infrastructure maintenance and related equipment. Year to-date spending in this category is \$1.02 million, or 90.22% of budget. Including encumbrances (e.g., purchase orders) in the total, results in a spending commitment equal to 98.61% of the full-year 2016 budget.

Salaries, wages and other employee-related costs is the next major expense category in the Street fund with a 2016 budget of \$736.8 thousand, or 25.49% of the fund's budget. Spending through August 31 is \$510.4 thousand, or 69.27% of budget. The slightly negative YTD variance is due primarily to 2016 HSA funding, mostly offset, however, by seasonal overtime-related expenses not yet incurred. Spending in this category is up by \$74.5 thousand (17.08%) from the level in 2015.

General operating expenditures is another significant expense category in the Street fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2016 budget of \$534.1 thousand, or 18.48% of the fund's budget. Spending through August 31 is \$324.7 thousand, or 60.78% of budget. Including encumbrances in the calculation, the total spending commitment is \$430.8 thousand, or 80.64% of the budget. The primary reason for the higher spending ratio (versus a straight-line rate of 66.67%) is the creation of full-year purchase orders in January for materials and supplies. Spending in this category is higher than that in 2016 by \$37.6 thousand (13.09%) from FY 2015.

The approved 2016 budget in the Street fund did not include any interfund transfers. This is down from the 2015 interfund transfers of \$165.2 thousand, which were used to provide funding for: (1) the Columbia Road Bridge Improvements (307) fund for the local share of 2015 expenses for the primarily grant-funded project; and (2) additional funding required for the Mink Phase III and Main Street projects.

Fund Balance – The Street fund is the primary operating account for the city from which expenses associated with the maintenance of the city's streets, roads and rights-of-way are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues, or periods of greater than typical spending. Evaluating the fund balance, revenues, and expenses is a valuable exercise, in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

The chart above plots revenue, expenditures and fund balance monthly since January 2012. The solid color lines represent actual numbers, and any dotted lines represent future projections. A trend line has also been added to the chart to smooth out the periodic ups and downs, and provide a smoothed trend of the fund balance over time. The revenue spikes in both May 2013 and 2014 are the result of higher quarterly income tax collections. Other than that item, revenues and spending have been fairly closely matched. Since October 2013, revenues have generally equaled or exceeded expenses, with the exception of large-

dollar progress payments on capital improvement projects.

As you can see from the chart on the right, although the balance of the Street fund increased from 2012 – 2015, it is projected to be somewhat stable through 2017. This chart has been updated with the proposed 2017 budget data through 2021. Current projections call for the fund balance to decrease dramatically in 2018 and 2019 due to increased capital spending. After 2019, however, the fund balance remains stabilized between \$825,000 - \$915,000.

Police Fund (208)

Revenue – The fund’s primary revenue sources are income taxes and other sources, and it has a 2016 total revenue budget of \$2.88 million. On a year to-date basis, the Police Fund has been credited with total revenue of approximately \$2.04 million, which represents 70.91% of budget. Total revenue to-date is \$101.7 thousand (5.24%) higher than that collected during the same eight-month period in 2015. The primary reason for the increase was the higher rate of collections in 2016, partly offset by the reduction in the fund’s income tax allocation percentage in 2016 from 54.1% to 53.0%.

YTD Police Fund Revenue by Source

Police Fund Revenue - Budget

Income tax collections in August were \$228.0 thousand, and are down by \$51.9 thousand (18.56%) compared to the same period in 2015. Year to-date income tax revenues credited to the fund are \$1.96 million, and represent 70.74% of the 2016 budget. In comparison, last year’s collections through August 2015 were \$1.89 million, and represented 72.05% of the full-year collections. The full-year forecast was increased in June by \$108.8 thousand (4.08%) to reflect increased collections. It is important to note that the allocation to the fund has decreased in 2016 from 54.1% to 53.0%. Adjusting for the change in allocations rates (see green and light blue bars in chart to the right) reflect the revenue that would have been allocated to the fund

Income Tax Collections - Police Fund

had the percentage not been modified in 2014 and 2015. Assuming that the current allocation was applied to prior years, YTD collections in 2016 would have been \$109.8 thousand (5.93%) higher than that in 2015,

and \$320.1 thousand (19.5%) higher than 2014 collections. The green/light blue bars in the chart at the bottom of the previous page have been restated to reflect the revenue that would have been allocated to the fund in 2014 and 2015 had the percentage been the same in all years.

The other significant revenue category, Other Sources, is budgeted at \$79.0 thousand, and represents only 2.74% of the total fund revenue budget. The full-year forecast was increased in June by \$31.5 thousand (66.32%) to reflect increased collections. To date, the city has received \$73.5 thousand (93.06% of budget), and is up by \$31.9 thousand (76.5%) from the same eight-month period in 2015.

Expenditures – The Police fund has a total appropriated expenditure budget for 2016 of approximately \$2.76 million. Total spending through August 31 is approximately \$1.87 million, and is equal to 67.7% of budget. Excluding interfund transfers of \$17.4 thousand, total spending is equal to 67.49% of budget. Including encumbrances (e.g., purchase orders) of \$193.6 thousand in the total results in total spending equal to 74.55% of budget. Compared to the same eight-month period in 2015 (and excluding transfers), the total is up by \$219.5 thousand (13.45%), and is due primarily to increased spending in the Salary & Related and Capital Outlay categories.

Police Fund Budget by Category

YTD Police Fund Spending
(excludes encumbrances)

Salaries, wages and other employee-related costs represent the largest expense category with a 2016 budget of \$2.05 million, or 74.43% of the fund’s budget. Spending through August 31 is \$1.39 million, or 67.47% of budget. The slightly unfavorable YTD variance is due primarily to below-budget overtime and the hiring delay of the HR Manager, partially offset by the full-year funding of the employee HSA (e.g. insurance deductible) accounts. Overall spending in this category is up by \$165.2 thousand (13.53%) from the level in 2015.

General operating expenditures is the next major expense category in the Police fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2016 budget of \$389.4 thousand, or 14.1% of the total fund expenditure budget. Year to-date 2016 spending in this category is \$231.0 thousand, or 59.33% of budget, and is down by \$18.8 thousand (7.52%) from the same eight-month period in 2015. Including encumbrances (e.g., purchase orders) in the total results in total spending commitments equal to 76.53% of the FY 2016 budget. The primary driver of the significantly higher spending rate (versus the straight-line rate of 66.67%) is the issuance of full-year purchase orders in January for fuel, supplies, materials and utilities.

Spending on capital equipment is another significant expense category in the Police fund. The 2015 budget in this category is \$176.1 thousand (6.38% of budget) and provides funding for the acquisition of Police cruisers, law enforcement-related equipment and other capital improvements. Year to-date spending through August 31 in this category is \$154.2 thousand (87.54% of budget).

The approved 2016 budget in the Police fund included an interfund transfer of \$17.4 thousand. The purpose of the transfer is to provide funding to the Debt Service (401) fund to meet the department's financial obligations on the LGIF loan for the construction of the MARCS tower. The transfer between the funds was made during the month of April.

Fund Balance – The Police fund is the primary operating account for the city from which expenses associated with the operation of the city's Police department are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues or periods of greater than typical spending. Evaluating the fund balance, revenues, and expenses is a valuable exercise, in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

The chart above plots monthly revenue, expenditures and fund balance since January 2012. The solid color lines represent actual numbers, and the dotted lines represent projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs, and provide a smoothed trend of the fund balance over the time horizon of the chart.

As you can see from the chart, the balance in the Police fund has been fluctuating up and down since January 2012. The fund has experienced periods of growth from May 2013 through November 2013, April 2014 through July 2014, and the period since April 2015. During these periods of time, the fund was increasing due to revenues exceeding spending. The positive variance in May 2013 was the result of better than anticipated income tax collections, and the November 2013 variance was the result of transferring \$180,000 from the Bond Improvement fund for the replacement of the slate roof on the Police station. We experienced another spike during September 2014 from the receipt of approximately \$175 thousand due to the LGIF loan reimbursement of expenses incurred in the construction of the MARCS radio communications tower. Other than the exception of those items, expenditures have regularly exceeded revenues. The growth in spending in 2013 was primarily the result of: (1) the addition three new Police

officers in 2013; and (2) the construction improvements to the facility. The spike in April 2014 spending was for the construction on the MARCS tower.

Current projections call for the balance to decline through 2018, and then turn slightly positive through 2021 (see chart at right). This chart has been updated with the proposed 2017 budget data through 2021.

Capital Improvements Fund (301)

Revenue – The Capital Improvements Fund has a 2016 revenue budget of approximately \$5.48 million. The fund’s primary revenue sources are income taxes, intergovernmental revenues and other sources. On a year to-date-year basis, the Capital Improvements fund has been credited with total revenue of approximately \$404.8 thousand, which represents 7.38% of budget. Excluding the impact of \$2.37 million in grant/loan and \$2.66 million in other source revenue from the equation results in a collection rate of 66.14% of budget. The adjusted eight-month total is only slightly below expectations at this point in the year. The fund is receiving a 2.15% allocation of income tax revenues in 2016, which is up from the 0.0% received in 2015.

**YTD Capital Improvements Fund
Revenue by Source**

**Capital Improvements Fund
Revenue Budget**

For 2016, income taxes are the primary external revenue source for the Capital Improvements fund. Income tax collections in August were \$9.2 thousand. Year to-date income tax revenues credited to the fund represent 64% of budget, which is slightly lower than the straight-line rate of 66.67%. The full-year forecast was increased in June by \$108.8 thousand (4.08%) to reflect increased collections. It is important to note that the allocation to the fund was 55%

in 2012, 6.75% in 2013, and then increased to 7.0% in 2014, and eliminated entirely in 2015. Adjusting for the change in allocations rates (see purple bar in chart to the right) reflect the revenue that would have been allocated to the fund had the percentage not been modified in 2014. Assuming that the current

**Income Tax Collections
Capital Improvements Fund**

allocation was applied to prior years, YTD collections in 2016 would have been \$13.0 thousand (19.5%) higher than that in 2014. The purple bars in the chart above have been restated to reflect the revenue that would have been allocated to the fund in 2014 had the percentage been the same in all years.

Expenditures – The Capital Improvements fund has a total appropriated expenditure budget for 2016 of approximately \$6.29 million. Total spending through August 31 was \$1.05 million, and is equal to 16.65% of the budget. Including encumbrances (e.g., purchase orders) of \$124.5 thousand in the total results in total spending equal to 18.63% of budget. Compared to the same eight-month period in 2015 (and excluding transfers), the total is up by \$509.8 thousand (94.74%) and is due primarily to increased spending in the Capital Outlay category.

As would be expected, spending on capital projects and equipment is the major expense category in the Capital Improvements fund. The 2016 budget in this category is \$6.18 million, (98.18% of budget), and provides funding for the construction of a number of infrastructure improvements. Spending through August 31 is \$1.05 million, and represents 16.25% of the category's budget. The primary planned expenditures in this category were the result of carryover encumbrances on Main Street/State Route 310 project, and the 2016 Capital Improvement Program (CIP). The list of projects includes the following: (*asterisk indicates projects funded by prior-year carryover encumbrances)

Project Name	2016 Budget	Spent and/or Encumbered	Unspent or Uncommitted
Summit & Havens Corner Roads improvements*	\$30,526	\$30,526	\$0
SR-310 Improvements Project*	423,336	423,336	0
Mink Street Improvements – Phase II Construction	4,944,054	90,350	4,853,704
SR-310 Improvements Project (ODOT grant funded)	680,000	464,823	215,177
2016 Street Improvement Program	60,000	55,390	4,610
Taylor Road/Cleveland Avenue Trail	40,000	40,000	0
GRAND TOTAL	\$6,177,916	\$1,104,425	\$5,073,491

Contractual services is another major expense category in the general fund. The 2016 budget in this category is \$108.4 thousand (1.72% of budget) and provides for non-employee personal services, principally

engineering and construction inspection services, as well as income tax collection fees. Spending through August 31 is \$40.2 thousand, or 37.1% of budget. Including encumbrances in the calculation, the total spending commitment is \$63.9 thousand, or 58.99% of the budget. It is important to note that much of the spending in this category does not tend to follow a linear path; rather, it is typically disbursed in large 'chunks' to the vendors and consultants when the services are provided. We monitor this category closely to ensure that spending remains within the approved budget. The projects planned in this category for 2016 include:

Project Name	2016 Budget	Spent and/or Encumbered	Unspent or Uncommitted
Mink Street Improvements – Phase II Engineering*	\$49,676	\$49,676	\$0
Licking Heights SRTS grant project	33,700	0	33,700
City Hall public area improvements	15,000	14,250	750
Council Chambers facility improvements	10,000		10,000
GRAND TOTAL	\$108,376	\$63,926	\$44,450

General Operating is the other remaining expense category in the Capital Improvements fund. The 2016 budget in this category is \$6.0 thousand (0.1% of budget) and provides for other non-capital operating expenditures incurred by the fund. Spending through August 31 is \$4.0 thousand, and represents 66.36% of the category's budget. Currently, the only spending planned for in this category in 2016 is for the payment of income tax collection fees and taxpayer refunds to RITA.

Project Name	2016 Budget	Spent and/or Encumbered	Unspent or Uncommitted
Income tax collection fees and taxpayer refunds	\$6,000	\$3,981	\$2,019
GRAND TOTAL	\$6,000	\$3,981	\$2,019

Fund Balance – The Capital Improvements fund is the primary capital fund account for the city from which expenses associated with the construction of infrastructure improvements are paid. Fund balance represents the accumulation of prior period revenues minus expenses, and can be used in future periods to stabilize fluctuations in revenues or periods of greater than typical spending. Evaluating the fund balance, revenues, and expenses is a valuable exercise, in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?). The 2016 budget projects a year-end fund balance of \$1.07 million, which equates to a reserve ratio equal to 16.94% of expenditures. The fund actually ended 2015 with an unencumbered fund balance of \$1.37 million, an improvement of \$971.4 thousand (291%) over the prior year.

Water Operations Fund (601)

Revenue – The Water Operations fund’s primary revenue sources are charges for service and other sources, and it has a 2016 revenue budget of approximately \$1.19 million. On a year to-date-year basis, the fund has been credited with total revenue of approximately \$797.9 thousand, which represents 67.33% of budget. The total revenue amount is up by \$36.6 thousand (4.8%) when compared against the same eight-month period in 2015.

YTD Water Fund Revenue by Source

Water Fund Revenue - Budget

Usage Fee Collections - Water Fund

Charges for service represent the primary revenue category in this fund, and are generated by water customer billings. Year to-date revenues credited to the fund are \$791.8 thousand, or 67.2% of budget. In comparison, collections for the same eight-month period in 2015 were \$753.8 thousand, and represented 65.33% of full-year 2015 collections. The 2016 year to-date collections amount represents an increase of \$38.0 thousand (5.04%) in 2016 over the 2015 collections. The full-

year forecast in this revenue category was increased in June by \$17.3 thousand (1.49%) to reflect the increased collection rate in 2016.

The other category, Other Sources has a 2016 budget of \$6.5 thousand. These revenues vary widely in nature, and are relatively insignificant to the total. To date, the city has received \$6.1 thousand, and the revenues account for investment income, as well as any other miscellaneous non-usage related fees and charges.

Expenditures – The Water Operations fund has a total appropriated expenditure budget for 2016 of approximately \$1.34 million. Total spending through August 31 is approximately \$784.1 thousand, or 58.35% of budget, which is well below the 66.67% anticipated rate if all spending was done consistently throughout the year. Including encumbrances (e.g., purchase orders) of \$235.2 thousand in the total results in total committed spending equal to 75.85% of budget. The majority of the encumbered balance is associated with the issuance of full-year purchase orders in January on routine operating supplies, equipment, utilities and other miscellaneous expenses.

Water Fund Budget by Category

YTD Water Fund Spending

(excludes encumbrances)

For 2016, salaries, wages and other employee-related costs is the primary major expense category in the Water Operations fund with a 2016 budget of \$546.9 thousand, or 40.7% of the total fund budget. Spending through August 31 is \$347.7 thousand, and reflects 63.58% of budget. Compared to the same eight-month period in 2015, spending is up by \$43.9 thousand or 14.46%. The primary driver of this negative variance is increased wage expenses resulting from the recently adopted contract update with the USW, partially offset by the reduced split between water and sewer of allocated administrative costs (from 60/40 to 50/50).

General operating expenses represent the other major expense category. It combines a number of other basic types of expenditures including operating supplies, equipment, utilities and other miscellaneous expenses. It has a 2016 budget of \$446.4 thousand, or 33.22% of the fund budget. Spending through August 31 is \$247.5 thousand, or 55.44% of budget. Including encumbrances of \$107.9 thousand in the calculation results in a total spending commitment of \$355.4 thousand, or 79.62% of budget. Spending in this category is up by \$27.0 thousand (12.22%) when compared to the same eight-month period in 2015.

The approved 2016 budget in the Water Operations fund did not include any interfund transfers. This is down by \$310.0 thousand from 2015. The purpose of last year's transfer was to provide funding to the Water Debt Service (604) fund to meet the department's financial obligations on the system's portion of the outstanding utility-related debt.

Fund Balance – The Water Operations fund is the primary operating account for the city from which expenses associated with the operation of the city's water treatment and distribution operations are paid.

Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues, or during periods of greater than typical spending. Evaluating the fund balance (and the corresponding revenues and expenses) is a valuable exercise in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

The chart above plots revenue, expenditures and fund balance since January 2012. The solid color lines represent actual numbers, and the dotted lines represent projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs, and provide a smoothed trend of the fund balance over the time horizon of the chart.

The 2016 budget projects a year-end fund balance of \$373.3 thousand, which equates to a reserve ratio equal to 27.78% of expenditures. The fund ended 2015 with an unencumbered fund balance of \$470.2 thousand, a decline of \$186.9 thousand (28.44%) from year-end 2014. This balance reflected an actual reserve ratio of 38.33%, which is above the target ratio range of 10-25%.

As you can see from the chart above, the balance in the Water Utility fund has been fluctuating between \$261 thousand and \$730 thousand. The trend line illustrates that the overall trend, however, is that the fund balance is a gradual, slight increase in fund balance over the 4+ year period. The September 2012, March 2013, March 2014 and April 2015 spikes in spending are the result of transfers to the water debt service (604) fund. With the exception of those anomalies, revenues have generally exceeded expenditures. It is these transfers that have caused the trend line to be slightly negatively sloped.

Since 2014, the year-end balance in the fund has declined, and based upon current estimates of revenues and expenditures, the fund balance is expected to decline every year over the following five years (see chart at the bottom of the previous page). The deficit becomes more critical in later years (2019 - 2021) when the fund balance turns negative. This chart has been updated with the proposed 2017 budget data through 2021.

Sewer Operations Fund (651)

Revenue – The Sewer Operations fund’s primary revenue sources are charges for service and other sources, and the fund has a 2016 revenue budget of approximately \$1.21 million. On a year to-date-year basis, the fund has been credited with total revenue of approximately \$902.5 thousand, which represents 74.82% of budget. The total is up by \$105.9 thousand (13.2%) from the same eight-month period in 2015.

YTD Sewer Fund Revenue by Source

Sewer Fund Revenue - Budget

Charges for service represent the primary revenue category in this fund. Year to-date 2016 revenues credited to the fund are approximately \$862.4 thousand, or 74.21% of budget. In comparison, collections for the same eight-month period in 2015 were \$785.6 thousand, an increase of \$76.8 thousand (9.78%) in 2016 over 2015 collections.

Usage Fee Collections - Sewer Fund

The other revenue category, Other Sources, has a 2016 budget of \$44.1 thousand. These revenues can vary widely and are not material to the total. To date, the city has received \$40.1 thousand, and the revenues account for investment income, as well as any other miscellaneous non-usage related fees and charges. The forecast in this category was increased in June by \$34 thousand (337%) to reflect the higher rate of collections in 2016.

Expenditures – The Sewer Operations fund has a total appropriated expenditure budget for 2016 of approximately \$1.59 million. Total spending through August 31 is approximately \$787.6 thousand, or 49.57% of budget. Including encumbrances (e.g., purchase orders) of \$287.1 thousand in the total results in total committed spending equal to 67.64% of budget. The majority of the encumbered balance is associated with purchase orders issued in January for full-year spending on routine operating supplies, equipment, utilities and other miscellaneous expenses.

Sewer Fund Budget by Category

YTD Sewer Fund Spending
(excludes encumbrances)

For 2016, the largest expense budget category for the Sewer fund is Contractual services. The 2016 budget in this category is \$559.4 thousand (35.21% of budget) and provides for non-employee personal services. Spending through August 31 is \$243.9 thousand (43.6% of budget). Including encumbrances (e.g. purchase orders) in the total, 71.9% has been either spent or committed to be spent. It is important to note that much of the spending in this category does not tend to follow a linear path; rather, it is typically disbursed in large ‘chunks’ to the vendors and consultants when the services are provided. We monitor this category closely to ensure that spending remains within the approved budget.

Salaries, wages and other employee-related costs is the next major expense category in the Sewer fund with a budget of \$512.9 thousand, or 32.28% of the total fund budget. Spending through August 31 is \$359.9 thousand, or 70.17% of budget. Compared to the same eight-month period in 2015, spending is down by \$12.2 thousand, or 3.28%. The primary driver of the decline was the reduced allocation of administrative overhead expenses in 2016 versus 2015.

General operating expenditures represent another major expense category. It combines a number of other basic types of expenditures including operating supplies, equipment, utilities and other miscellaneous expenses. It has a 2016 budget of \$405.4 thousand, or 25.51% of the fund budget. Spending through August 31 is \$132.9 thousand, or 32.79% of budget. Including encumbrances (e.g., purchase orders) of \$109.1 thousand in the total results in a spending ratio of 59.71% of budget. Compared to the same eight-month period in 2015, spending in this category is down by \$43.0 thousand, or 24.43%.

The approved 2016 budget in the Sewer Operations fund did not include any interfund transfers. In 2015, the budget included interfund transfers of \$200 thousand whose purpose was to provide funding to the

Sewer Debt Service (654) fund to meet the department’s financial obligations on the system’s portion of the outstanding utility-related debt.

Fund Balance – The Sewer Operations fund is the primary operating account for the city from which expenses associated with the operation of the city’s waste water treatment operations are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues, or during periods of greater than typical spending. Evaluating the fund balance (and the corresponding revenues and expenses) is a valuable exercise in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

The chart above plots revenue, expenditures and fund balance since January 2012. The solid color lines represent actual numbers, and the dotted lines represent projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs, and provide a smoothed trend of the fund balance over the time horizon of the chart.

The 2016 budget projects a year-end fund balance of \$808.6 thousand, which equates to a reserve ratio equal to 50.89% of expenditures. The fund ended 2015 with an approximate balance of \$1.08 million, or 82.52% of actual spending, and reflects a decline of \$192.5 thousand (15.1%) from the 2014 ending balance. This balance represents a reserve ratio of 82.52%, which is significantly above the general target ratio range of 10-25%.

As you can see from the chart above, the balance in the Sewer Operations fund has been relatively stable over the past 4+ year period illustrated in the chart. The trend line illustrates that the overall trend, however, has been a gradual increase in fund balance through 2014. The January 2012 spike reflected transfers of \$277 thousand to the Sewer Capital Improvement (652) fund and \$308.2 thousand to

the Sewer Debt Service (654) fund. With the exception of those anomalies, revenues have tracked fairly closely to revenues, although spending has frequently exceeded revenue. It is these transfers that have primarily caused the trend line to be negatively sloped.

Based upon current estimates of revenues and expenditures, the current projections call for the balance to decline in 2016, and every year after over the following five years (see chart at the bottom of the previous page), with expenditures generally exceeding revenues. The deficit becomes more critical in later years (2020 - 2021). This chart has been updated with the proposed 2017 budget data through 2021.
