RE: **November 2013 Financial Condition Report**

I am pleased to present this report on the financial condition of the city as of November 30, 2013. The year is now nearly complete, and we have a pretty good idea of where we can expect to end 2013. November was a very busy and productive month in the department, in that we: (1) completed the development and input of the vendor database, including requesting updated W-9 and ACH payment information; (2) attended 2-day off-site system training on the new SSI accounting system; (3) participated in a ratings call with Moody's on the BAN issuance; (4) received, reviewed and analyzed five responses to the City's RFP process for banking services; (5) coordinated the creation of a new FormFire account for the submission of employee health insurance information for the purpose of quoting different plans; (6) completed the pricing and closing process for the \$5.365 million BAN issuance; and (7) developed Interim City Administrator posting notice and placed advertisement in multiple venues. The month of December should be relatively quiet and provide us with time to prepare for January. January promises to be an extremely busy month, as we prepare to close the year, begin the preparation of the GAAP conversion worksheets, and roll-out the new accounting system to all city departments.

On a year to-date cash basis, the city has collected approximately \$23.17 million in total revenue from all sources, or 90.22% of the full-year budget. This total is distorted, however, by the inclusion of nearly \$8.8 million in debt issuance revenue, \$4.33 million in transfer/advance revenue and the collection of \$974.2 thousand in full-year property taxes. Excluding the \$13.1 million in debt/transfer revenue from the equation, as well as adjusting for the timing of the property tax revenues would result in year to-date collection rate that is equal to 82.36% of budget. This amount is continuing to run below the 11-month straight-line rate of 91.67%. The variance was primarily the result of: (1) income tax collections running \$40.4 thousand below the straight-line rate; (2) \$40.8 thousand in estate tax revenues (100% of budget); and (3) service charge revenues running \$127.5 thousand above budget; which are offset by \$1.66 million in grants/loans not yet received (\$500 thousand – Mink Street/OPWC, \$225 thousand – MARCS tower/LGIF, \$570 – SRTS, \$194 thousand – CHIP/CDBG). The

revenue projections were reviewed and updated during October to reflect the current collection trends. Included in this was an increase of \$191.1 thousand in income tax revenue.

Income tax collections for the month were \$367.9 thousand, and were 11.14% lower than last year when compared to November 2012. Total year to-date collections are \$3.64 million (90.66% of budget), and when compared to the November 2012 YTD total of \$3.49 million, are \$142.9 thousand or 4.09% higher. The full-year 2013 budget is currently projected to be \$4.0 million. It is important to note that the November 2012 year to-date collections were 93.02% of full-year actual collections, and the 2011 collections were 93.77%

of the full-year total collections. As mentioned earlier, income tax revenues were increased by approximately \$191 thousand during the month of October to reflect the better than anticipated rate of collections. It was this revised rate that was used to base the 2014 revenue forecast upon.

Income Tax Collections - All Funds

The city has received both of its semi-annual property tax settlements from Licking County. Total property taxes received to-date are \$975.1 thousand, and are \$57.8 thousand, or 6.3% higher than the same period in 2012. The increase is due to: (1) higher real property tax collections (up \$18.7 thousand, or 2.36%); and (2) increased TIF payments in lieu of taxes (PILOT) which were up by \$51.9 thousand, or 50.15%; offset by (3) non-receipt of tangible personal property tax in 2013 (down \$13 thousand). The 2013 budget in this line

is \$1.07 million and is projected to be up by \$150.8 thousand (16.43%) above the 2012 full-year collections. This total includes \$206.1 thousand in TIF receipts, and approximately \$5.3 thousand in other property tax revenues.

YTD Revenue by Fund

loans. Through November 30, a total of \$1.51 million has been collected (50.28% of the category budget) has been collected. Most of the current shortfall is due to: \$500 thousand in Mink Street grant/loan proceeds from OPWC to be received later in 2013 or early 2014; \$570.3 thousand in Safe Routes to School grants not yet received; \$194 thousand in CHIP/CDBG project reimbursements not received; and \$225 thousand MARCS LGIF loan not yet received.

Service charge revenues are another major revenue category for the city. As the title would imply, these revenues are received in exchange for providing services to residents, businesses and other customers. For 2013, approximately \$3.37 million has been budgeted for total service charge revenues. Year to-date collections are \$3.21 million, or 95.45% of the budget. The eleven-month total is up by \$670.5 thousand (26.36%) when compared to the same period in 2012. At \$3.17 million or 94.21% of the category budget, water and sewer usage fees represent the largest single component of this category. Usage fees collected through November 30 are \$3.03 million, or 95.68% of the full-year budget in this line item. In comparison, November 2012 year to-date collections were \$2.36 million and represented 91.44% of the full-year 2012 actual collections. This would indicate that collections are beginning to run ahead of the 2013 estimates. Provided that the current trend continues, water and sewer service charge revenues could end the year approximately \$125 thousand better than budget on a full-year basis.

With eleven months under our belt in 2013, spending continues to appear that it is in line with expectations. As of November 30, the combined total unencumbered balance as a percentage of the budget (for all funds) is 32.98%, and has improved from last month's ratio of 29.85%. Current budget projections indicate that the city should end the year at a rate of 25.94%, slightly below the upper end of the target range of 10-25%.

The general fund ended the month of November 2013 with an unencumbered balance of \$617,091 and is down by \$585.9 thousand, or 48.7% from November 2012. The Police (B13) fund decreased by \$50.5 thousand (4.05%) from 2012 as well, while the Street (B1) fund unencumbered fund balance increased by \$285.0 thousand (46.62%). Much of the decline is the result of increased allocation of income tax collections to those funds.

YTD Expenditures by Fund

(excludes encumbrances)

The chart on the left plots revenue, expenditures and fund balance since January 2012. The solid color lines represent actual numbers, and the dotted lines represent projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs, and provide a smoothed trend of the fund balance over the time horizon of the chart.

Current projections call for the balance to gradually decline each year through 2017. This is due to expenses either exceeding or being roughly equal to revenues in each of those years. We will be updating these projections during the development of the 2014 budget.

While these balance declines were not unanticipated, it will be important for the city to continue to closely monitor each of the key fund balances to ensure that adequate funding is available to provide the desired

level of service to the community in the future. Unless income tax revenues increase dramatically in the near future (such as securing a major tenant for the business park/JRS), the ability of the city to be able to fund spending on capital projects may soon become limited. Maintaining adequate reserves to ensure ongoing operations and the ability to service

our debt are factors that the ratings agencies consider when evaluating the city's fiscal health.

I am providing this summary analysis to facilitate a better understanding of the sources of all city revenues, the status of collections to-date and available fund balances. The report will now turn its focus to each of the primary governmental and enterprise funds of the city: A1 – General Fund; B1 – Street Fund; B13 – Police Fund; C6 – Capital Improvements; and E1/E2 – Water/Sewer Funds.

Respectfully submitted,

**CITY OF PATASKALA, OHIO

THE FOLLOWING IS THE AMENDED OFFICIAL CERTIFICATE OF ESTIMATED RESOURCES FOR THE FISCAL YEAR BEGINNING JANUARY 1, 2013 AS REVISED BY THE BUDGET COMMISSION OF LICKING COUNTY WHICH SHALL GOVERN THE TOTAL APPROPRIATION MADE AT ANY TIME DURING SUCH FISCAL YEAR.

BUDGET COMMISSION

Michael L. Smith

Kenneth Oswalt

Scott K. Ryan

THIS PAGE INTENIONALLY
LEFT BLANK

General Fund (A1)

Revenue – On a year to-date basis, the general fund has been credited with total revenue of approximately \$1.59 million, which reflects 92.09% of budget. Excluding the impact of interfund advance repayments in the calculation and the timing of the semi-annual property tax receipt, the total collected amount becomes 96.1% of budget. On a year to-date basis through November 30, general fund revenues are running better than budget when compared to a straight-line rate of 91.67%.

YTD General Fund Revenue by Source

General Fund Revenue - Budget

The largest revenue source for the general fund is property taxes, which account for 48.37% of the 2013 fund revenue budget. The 2013 budget is \$835.7 thousand, and is projected to up by \$34.8 thousand (4.35%) from 2012 full-year collections. To-date, the general fund has received \$819.8 thousand in property taxes, or 98.09% of budget. This total is up by \$18.9 thousand (2.36%) from the same period in 2012.

Fines, licenses and permits revenue represents the second largest revenue category for the general fund. The 2013 budget in this category is \$248.1 thousand (14.36% of budget), and consists of fines, forfeitures, building licenses/permits, and other miscellaneous permits. The city has received \$234.6 thousand in this category to-date (94.58% of budget), and is down by \$4.8 thousand (1.99%) from 2012. The variance is due to increased collection of building permits and licenses (up \$15.1 thousand or 26.49%), offset by reduced fines and forfeitures (down \$19.9 thousand or 10.95%).

Intergovernmental revenues is the other major general fund revenue source. For 2013, it is projected to account for approximately \$227.3 thousand (13.16% of budget). This category consists of the following revenue items: local government distributions, property tax rollback/homestead exemption reimbursements from the state; electric utility income tax reimbursement; and cigarette/liquor taxes and fees. Through November 30, the fund has received \$225.1 thousand in this category, and is running ahead of budget by \$16.7 thousand (8.03%). The total is up by \$10.4 thousand, or 4.84%, from the same eleven-month period in 2012 and is due to: increased special assessments for property maintenance, etc. (up \$5.2), \$2.0 thousand grant received in 2012 (non-recurring in 2013), and increased estate tax revenue (up \$19.4); offset by lower local government fund (LGF) revenues (down \$13.9 thousand).

Expenditures – The general fund has a total appropriated expenditure budget for 2013 of approximately \$2.35 million. Total spending through November 30 is \$1.77 million, and is equal to 75.55% of the budget. Excluding interfund advances and transfers in the calculation results in total spending equal to 71.08% of budget versus a straight-line basis of 91.67%. Most of the categories are somewhat below the straight-line rate with the exception of contractual services, which is only 60.12% of budget.

Other than interfund transfers and advances, salaries, wages and other employee-related costs represent the largest expense category with a 2013 budget of \$567.2 thousand, or 24.16% of the general fund budget. Spending through November 30 is \$473.8 thousand, or 83.53% budget. This category is running better than expectations through eleven months when compared to the straight-line rate of 91.67%.

Contractual services is another major expense category in the general fund. The 2013 budget in this category is \$565.2 thousand (24.07% of budget) and provides for non-employee personal services. Spending through November 30 is \$339.8 thousand, or 60.12% of budget, and is running below budget on a year-to-date basis. Including encumbrances (i.e., purchase orders) in the total, 74.78% has been either spent or committed to be spent. It is important to note that much of the spending in this category does not tend to follow a linear path; rather it is typically disbursed in large 'chunks' to the vendors and consultants when the services are provided. It would appear that we might have a \$75-100 thousand budget opportunity in this category as we go into year-end..

Supplies and general operating expenditures is another significant expense category in the general fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2013 budget of \$268.9 thousand, or 11.45% of the fund's budget. Spending to-date is \$189.9 thousand or 70.62% of budget. Including encumbrances in the calculation, the total spent or committed is \$238.9 thousand (88.85% of budget). Spending in this category is up by \$37.1 thousand (24.26%) from the same eleven-month period in 2012. Much of the variance is due to: annual dues and memberships being paid in January for the entire year; copier lease payments; and additional community communication piece mailings.

Fund Balance – The general fund is the primary operating account for the city from which expenses, other than those associated with the Street, Police and Debt Service functions are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods

to stabilize fluctuations in revenues or periods of greater than typical spending. Evaluating the fund balance (and the corresponding revenues and expenses) is a valuable exercise in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

The chart on the left plots revenue, expenditures and fund balance since January 2012. The solid color lines represent actual numbers, and the dotted lines represent projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs, and provide a smoothed trend of the fund balance over the time horizon of the chart.

As you can see from the chart, the general fund has been declining consistently over the past 23 months. With the exception of August 2013, it also is projected to generally decline. The major spikes in revenue (typically March & August) represent the receipt of the semi-annual property tax settlements. The expense spike in February 2012 was the result of: (1) payment of \$100 thousand on the municipal building note; (2) annual payment of \$60 thousand to the Licking County Board of Health; and (3) a \$26 thousand interfund transfer. The expense spike in December 2012 was primarily the result of the annual note payment on the municipal building debt. The March 2013 spike reflects the refunding of the 2012 notes.

Developed as a part of the 2014 budget process, the current projections call for the balance to decline in 2014 and 2016, and then stabilize. The primary driver of the stabilization is the final balloon payment on the municipal building note will be made in 2014. From that point on, the revenues and expenditures are projected to gradually grow over the following three years.

Street Fund (B1)

Revenue – On a year to-date basis, the Street fund has been credited with total revenue of approximately \$1.8 million, which reflects 88.92% of budget. Total revenue to date is up by \$674.8 thousand (59.74%) from the same eleven-month period in 2012. The fund's primary revenue sources are income taxes and intergovernmental revenues.

YTD Street Fund Revenue by Source

Street Fund Revenue - Budget

Income tax collections in November were \$116.4 thousand, and are up by \$54.1 thousand (86.91%) compared to the same period in 2012. Year to-date income tax revenues credited to the fund are \$1.16 million, and represent 90.48% of budget.

In comparison, collections through November 2012 were \$524.1 thousand, and represented 93.02% of the 2012 full-year collections. Accounting for the change in revenue allocation to the fund (from 15% to 32% of total collections) and correcting for a data entry error in May 2012, it appears that collections are running slightly ahead last year at this point in time. The forecast includes an increase of approximately \$60 thousand made in October. The

Income Tax Collections - Street Fund

The green and light blue bars in the chart to the right reflect the revenue that would have been allocated to the fund had the percentage had not been modified in 2011 and 2012. In both 2011 and 2012, the fund would have received a lower distribution than in 2012 when calculating the amount 'as-if' the fund was receiving the current allocation percentage in that year.

Intergovernmental revenues in the Street fund are budgeted at \$692.8 thousand and represent 34.14% of the fund's revenue budget. This category is comprised of state-shared (i.e., permissive) taxes, and

grants/loans from other governmental agencies. On a year to-date basis, the city has received \$592.1 thousand in this category (85.47% of budget), and is up by 1.8% when compared to the same eleven-month period in 2012. Compared to a straight-line basis of 91.67%, collections are running below expectations, with permissive tax receipts being \$43.0 thousand (6.2%) below budget.

The other category, Other Sources, is budgeted at \$31 thousand, and the city has received \$52.7 thousand to-date. The revenue budget was recently increased in this category to reflect the higher than planned receipts.

Expenditures – The Street fund has a total appropriated expenditure budget for 2013 of approximately \$1.89 million. Total spending through November 30 was \$1.49 million and is equal to 79.03% of budget. Including encumbrances in the calculation, the total becomes 84.96% of the full-year budget. The total compares favorably to the eleven-month straight-line basis of 91.67%.

Street Fund Budget by Category

YTD Street Fund Spending

(excludes encumbrances)

Salaries, wages and other employee-related costs represent the largest expense category with a 2013 budget of \$840.4 thousand, or 44.5% of the fund's budget. Spending through November 30 is \$619.6 thousand, or 73.73% of budget. The favorable YTD variance (\$150.8 thousand) and was the result of a number of open budgeted positions, favorable health insurance expenses, which were partially offset by the full-year funding of employee HRA accounts.

Supplies and general operating expenditures is another significant expense category in the Street fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2013 budget of \$611.9 thousand, or 32.33% of the fund's budget. Spending to-date is \$508.3 thousand, or 83.07% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$569.9 thousand or 93.13% of the budget. Most of the YTD variance is the result of full-year purchase orders for utilities, fuel, etc.

Spending on capital projects and equipment is the other major expense category in the Street fund. The 2013 budget in this category is \$206.7 thousand (10.92% of budget) and provides funding for street and

roadway infrastructure maintenance and related equipment. Spending to-date is \$186.6 thousand, or 90.27% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$205.7 thousand or 99.47% of the budget. This higher rate of spending is due to the purchase of, or orders placed for, new capital equipment such as trucks, mowers, etc.

Fund Balance – The Street fund is the primary operating account for the city from which expenses associated with the maintenance of the city’s streets, roads and rights-of-way are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues or periods of greater than typical spending. Evaluating

the fund balance (and the corresponding revenues and expenses) is a valuable exercise in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

The chart at left plots revenue, expenditures and fund balance since January 2012. The solid color lines represent actual numbers, and the dotted lines represent projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs, and provide a smoothed trend of the fund balance over the time horizon of the chart.

As you can see from the chart, the Street fund has been generally stable, although down from January 2012. The revenue spike in May 2013 is the result of better than anticipated income tax collections. Other than that item, revenues and spending have been closely matched. The growth in spending in 2013 is the result of the addition and replacement of Public Service staff.

Developed as a part of the 2014 budget process, the current projections (see chart at right) call for the fund balance to increase through 2014, decrease dramatically through 2016, and then slowly increase over the following 2 years. The peak in expenditures in 2016 is the result of multiple capital equipment leases being in place at the same time. These leases have been proposed as a part of the 2014 budget process.

Police Fund (B13)

Revenue – On a year to-date basis, the Police fund has been credited with total revenue of approximately \$2.16 million, which reflects 83.11% of budget. Total revenue to-date is approximately \$1.43 million (155.88%) higher than the same eleven-month period in 2012. The major reason for the increase was the change in the fund's income tax allocation percentage in 2013 from 24% to 32%. The fund's primary revenue sources are income taxes and intergovernmental revenues.

YTD Police Fund Revenue by Source

Police Fund Revenue - Budget

Year to-date income tax revenues credited to the fund are \$2.12 million and represent 90.47% of the budget. In comparison, collections through November 2012 were \$838.6 thousand and represented 93.02% of the 2012 full-year collections. It is important to note that the allocation to the fund has increased in 2013 from 24% to 58.5%. Adjusting for the change in allocations rates (see green and light blue bars in chart to the right) would indicate that collections are running above the 2012 pace for this fund. The current forecast was increased by \$110,900 during the month of October. The green/light blue bars in the chart above have been restated to reflect the revenue that would have been allocated to the fund in 2011 and 2012 had the percentage been the same in all years.

Income Tax Collections - Police Fund

Intergovernmental revenues are budgeted at \$225 thousand and represent 8.05% of the fund's revenue budget. The category is comprised of revenues from other (federal, state and local) governmental agencies.

The revenue currently in the 2013 budget is the LGIF loan (90% with 10% local match) for the construction of a MARCS antenna in the city.

The other major category, Other Sources, has a budget of \$30.0 thousand, and the city has received \$39.1 thousand to-date. These are miscellaneous non-recurring revenue items which are not material. The revenue forecast for this category was increased by \$23,500 in October to reflect current collections.

Expenditures – The Police fund has a total appropriated expenditure budget for 2013 of approximately \$2.73 million. Total spending through November 30 is \$1.89 million and is equal to 69.38% of the 2013 budget. Total spending to-date compares favorably to the straight-line rate of 91.67%. If encumbrances (e.g., purchase orders) are included in the total, the total spending (or commitments to spend) is equal to \$2.31 million, or 84.62% of the budget. Spending to date is approximately \$138.6 thousand (7.9%) higher than the same eleven-month period in 2012. The increase is primarily due to higher wage and benefit costs as the result of filled officer positions that were open for a portion of 2012 (up \$157.8 thousand), higher income tax collection fees and refunds (up \$88.9 thousand), reduced supplies and materials (down \$16.7 thousand), and the timing/amount of the purchase of new cruisers in 2013 (down \$91.4 thousand).

Police Fund Budget by Category

YTD Police Fund Spending

(excludes encumbrances)

Salaries, wages and other employee-related costs represent the largest expense category with a 2013 budget of \$1.59 million, or 58.13% of the fund's budget. Spending through November 30 is \$1.36 million or 86.09% of budget, and is running somewhat below budget. Compared to FY 2012, spending was up by \$157.8 thousand (13.07%) due to the full-year impact in 2013 of three Patrol Officers hired during 2012.

Supplies and general operating expenditures is another significant expense category in the Police fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2013 budget of \$221.9 thousand, or 8.13% of budget. Spending through November 30 is \$152.4 thousand and is 68.68% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$197.6 thousand (89.05% of budget). Compared to the same eleven-month period in FY 2012, spending was down by \$16.7 thousand (9.89%).

Spending on capital equipment is the other major expense category in the Police fund. The 2013 budget in this category is \$638.2 thousand (23.39% of budget) and provides funding for the acquisition of law enforcement-related equipment and capital improvements. Spending through November 30 was \$163.1

thousand, or 25.56% of budget. Including encumbrances in the calculation, the total committed to spend is \$511.5 thousand, or 80.15% of budget. This large encumbrance balance is due to the issuance of purchase orders for the construction of a MARCS radio tower and for the building roof improvements. Most of the funding (90%) for the radio antenna tower project will be provided by a 10-year, zero-interest loan from the LGIF program. The remaining budget is to provide a one-year payment on a capital lease for the required replacement radio equipment.

Fund Balance – The Police fund is the primary operating account for the city from which expenses associated with the operation of the city’s Police department are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues or periods of greater than typical spending. Evaluating the fund balance (and the corresponding revenues and expenses) is a valuable exercise in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

The above chart plots revenue, expenditures and fund balance since January 2012. The solid color lines represent actual numbers, and the dotted lines represent projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs, and provide a smoothed trend of the fund balance over the time horizon of the chart.

November. The positive variance in May was the result of better than anticipated income tax collections, and the November variance was the result of transferring \$180,000 from the Bond Improvement fund for the MARCS tower. Other than that item, expenditures have regularly exceeded revenues. The growth in spending in 2013 is the result of: (1) the addition three new Police officers; (2) planned purchase of MARCS radios and construction of tower; and (3) Police facility building improvements. Current projections call for the balance to decline each year through 2017, and then turn positive in 2018 (see chart above).

Capital Improvements Fund (C6)

Revenue – The Capital Improvements fund has a 2013 revenue budget of \$520.7 thousand. On a year to-date basis, the fund has received approximately \$510.6 thousand in total revenue, or 98.05% of total budget. Excluding interfund transfers from the calculation results in a total of 96.32% of budget. The fund's primary revenue sources are income taxes and interfund transfers.

**YTD Capital Improvements Fund
Revenue by Source**

**Capital Improvements Fund
Revenue Budget**

Income taxes are the primary external revenue source for the Capital Improvements fund. The 2013 budget for income tax revenues in the fund is \$275.7 thousand. Year to-date income tax revenue credited to the fund is \$256.0 thousand, or 92.84% of the full-year budget. In comparison, collections through November 2012 were \$1.92 million, and reflected 93.02% of full year 2012 collections. The current forecast was increased by \$16.9 thousand during the month of October. It is important to note that the allocation to the fund has decreased from 55% in 2012 to 6.75% in 2013. Adjusting for the change in allocation rates (see green bar in the chart at right) would indicate that collections are running \$20.1 thousand (8.53%) above the 2012 pace for this fund.

**Income Tax Collections
Capital Improvements Fund**

The other major category, Interfund Transfers, was budgeted at \$245 thousand, and that transfer was effected during the month of April. The transfer appropriation is intended to provide additional funding for planned capital improvement projects.

Expenditures – The Capital Improvements fund has a total appropriated expenditure budget for 2013 of approximately \$911.9 thousand. Total spending through November 30 was approximately \$146.1 thousand. Including encumbrances (e.g., purchase orders) of \$556.7 thousand into the calculation results in a spending ratio of 77.08%.

Capital Fund Budget by Category

YTD Capital Fund Spending

(excludes encumbrances)

As would be expected, spending on capital projects and equipment is the major expense category in the Capital Improvements fund. The 2013 budget in this category is \$867.6 thousand, (95.14% of budget) and provides funding for the construction of a number of infrastructure improvements. Spending through November 30 was \$146.1 thousand, or 16.02% of budget. Including encumbrances in the calculation, total committed spending is equal to \$702.8 thousand (77.08% of budget).

The primary planned expenditures in this category were the result of carryover encumbrances on retainage associated with the 2012 Roadway Asset Management Plan (RAMP) projects. In addition to the funds carried over from 2012 for the 2012 RAMP program, the budget includes \$750,000 for the 2013 RAMP program and \$21,000 for the Brightwaters lift station paving project. The list of projects includes the following: (*asterisk indicates projects funded by \$750,000 from 2012 BAN issuance)

GRAND TOTAL	\$867,550	\$690,461	\$177,089

The balance of the BAN funds, either not spent or encumbered at the end of 2012, was transferred into the Debt Service (D1) fund to assist in the payoff of the 2012 note that took place in March 2013. As the city rolled the note over into another 1-year note, the required amount of the new note was reduced by approximately that amount. We will continue to monitor the remaining encumbrances that were carried over into 2013. Any balance that would remain after the projects are completed would also be transferred into the Debt Service fund as well.

Contractual services is the other major expense category in the Capital Improvements fund. The 2013 budget in this category is \$14.3 thousand (1.57% of budget) and provides for non-employee personal services. Spending through November 30 is \$12.4 thousand, or 86.37% of budget. Spending in this category is designated for the payment of tax collection fees to the Regional Income Tax Agency (RITA) and for taxpayer refund requests. Spending to-date is \$74.2 thousand (85.69%) lower than the same eleven-month period in 2012.

Water Utility Fund (E1)

Revenue – The Water fund has a 2013 revenue budget of \$1.08 million. The fund’s primary revenue sources are charges for service and other sources. On a year to-date basis, the Water Utility fund has been credited with total revenue of approximately \$1.01 million, or 93.98% of budget. The total is down by \$195.8 thousand, or 16.12%, from the same eleven-month period in 2012.

YTD Water Fund Revenue by Source

Water Fund Revenue - Budget

Usage Fee Collections - Water Fund

Charges for service represent the largest revenue category in this fund. Year to-date revenues credited to the fund are \$1.05 million and represent 94.42% of the 2013 full-year collection budget. In comparison, collections through November 2012 were \$1.2 million and represented 93.53% of the 2012 full-year collections. Assuming that this rate of collections continues, the current revenue projection would appear to be in line with the 2013 forecast.

The other major category, Other Sources, has a budget of \$30 thousand. To-date, the city has received \$23.5 thousand (78.33% of budget). This line item accounts for any non-usage related fees and charges.

Expenditures – The Water Utility fund has a total appropriated expenditure budget for 2013 of approximately \$1.3 million. Total spending through November 30 is approximately \$1.02 million, or 78.23% of budget. Excluding interfund advances and transfers in the calculation results in total spending equal to 73.05% of budget versus a straight-line basis of 91.67%. Including encumbrances (e.g., purchase orders) of \$144.7 thousand in the total results in total spending or commitments of 86.82% of budget. The majority of the encumbered balance is associated with full-year spending contracts such as utilities, fuel, etc.

Water Fund Budget by Category

YTD Water Fund Spending

(excludes encumbrances)

In 2013, supplies and general operating expenses is the primary major expense category in the Water Utility fund. It combines a number of other basic types of expenditures including operating supplies, equipment, utilities and other miscellaneous expenses. It has a 2013 budget of \$496.8 thousand, or 38.2% of the fund budget. Spending through November 30 is \$352.4 thousand, or 70.94% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$463.2 thousand, or 93.25% of budget. Much of the encumbered balance is due to full-year contract spending on operating supplies, utilities and fuel. Compared to the same eleven-month period in FY 2012, spending in this category is down by \$88.0 thousand, or 19.99%.

Salaries, wages and other employee-related costs represent the other major expense category with a 2013 budget of \$437.0 thousand, or 33.61% of the total fund budget. Spending through November 30 is \$370.4 thousand, or 84.76% of budget. Compared to the same eleven-month period in FY 2012, spending is up by \$42.8 thousand or 13.07%. The unfavorable variance to-date is primarily due to one-time wage and benefit savings associated with the open water supervisor position during 2012 that did not occur in 2013.

Fund Balance – The Water Utility fund is the primary operating account for the city from which expenses associated with the operation of the city's water treatment and distribution operations are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues or periods of greater than typical

Monthly Revenue, Expenditure & Fund Balance - Water Fund January, 2012 through December, 2013

spending. Evaluating the fund balance (and the corresponding revenues and expenses) is a valuable exercise in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

The chart at the bottom of the previous page plots revenue, expenditures and fund balance since January 2012. The solid color lines represent actual numbers, and the dotted lines represent projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs, and provide a smoothed trend of the fund balance over the time horizon of the chart.

As you can see from the chart, the balance in the Water Utility fund has been fluctuating between \$261 thousand and \$558 thousand. The trend line illustrates that the overall trend, however, is that the fund balance is flat with a very gradual increase in fund balance over the two-year period. The September 2012 and March 2013 spikes in spending were the result of transfers of \$245 thousand each to the E12 (water debt service) fund. With the exception of those anomalies, revenues have generally exceeded expenditures.

It is these transfers that have caused the trend line to be negatively sloped.

Based upon current estimates of revenues and expenditures, the current projections call for the balance to decline each year over the following 5 years. Although total spending levels off at a lower level than in 2013, it is greater than revenues in each of those years until 2018.

Sewer Fund (E2)

Revenue – The Sewer fund has a 2012 revenue budget of approximately \$1.01 million. The fund’s primary revenue sources are charges for service, intergovernmental and other sources. On a year to-date basis, the Sewer Utility fund has been credited with total revenue of approximately \$944.5 thousand, or 93.66% of budget. Compared to the same eleven-month period in 2012, revenue is down by \$35.5 thousand, or 3.62%.

YTD Sewer Fund Revenue by Source

Sewer Fund Revenue - Budget

Charges for service represent the largest revenue category in this fund. Year to-date 2013 revenues credited to the fund are approximately \$932.9 thousand, or 94.71% of budget. In comparison, collections for the same eleven-month period in 2012 were \$964.9 thousand and represented 93.07% of the 2012 full-year collections. The forecast was reduced by \$100.2 thousand during the month of October to reflect current collections.

The other major category, Other Sources, has a budget of \$12.5 thousand. To-date, the city has received \$11.6 thousand. We increased the forecast in October to reflect the higher than anticipated rate of collections.

Expenditures – The Sewer Utility fund has a total appropriated expenditure budget for 2013 of approximately \$1.36 million. Total spending through November 30 is approximately \$96261 thousand, or 70.73% of budget. Including encumbrances (e.g., purchase orders) of \$183.4 thousand in the calculation results in a spending ratio of 84.21%. Much of the encumbered balance is related to full-year contract

spending such as fuel, utilities and supplies. Compared to the same eleven-month period in 2012, spending in the fund was down by \$661.7 thousand (40.74%) in 2013. The primary drivers of the decrease were: reduced interfund transfers (down \$800.2 thousand); increased wages and benefits (up \$119.5 thousand); increased supplies and materials (up \$10.9 thousand); increased capital spending (up \$9.3 thousand); offset by reduced contractual services (down \$1.2 thousand).

Sewer Fund Budget by Category

YTD Sewer Fund Spending

(excludes encumbrances)

For 2013, the largest expense category for the Sewer fund is supplies and general operating expenditures. It combines a number of other basic types of expenditures including operating supplies, equipment, utilities and other miscellaneous expenses. It has a 2013 budget of \$632.2 thousand, or 46.46% of the fund budget. Year to-date spending is \$361.0 thousand, or 57.1% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$510.1 thousand, or 82.26% of budget. Much of the encumbered balance is due to full-year contract spending on operating supplies, utilities and fuel. Compared to the same eleven-month period in FY 2012, spending in this category is up by \$10.9 thousand, or 3.1%.

Salaries, wages and other employee-related costs represent the other major expense category with a 2013 budget of \$579.3 thousand, or 42.57% of the total fund budget. Spending through November 30 is \$497.1 thousand, or 85.81% of budget. Compared to the same eleven-month period in 2012, spending is up by \$119.5 thousand, or 31.66%. Much of the increase is due to wage and benefit savings associated with a mid-year 2012 hire of the utility operator position, as well as increased allocation in 2013 of administrative staff to the utility division.

Fund Balance – The Sewer Utility fund is the primary operating account for the city from which expenses associated with the operation of the city's waste water treatment operations are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues or periods of greater than typical spending. Evaluating the fund balance (and the corresponding revenues and expenses) is a valuable exercise in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

The chart below plots revenue, expenditures and fund balance since January 2012. The solid color lines represent actual numbers, and the dotted lines represent projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs, and provide a smoothed trend of the fund balance over the time horizon of the chart.

As you can see from the chart, the balance in the Sewer Utility fund has been stable but declining over the two-year period illustrated in the chart. The trend line illustrates that the overall trend, however, is a gradual decline in fund balance. The January 2012 spike reflected transfers of \$277 thousand to the Sewer Capital Improvement (E6) fund and \$308.2 thousand to the Sewer Debt Service (E12) fund. With the exception of those anomalies, revenues have tracked fairly closely to revenues, although spending has typically exceeded revenue. It is these transfers that have primarily caused the trend line to be negatively sloped.

Based upon current estimates of revenues and expenditures, the current projections call for the balance to decline each year through 2016 and then gradually begin climbing. Although total spending levels off at a lower level than in 2012, it is greater than revenues in each of those years until 2018. Revenue would appear to be catching up by 2017, although that is far from certain with those projections being so far out.

Understanding Your Statement

City of Pataskala Account No. 28852868

The following information is related to the investments currently held in your account at Raymond James & Associates, Inc., member New York Stock Exchange/SIPC. Information about commissions, service fees and other charges related to your transactions is included on your transaction confirmations. All financial products you have purchased or sold through your Raymond James financial advisor should appear on a trade confirmation and your account statements. Please contact your financial advisor and Raymond James Client Services at 800-647-7378 if you do not see any such purchase or sale reported on your trade confirmation or account statements; if you have questions about the securities positions, balances and transactions in your account; or if you note any other inaccuracy on your account statement. If you have questions about the following information or would like to update your investment profile, please contact your financial advisor. Raymond James' financial statement is available for your inspection at its offices or at raymondjames.com, or a copy of it will be mailed upon your written request. Any oral communications should be reconfirmed in writing to further protect your rights, including rights under the Securities Investor Protection Act.

Raymond James International Headquarters | 880 Carillon Parkway | St. Petersburg, FL 33716 | raymondjames.com

Securities Investor Protection Corporation - Raymond James & Associates, Inc. is a member of the Securities Investor Protection Corporation (SIPC), which protects securities customers of its members up to \$500,000, including \$250,000 for claims for cash. An explanatory brochure is available upon request by calling 202-371-8300 or visiting sipc.org. Raymond James & Associates, Inc. has purchased excess SIPC coverage through various syndicates of Lloyd's, a London-based firm. Excess SIPC coverage is fully protected by the Lloyd's trust funds and Lloyd's Central Fund. The additional protection currently provided has an aggregate firm limit of \$750 million, including a sub-limit of \$1.9 million per customer for cash above basic SIPC for the wrongful abstraction of customer funds. Account protection applies when a SIPC-member firm fails financially and is unable to meet obligations to securities clients, but it does not protect against market fluctuations.

Raymond James & Associates, Inc. and Raymond James Financial Services, Inc. are affiliated with Raymond James Bank, National Association (N.A.), member FDIC. Unless otherwise specified, products purchased from or held at Raymond James & Associates or purchased from Raymond James Financial Services are not insured by the FDIC, are not deposits or other obligations of Raymond James Bank, N.A., are not guaranteed by Raymond James Bank, N.A., and are subject to investment risks, including possible loss of the principal invested.

Cost Basis - Effective January 1, 2011, Raymond James reports adjusted cost basis for tax lots of securities covered by the Emergency Economic Stabilization Act of 2008 to the IRS on Form 1099-B. These tax lots are indicated by a "c." Raymond James will default to the first-in, first-out (FIFO) cost basis accounting method for trades and transfers unless a different method has been selected.

For tax lots or securities that are not covered by the Emergency Economic Stabilization Act of 2008, cost basis information may not be available, may have been estimated by you or your financial advisor, or may have been obtained from third-party sources, and in these instances, Raymond James cannot guarantee its accuracy. Information for uncovered positions will not be reported to the IRS.

Gain or loss will only be calculated for tax lots that have cost basis. Gain or loss information may or may not reflect adjusted cost for return of principal/capital or accretion/amortization. Tax lots where the cost basis is true zero, displayed as 0.00, are included in cost calculations. "Gain or (loss) Pct" is calculated utilizing total cost basis.

Missing basis is not included in cost calculations. Please contact your financial advisor to have missing cost basis information added to your account.

The cost basis, proceeds, or gain/loss information reported has been adjusted to account for a disallowed loss from a wash sale. These adjustments are indicated by a "w" on the affected taxlots. A wash sale occurs when a security is sold for a loss and is re-purchased either 30 days before or after the sell.

Cost basis information for uncovered securities or tax lots will not be reported to the IRS; it is displayed for your information only and should not be relied upon for tax reporting purposes. Past performance is not a

guarantee of future results. Market valuations may have been obtained from third-party sources and Raymond James cannot guarantee its accuracy or completeness.

For securities classified as Grantor or Royalty Trusts, Master Limited Partnerships or other widely held fixed income trusts, cost basis is not adjusted. These securities receive principal payments or distributions that are classified differently by the issuer at the end of the year. Clients should continue to rely on the issuer information for both cost basis adjustments as well as proceeds adjustments for these securities. For this reason the gain/loss displayed will be unadjusted and is not a true indicator of the investment return. Any adjustment to sales proceeds will be reflected on your 1099.

Unrealized gains or losses are not calculated for depreciated gifted securities, referred to as dual basis, indicated by a "d." Both Total Cost and Gift FMV exist, as the actual gain/loss cannot be determined until the position is sold.

Reinvestments of dividend or capital gain distributions are excluded from Amount Invested but are included in Total Cost Basis. For any security in which a client has elected the average cost reporting method, the Amount Invested will utilize the average cost per share of all tax lots to calculate amount invested.

Mutual fund tax lots are displayed as one total position and may include covered and non-covered tax lots some of which could be adjusted for wash sales. Sold mutual fund shares that were purchased through reinvestments are combined and shown with a purchase date of "various."

Adjustments made to cost basis throughout the year may cause the information displayed on your client statement to differ from what is reported on the 1099-B which is provided to the IRS at the end of the year.

Please refer to the fixed income and alternative investment disclosures for additional cost basis information on those securities.

FINRA Disclosure - For additional background information on any firm or representative registered with the Financial Industry Regulatory Authority (FINRA), please contact FINRA at 800-289-9999 or finra.org and request the public disclosure program brochure.

Understanding Your Statement (continued)

City of Pataskala Account No. 28852868

Dollar-Weighted Performance Reporting - The dollar-weighted performance results represented in this statement are based on performance calculations that take into account the impact of deposits and withdrawals. Because these cash flows are beyond the control of the advisor, they should not be used to evaluate his/her performance. In addition, returns for securities purchased on margin include the effects of leverage. Performance returns are calculated net of management fees, if applicable. Returns for periods greater than one year are annualized returns unless they represent entire 12-month periods. All performance figures exclude unpriced securities (including securities of indeterminate value), limited partnerships (other than limited partnerships classified as Alternative Investments and appearing in that section of your statement), Performance for Annuity and RJ Bank CD's may not be all inclusive. Considering these exclusions, overall performance may be different than the results presented in this statement. Past performance is not a guarantee of future results. Information used to calculate performance may have been obtained from third party sources and Raymond James cannot guarantee the accuracy of such information.

Fixed Income Investments - Fixed income securities, including brokered CDs, are priced using evaluations, which may be matrix- or model-based, and do not necessarily reflect actual trades. These price evaluations suggest current estimated market values, which may be significantly higher or lower than the amount you would pay (receive) in an actual purchase (sale) of the security. These estimates, which are obtained from various sources, assume normal market conditions and are based on large volume transactions. Market prices of fixed income securities may be affected by several risks, including without limitation: interest rate risk - a rise (fall) in interest rates may reduce (increase) the value of your investment; default or credit risk - the issuer's ability to make interest and principal payments, and illiquidity risk - the inability to sell bonds promptly prior to maturity with minimal loss of principal. An overview of these and other risks is available at raymondjames.com, finra.org, emma.msrb.org, and investinginbonds.com.

Investors interested in regular updates about individual municipal securities can sign up on EMMA (emma.msrb.org) to receive e-mail alerts when disclosure documents are posted on the website. Investors who track particular bonds identified by their unique "CUSIP" numbers can receive an e-mail notification from EMMA every time a new disclosure document is posted for that security. These documents can include annual and other periodic financial filings, operating data and other types of material events. To sign up for an alert, enter a nine-digit CUSIP number into the "Muni Search" function of EMMA.

Securities ratings, provided by independent nationally recognized statistical organizations, also called Ratings Agencies, are appraisals of the financial stability of a particular issuer and its ability to pay income and return principal on your investment. Although they can assist investors in evaluating the creditworthiness of an issuer, ratings are not recommendations to buy, sell or hold a security, nor do ratings remove market risk. In addition, ratings are subject to review, revision, suspension, reduction or withdrawal at any time, and any of these changes in ratings may affect the current market value of your investment. A Rating Agency may also place an issuer under review or credit watch which may be another indicator of a future rating change. Generally, higher yields and/or lower ratings reflect higher perceived credit risk. News events relating to a particular issuer may generally impact the market price, and consequently the yield, of that issuer's securities, even if their rating has not yet changed. Securities with the same rating can actually trade at significantly different prices. The absence of a rating may indicate that the issuer has not requested a rating evaluation, insufficient data exists on the issuer to derive a rating, or that a rating request was denied or removed. Non-rated securities are speculative in nature and are less liquid. Raymond James trade confirmations, online accounts and monthly statements display only the ratings of those Rating Agencies to which Raymond James subscribes. For more information on ratings, please visit moody's.com, standardandpoors.com and fitchratings.com. Individual investors may request Moody's and/or S&P credit reports from their financial advisors. Additionally, Fitch reports are available for municipal bonds.

Certificates of Deposit (CDs) purchased through a securities broker and held in a brokerage account are considered deposits with the issuing institution and are insured by the Federal Deposit Insurance Company (FDIC), an independent agency of the U.S. government. FDIC insurance covers up to \$250,000 (including principal and interest) for deposits held in different ownership categories, including single accounts, joint accounts, trust accounts, IRAs, and certain other retirement accounts, per issuer. If you purchased this CD at a premium to par, the premium is not FDIC insured. Certificate of Deposit Disclosure Statement is available at raymondjames.com/liquid.htm. For more information, please visit fdic.gov.

Mortgage-backed securities and Collateralized Mortgage Obligations (CMOs) are priced based on average life. The actual maturity date may be shorter than stated. For more information, please review FINRA's Investor's Guide to Mortgage Securities and CMOs at finra.org.

Foreign bonds are subject to additional risks, including without limitation, currency fluctuations, differing accounting standards, political and economic instability, and changes in tax laws.

The cost basis for Original Issue Discount (OID) bonds and municipal bonds purchased at a premium may or may not have been adjusted using the constant yield method, providing an approximation of the adjusted cost basis and unrealized gains or losses. Cost basis information is displayed for your information only and should not be relied upon for tax reporting purposes. You should consult your tax advisor to ensure proper tax reporting.

Future Payments - Cash and stock dividends, interest and principal payment information are provided to Raymond James by outside vendors. The information is believed to be accurate; however, because future payments listed may not represent all dividends, interest and/or principal that will be paid into your account, the information should be used as an estimate only. Dividends and interest payments are not included as part of your portfolio value; principal payments are included in your total portfolio value.

Eagle Class - JPMorgan Money Market Funds - Share balances for the Eagle Class - JPMorgan U.S. Government Money Market Fund, Eagle Class - JPMorgan Prime Money Market Fund and the Eagle Class - JPMorgan Tax Free Money Market Fund (which may also be referred to as Eagle - JPM US Gov, Eagle - JPM Prime or Eagle - JPM Tax Free throughout the statement) are held at the respective funds, not Raymond James & Associates, Inc. Purchases and redemptions resulting from cash sweeps to or from the funds are shown in the Cash Sweep Activity section of your statement.

Estimated Annual Income and Estimated Income Yield - The Estimated Annual Income (EAI) and Estimated Income Yield (EY) provided on this statement are an estimate of the income a security will distribute during the year. These figures should not be confused with actual cash flows, investment yields or investment returns. Actual income or yield may be lower or higher than the estimated amounts. A number of factors may influence the actual income or yield that is received. The amount or frequency of an issuer's dividend may fluctuate or cease, which may cause the income and or yield of the security to fluctuate. EY reflects only the income generated by an investment. It does not reflect changes in its price, which may fluctuate. EAI and EY for certain types of securities could include a return of principal or capital gains which could overstate the EAI and EY. Information used to calculate Estimated Annual Income and or Estimated Income Yield may be obtained from third party sources and Raymond James cannot guarantee the accuracy of such information. Estimated Annual Income and or Estimated Income Yield amounts should not be used as a financial planning tool.

Understanding Your Statement (continued)

City of Pataskala Account No. 28852868

Pricing - While sources used for pricing publicly traded securities are considered reliable, the prices displayed on your statement may be based on actual trades, bid/ask information or vendor evaluations. As such, the prices displayed on your statement may or may not reflect actual trade prices you would receive in the current market. Pricing for non-publicly traded securities is obtained from a variety of sources, which may include issuer-provided information. Raymond James does not guarantee the accuracy, reliability, completeness or attainability of this information. Investment decisions should be made only after contacting your financial advisor.

Asset Allocation Analysis - This analysis is for informational purposes only and is intended to be used as part of a complete portfolio review with your financial advisor. The data provided in the asset allocation analysis is subject to inherent limitations and is not guaranteed to represent actual asset class exposure(s) within your account(s) at the time of calculation. See raymondjames.com/asset_allocation/faq to learn more. Raymond James and Morningstar data are subject to the availability of fund filings as well as internal analysis and may not represent real-time allocations.

The Cash & Cash Alternatives asset class represents cash and money market holdings, as well as cash allocations contained in mutual funds, annuities, and other investment products. For an actual cash value, please refer to the holdings sections of the Client Statement.

Due to rounding, the sum of the broad classes may not exactly match the total assets value.
