RE: August 2012 Financial Condition Report

We have closed the books for the month of August 2012, and I am pleased to present this report on the financial condition of the city. On a year to-date cash basis, the city has collected more than \$12.07

million in total revenue from all sources, or 72.35% of budget. Income tax collections for the month were \$306,407 and were 18.51% lower than last year when compared to the \$376,014 collected in August 2011. Total year to-date income tax collections are \$2.5 million (93.62% of budget), compared to an August 2011 YTD total of \$2.3 million, an increase of \$211,057 or 9.91%. The full-year budget is currently projected to be \$2.67 million. It is important to note that the August 2011 year to-date collections were 70.34% of the fullyear actual collections. Assuming that the collection current rate continues, it could represent a positive variance to the budget of between \$500-600,000. We will most likely be

YTD Revenue by Source Transfers & Property Tax Advances \$917,229 \$1.308.997 7.60% 10.84% Misc Other \$1,781,823. Income Tax 14.75% \$2,507,581 Fines & 20.76% **Permits** \$199.978 1.66% Inter-Service governmental Charges \$3,344,469 \$1,775,298 31.11% 14.70%

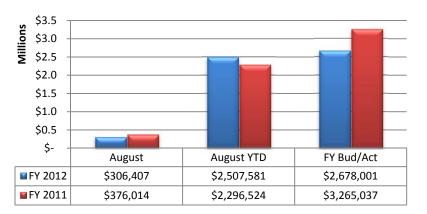

increasing the revenue estimate to account for the higher than anticipated collections. This will also serve as a more accurate starting point for the development of 2013-2017 revenue projections.

The city has received both of the semi-annual property tax settlements from Licking County. Total property taxes received to-date are \$795,712, and are \$144.2 thousand, or 15.34% below budget. I have contacted the Licking County Auditor to identify why the revenues are below expectations. Total real property tax collections are only \$12,500 or 1.5% below 2011 levels. The full-year budget for all property tax revenues (real, personal, etc.) is \$1.05 million, and includes approximately \$100 thousand in TIF receipts and nearly \$20 thousand in other property tax revenues.

Intergovernmental revenues represent one of the largest revenue categories for the city. They reflect funding from the federal, state and county governments. The revenues can come in the form of loans,

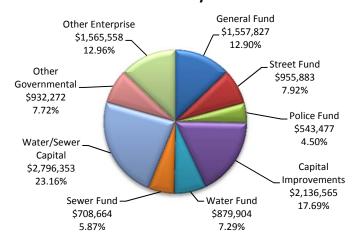

grants or reimbursements. For 2012, a total of \$6.38 million has been budgeted, with \$3.9 million of the total coming from grants and loans. Through August 31, a total of \$3.59 million (56.16% of the budget) has been collected. Approximately \$900 thousand of the uncollected total represents **OPWC** loan/grant payments directly to the associated contractors, and is directly offset non-incurred by project expenditures.

Income Tax Collections - All Funds

Service charge revenues are another major revenue category for the city. As the title would imply, these revenues are received in exchange for providing services to residents, businesses and other customers. Water and sewer usage fees represent the largest single component of this category. For 2012, \$2.20 million has been budgeted for total service charge revenues. Water and sewer fees represent \$2.04

YTD Revenue by Fund

million, or 92.75% of the total. Year to date collections are \$1.78 million, or 80.68% of the budget. The total is up by \$108,440 (6.51%) when compared to the same eightmonth period in 2011.

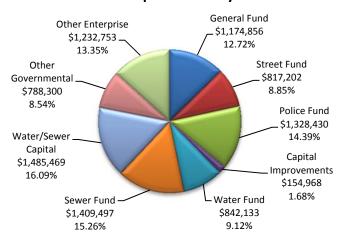

With eight months on the books for 2012, expenditures continue to be better than or generally in line with expectations. As of combined August 31, the total unencumbered balance as a percentage of the budget (for all funds - excluding contingency funds) is 34.25%. This is higher than, and compares favorably to, the 8-month straight-line rate of 33.33%.

The general fund ended the month of August 2012 with an unencumbered balance of \$1.30 million, and is down by \$240.2 thousand, or 15.57% from August 2011. In addition, the Street (B1) fund unencumbered

fund balance has declined by \$47.7 thousand (6.00%), and the Police (B13) fund has declined by \$585.0 thousand (32.17%) from 2011 as well. It will be important for the city to continue to closely monitor each of the key fund balances to ensure that adequate funding is available to provide the desired level of service to the community.

I have provided this summary analysis to facilitate a better understanding of the sources of all city revenues, the status of

YTD Expenditures by Fund

collections to-date and available fund balances. The report will now turn its focus to each of the primary governmental and enterprise funds of the city: A1 – General Fund; B1 – Street Fund; B13 – Police Fund; C6 – Capital Improvements; and E1/E2 – Water/Sewer Funds.

Over the next several months, we will be spending a significant amount of time and effort developing revenue projections, as well as program and project spending plans for 2013 and beyond. I look forward to presenting our assumptions and the resulting product to Council in mid-October.

Respectfully submitted,

Certificate of County Auditor Issued Along With An Amended Certificate of Estimated Resources Which Also Establishes or Amends the Total Appropriations

Rev. Code Sec. 5705.39

County Auditor's Office, Licking County, Ohio Newark, Ohio August 10, 2012

Jamie Nicholson, Finance Director <u>City of Pataskala</u>

I, Michael L. Smith, County Auditor of Licking County, Ohio, do hereby certify that the total appropriations from each fund taken together with all other outstanding appropriations, do not exceed the last amended official estimate of resources for the fiscal year beginning January 1st, 2012, as determined by the Budget Commission of said County.

Michael L. Smith

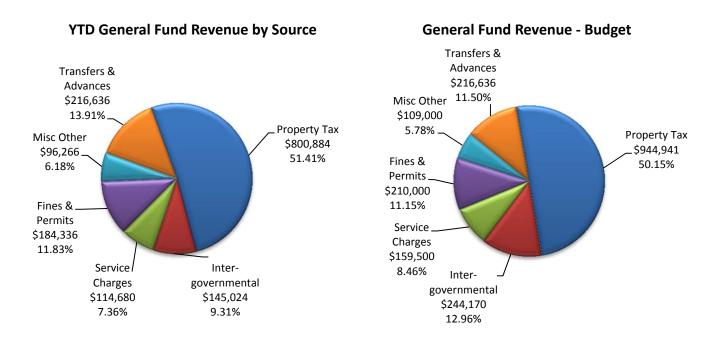

Michael L. Smith, County Auditor, Licking County, Ohio

General Fund (A1)

Revenue — On a year to-date basis, the general fund has been credited with total revenue of approximately \$1.56 million which reflects 82.68% of budget. Excluding the impact of interfund advance repayments in the calculation, the total collected amount becomes 80.43% of budget. While it might appear that general fund revenue collections are running significantly higher than budget when compared to a straight-line basis of 66.67% of budget, the timing of when the city receives its semi-annual property tax settlements has a tendency to skew the total. Eliminating the impact that the property tax receipt has in the calculation, the total is actually running at 74.77% of budget, or approximately 8% ahead of budget.

The largest revenue source for the general fund is property taxes which account for 50.15% of the 2012 fund revenue budget. To-date, the general fund has received \$800,884 in property taxes, or 84.75% of budget. This total is in below 2011 receipts (down \$12,988 from August 2011).

Intergovernmental revenues represent the second largest revenue category for the general fund. For 2012, it is projected to account for approximately \$244.2 thousand (12.96% of budget), and consists of the following revenue items: local government distributions, property tax rollback/homestead exemption reimbursement from the state; electric utility income tax reimbursement; and cigarette/liquor taxes and fees. Through August 31, the fund has received \$145,024 in this category, or 71.9% of budget. The total is down by \$74.3 thousand, or 33.88%, from the same period in 2011. The decrease is primarily due to the receipt of \$61.7 thousand in homestead/rollback revenues in August 2011 not yet received in 2012, as well as reduced other local government distributions from the state.

Fines, licenses and permits revenue is the other major general fund revenue source. The 2012 budget in this category is \$210.0 thousand (11.15% of budget), and consists of fines, forfeitures, building licenses/permits, and other miscellaneous permits. The city has received \$184,336 in this category to-date (87.78% of budget), and is down \$5.7 thousand (3.01%) from 2011. The variance is due to reduced collection of fines and forfeitures.

Expenditures – The general fund has a total appropriated expenditure budget of nearly \$2.97 million, inclusive of \$665.6 thousand in contingency funds. Total spending through August 31 is \$1.17 million and is equal to 39.6% of the 2012 budget. Excluding contingency and interfund advances and transfers in the calculation results in total spending equal to 50.7% of budget versus a straight-line basis of 66.67%.

Salaries, wages and other employee-related costs represent the largest expense category with a 2012 budget of \$824.2 thousand, or 27.78% of budget. Spending through August 31 is \$500.7 thousand or 60.75% of budget. The slightly favorable YTD variance (\$48.8 thousand below budget) is due to the delayed hiring of several open positions.

Contractual services is another major expense category in the general fund. The 2012 budget in this category is \$440.7 thousand (14.85% of budget) and provides for non-employee personal services. Spending through August 31 is \$272.4 thousand or 61.82% of budget and is in line with expectations after 8 months. It is important to note that much of the spending in this category does not tend to follow a linear path; rather it is typically disbursed in large 'chunks' to the vendors when the services are provided.

Supplies and general operating expenditures is the other significant expense category in the general fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2012 budget of \$313.9 thousand, or 10.58% of budget. Spending to-date is \$105.3 thousand or 33.54% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$119.1 thousand (37.96% of budget). A lack of required spending on needed repairs and improvements to lands and buildings resulting in spending to be below budget is the primary cause of the positive variance.

Street Fund (B1)

Revenue – The Street fund has a 2012 revenue budget of \$946.8 thousand. On a year to-date basis, the Street fund has been credited with total revenue of approximately \$955.9 thousand, or 100.96% of budget. Total revenue to-date is approximately \$53.7 thousand (5.31%) below the same period in 2011. The fund's primary revenue sources are income taxes and intergovernmental revenues.

YTD Street Fund Revenue by Source

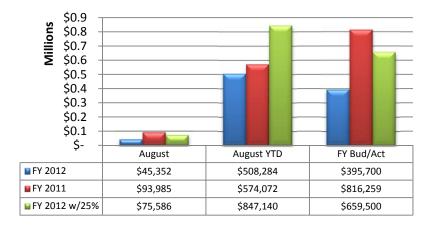

Street Fund Revenue - Budget

Year to-date Income tax revenues credited to the fund are \$508.3 thousand and represent 128.45% of budget. In comparison, collections through August 2011 were \$574.1 thousand and represented 70.32% of the 2011 full-year collections. Even though the allocation to the fund has been changed from 25% to 15% of total collections, it would appear that collections are running ahead of last year and may represent an opportunity to the city. The green bar in the chart to the right reflects the revenue that

Income Tax Collections - Street Fund

would have been allocated to the fund if the percentage had not changed for 2012. We will most likely be increasing the revenue estimate to account for the higher than anticipated collections. This will also serve as a more accurate starting point for the development of 2013-2017 revenue projections.

Intergovernmental revenues in the Street fund are budgeted at \$550.0 thousand and represent 58.09% of the fund's revenue budget. This category is comprised of state-shared (i.e., permissive) taxes, and grants/loans from other governmental agencies. On a year to-date basis, the city has received \$425.0 thousand in this category (77.28% of budget) and is flat to 2011 collections. The favorable variance to

budget in 2012 is due to motor vehicle registration fees and gasoline excise tax revenues running better than originally projected.

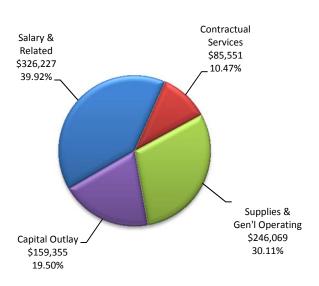

The other category, Other Sources, was budgeted at \$1.1 thousand, and the city has received \$22.6 thousand to-date. The significant positive variance to budget is due to the one-time receipt of: 2011 RITA retainer refund (\$5.2 thousand); medical insurance rebate/refunds (\$8.5 thousand); sale of miscellaneous city assets (\$1.8 thousand); and miscellaneous vendor refunds (\$1.4 thousand).

Expenditures – The Street fund has a total appropriated expenditure budget of \$1.67 million, inclusive of \$178.3 thousand in contingency funds. Total spending through August 31 is \$817.2 thousand and is equal to 48.93% of the 2012 budget. Excluding contingency funds in the calculation, total spending is equal to 54.77% of budget versus a straight-line basis of 66.67%.

Street Fund Budget by Category

Contractual Services Salary & \$176,300 Related 10.56% \$593,477 35.53% _ Supplies & Gen'l Operating \$474,659 28.42% Contingency \$178,324 10.68% Capital Outlay \$247,500 14.82%

YTD Street Fund Spending

Salaries, wages and other employee-related costs represent the largest expense category with a 2012 budget of \$593.5 thousand, or 35.53% of budget. Spending through August 31 is \$326.2 thousand or 54.97% of budget. The favorable YTD variance (\$69.4 thousand below budget) is due to better than anticipated use of overtime, savings realized on medical insurance due to election of single versus family coverage, an open position and the hiring of 2 part-time workers instead of the 3 included in the budget.

Supplies and general operating expenditures is another significant expense category in the Street fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2012 budget of \$474.7 thousand, or 28.42% of budget. Spending to-date is \$246.1 thousand or 51.84% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$284.7 thousand (59.97% of budget). Below-budget spending on storm drainage repairs, street light repairs, and miscellaneous street maintenance materials is the cause of the positive variance.

Spending on capital projects and equipment is the other major expense category in the Street fund. The 2012 budget in this category is \$247.5 thousand (14.82% of budget) and provides funding for street and roadway infrastructure maintenance and related equipment. Spending through August 31 is \$159.4

thousand, or 64.39% of budget. Including encumbrances in the calculation, the total committed to spend is \$168.6 thousand (68.11% of budget). Spending in this category also does not tend to go on a straight-line basis; rather it is typically disbursed periodically to the vendors when the projects are invoiced and/or completed.

Police Fund (B13)

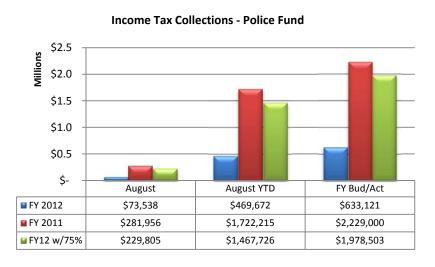

Revenue – The Police fund has a 2012 revenue budget of \$638.6 thousand. On a year to-date basis, the Police fund has received approximately \$543.5 thousand in total revenue, or 85.10% of budget. Total revenue to-date, however, is approximately \$1.20 million (68.83%) below the same period in 2011. The fund's primary revenue sources are income taxes and intergovernmental revenues.

YTD Police Fund Revenue by Source

Police Fund Revenue - Budget

Year to-date income tax revenues credited to the fund are \$469.7 thousand and represent 74.18% of budget. In comparison, collections through August 2011 were \$1.72 million and represented 70.33% of the 2011 full-year collections. Even though the allocation to the fund has been changed from 75% to 24%

of total collections, collections todate are running ahead of ahead of budget and may represent an opportunity to the city. Adjusting for the change in allocation rates (see green bar in chart at left), however, would indicate that collections are running below the 2011 pace for this fund.

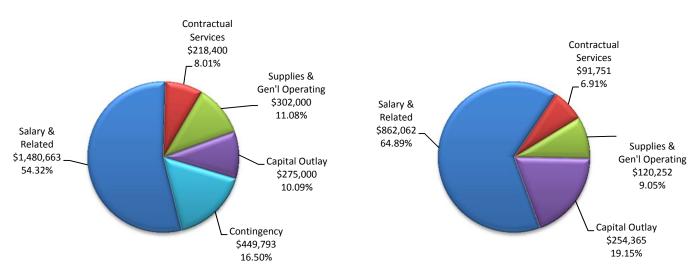

The other major category, Other Sources, was budgeted at \$5.0 thousand, and the city has received \$69.8 thousand to-date. The significant positive variance to budget is due to the one-time

receipt of: 2011 RITA retainer refund (\$15.6 thousand); medical insurance rebate/refunds (\$14.7 thousand); sale of miscellaneous/surplus city assets (\$1.8 thousand); Homeland Security payment on seizures (\$10.1 thousand); and Ohio Plan insurance reimbursement on two totaled Police cruisers (\$22.3 thousand).

Expenditures – The Police fund has a total appropriated expenditure budget of \$2.72 million, inclusive of \$449.8 thousand in contingency funds. Total spending through August 31 is \$1.32 million and is equal to 48.73% of the 2012 budget. Excluding contingency funds in the calculation, total spending is equal to 58.37% of budget versus a straight-line basis of 66.67%.

Police Fund Budget by Category

YTD Police Fund Spending

Salaries, wages and other employee-related costs represent the largest expense category with a 2012 budget of \$1.48 million, or 54.32% of budget. Spending through August 31 is \$862.1 thousand or 58.22% of budget. The favorable YTD variance (\$125.1 thousand below budget) is due to better than anticipated use of overtime, several employees 'opting out' of the health insurance, tuition reimbursement not incurred, and new employees selecting insurance coverage other than the family level included in the 2012 budget.

Supplies and general operating expenditures is another significant expense category in the Police fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2012 budget of \$302.0 thousand, or 11.08% of budget. Spending to-date is \$120.3 thousand or 39.82% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$159.3 thousand (82.76% of budget). Below-budget spending on patrol vehicle miscellaneous parts/repairs, continuing education reimbursements, uniforms/other miscellaneous equipment and radio/computer repairs are the drivers of the positive variance.

Spending on capital equipment is the other major expense category in the Police fund. The 2012 budget in this category is \$275 thousand (10.09% of budget) and provides funding for the acquisition of law enforcement-related equipment and capital improvements. Spending through August 31 is \$254.4 thousand, or 92.5% of budget. The primary expenditure in this category is the purchase of 7 new police cruisers. The city took possession of those in July at a total cost of \$254.4 thousand.

Capital Improvements Fund (C6)

Revenue – The Capital Improvements fund has a 2012 revenue budget of \$2.21 million. On a year to-date basis, the fund has received approximately \$2.13 in total revenue, or 96.752% of budget. As this is a new fund in 2012, there is no revenue to compare it against for 2011. The fund's primary revenue sources are income taxes and other sources.

Income taxes are the primary revenue source for the Capital Improvements fund. The 2012 budget for income tax revenues in the fund is \$1.45 million. Year to-date Income tax revenues credited to the fund are \$1.38 million and represent 95.06% of budget. As was the case in the previously reviewed funds, it is

apparent that collections are running ahead of last year and may represent an opportunity to the city.

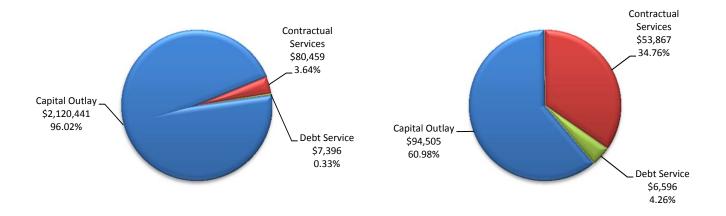

The other major category, Other Sources, was budgeted at \$757.4 thousand, and to-date, the city has received all of that revenue. This category is where a portion (\$750,000) of the 2012 BANs were recorded. The costs of issuance and underwriters discount associated with this portion of the BANs (\$7.5 thousand) were recorded here as well.

Expenditures – The Capital Improvements fund has a total appropriated expenditure budget of \$2.21 million. Total spending through August 31 is \$155.0 thousand and is equal to 7.02% of the 2012 budget. Including encumbrances in the calculation, total committed spending is equal to 84.45% of budget versus a straight-line basis of 66.67%.

As would be expected, spending on capital projects and equipment is the major expense category in the Capital Improvements fund. The 2012 budget in this category is \$2.12 million, (96.02% of budget) and

Capital Fund Budget by Category

YTD Capital Fund Spending

provides funding for the construction of a number of infrastructure improvements. Spending through August 31 is \$84.5 thousand, or 4.46% of budget. Including encumbrances in the calculation, total committed spending is equal to \$1.80 million (85.10% of budget). The primary planned expenditures in this category are the 2012 Roadway Asset Management Plan (RAMP) projects, and include the following projects: (*asterisk indicates projects funded by \$750,000 from 2012 BAN issuance)

Project Name	Budget
McIntosh Road*	\$290,488
Township Road – Phase I*	86,149

Contractual services is the other major expense category in the Capital Improvements fund. The 2012 budget in this category is \$80.5 thousand (3.64% of budget) and provides for non-employee personal services. Spending through August 31 is \$53.9 thousand, or 66.95% of budget. Spending in this category is designated for the payment of tax collection fees to the Regional Income Tax Agency (RITA) and for taxpayer refund requests.

Water Fund (E1)

Revenue – The Water fund has a 2012 revenue budget of \$1.1 million. On a year to-date basis, the Water fund has received approximately \$879.9 thousand in total revenue, or 79.98% of budget, and is up by \$135.9 thousand or 18.26% from the same period in 2011. The fund's primary revenue sources are charges for service and other sources.

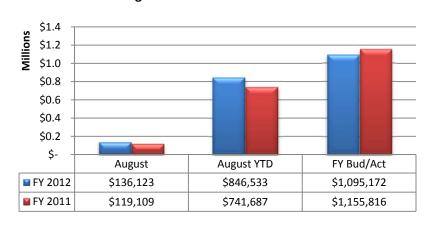

YTD Water Fund Revenue by Source

Water Fund Revenue - Budget

Year to-date service charge revenues credited to the fund are \$864.5 thousand and represent 78.94% of budget. In comparison, collections through August 2011 were \$741.7 thousand and represented 64.17%

Usage Fee Collections - Water Fund

of the 2011 full-year collections. It would appear that collections are running ahead of last year and may represent an opportunity to the city. We will most likely be increasing the revenue estimate to account for the higher than anticipated collections. This will also serve as a more accurate starting point for the development of 2013-2017 revenue projections.

The other major category, Other Sources, was budgeted at \$5.0 thousand, and the city has

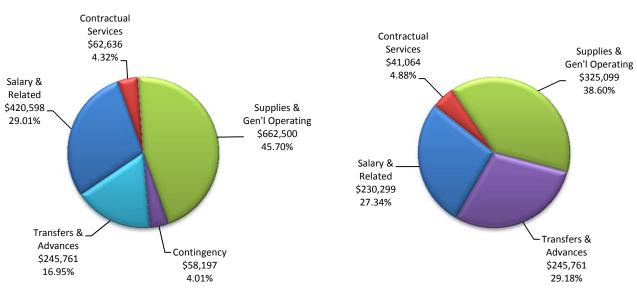

received \$15.4 thousand to-date. The significant positive variance to budget is due to the one-time receipt of: medical insurance rebate/refunds (\$6.0 thousand); sale of miscellaneous city assets (\$2.9 thousand); employee COBRA premiums (\$3.4 thousand), and increased plan purchases (\$1.0 thousand).

Expenditures – The Water fund has a total appropriated expenditure budget of \$1.44 million, inclusive of \$58.2 thousand in contingency funds. Total spending through August 31 is \$842.1 thousand and is equal

to 58.09% of the 2012 budget. Excluding transfers, advances and contingency funds in the calculation, total spending is equal to 52.05% of budget versus a straight-line basis of 66.67%.

Water Fund Budget by Category

YTD Water Fund Spending

Supplies and general operating is the primary major expense category in the Water fund. It combines a number of other basic types of expenditures including operating supplies, equipment, utilities and other miscellaneous expenses. It has a 2012 budget of \$662.5 thousand, or 45.7% of the total Water fund budget. Spending to-date is \$325.1 thousand or 49.06% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$445.0 thousand (67.17% of budget). Below-budget spending on plant maintenance and operating supplies are the primary drivers of the positive variance.

Salaries, wages and other employee-related costs represent the other major expense category with a 2012 budget of \$420.6 thousand, or 29.01% of the total fund budget. Spending through August 31 is \$230.3 thousand or 54.76% of budget. The slightly favorable YTD variance (\$50.1 thousand below budget) is due to: union wage increase budgeted at 5.00% versus 4.25% approved in the CBA; wage and benefit savings associated with the open water supervisor position; and an employee 'opted out' of the health insurance program.

Sewer Fund (E2)

Revenue – The Sewer fund has a 2012 revenue budget of \$850.8 thousand. On a year to-date basis, the Sewer fund has received approximately \$708.7 thousand in total revenue, or 83.3% of budget. It is down, however, by \$659.0 thousand or 48.19% from the same period in 2011. The primary driver of the decline is the receipt of over \$700 thousand in OWDA loan proceeds in 2011 for the construction of the wastewater treatment plant. The fund's primary revenue sources are charges for service, intergovernmental and other sources.

YTD Sewer Fund Revenue by Source

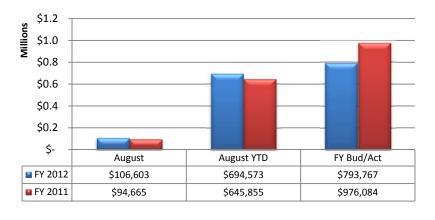

Sewer Fund Revenue - Budget

Year to-date service charge revenues credited to the fund are \$694.6 thousand and represent 87.5% of budget. In comparison, collections through August 2011 were \$645.9 thousand and represented 92.99% of the 2011 full-year collections. It would appear that collections are running ahead of last year, but may

come in below budget if the trend continues in 2012

The intergovernmental revenue category reflects the remaining OWDA loan disbursements associated with the construction of the wastewater treatment plan. It is budgeted at \$52.0 thousand, but nothing has been received by the city to-date. The project is being finalized at this time, and the final distributions will be made shortly.

The other major category, Other Sources, was budgeted at \$5.0 thousand, and the city has received

\$12.9 thousand to-date. The significant positive variance to budget is due to the one-time receipt of: medical insurance rebate/refunds (\$6.0 thousand); sale of surplus city assets (\$2.9 thousand); and employee COBRA premiums (\$2.6 thousand).

Expenditures – The Sewer fund has a total appropriated expenditure budget of \$2.77 million, inclusive of \$757.0 thousand in contingency funds. Total spending through August 31 is \$1.33 million and is equal to 48.2% of the 2012 budget. Excluding transfers, advances and contingency funds in the calculation, total spending is equal to 49.07% of budget versus a straight-line basis of 66.67%.

Supplies and general operating expenditures is the next major expense category in the Sewer fund. It combines a number of other basic types of expenditures including operating supplies, equipment, utilities and other miscellaneous expenses. It has a 2012 budget of \$552.8 thousand, or 19.9% of budget. Spending to-date is \$257.6 thousand or 46.61% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$360.3 thousand (65.18% of budget). The primary drivers of the positive variance include: below-budget spending on sludge disposal, utilities, and lab services; partially offset by higher than anticipated spending on sewer system maintenance and safety equipment.

Salaries, wages and other employee-related costs represent the other major expense category with a 2012 budget of \$486.4 thousand, or 17.51% of budget. Spending through August 31 is \$265.1 thousand or 54.5% of budget. The slightly favorable YTD variance (\$59.2 thousand below budget) is due to: union wage increase was budgeted at 5.00% versus 4.25% approved in the CBA; wage and benefit savings associated with a mid-year hire of the utility operator position; and an employee 'opted out' of the health insurance program.
