RE: November 2012 Financial Condition Report

We have closed the books for the month of November 2012, and I am pleased to present this report on the financial condition of the city. On a year to-date cash basis, the city has collected more than \$17.33 million in total revenue from all sources, or 91.17% of budget. This is in line with the 11-month straightline rate of 91.67%.

Income tax collections for the month were \$415,298 and were 6.17% higher than last year when compared to the \$391,158 collected in November 2011. Total year to-date income tax collections are \$3.49 million (92.98% of budget), and when compared to a November 2011 YTD total of \$3.06 million, are \$432,078 or 14.11% higher. The full-year budget is currently projected to be \$3.76 million. It is important to note that the November 2011 year to-date collections were 93.78% of the full-year actual collections.

The city has received both of the semi-annual property tax settlements from Licking County. Total property taxes received todate are \$795,712, and are equal to the current budget. It is important to note, however, that collections are only \$12,500 or 1.5% below 2011 levels. The full-year budget for all property tax revenues (real, personal, etc.) is \$919.9 thousand, and includes approximately \$104 thousand in TIF receipts and approximately \$20 thousand in other property tax revenues.

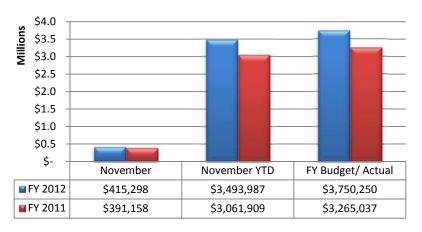

Intergovernmental revenues represent one of the largest revenue categories for the city.

They reflect funding from the federal, state and county governments. The revenues can come in the form of loans, grants or reimbursements. For 2012, a total of \$4.92 million has been budgeted, with \$3.57

million of the total coming from grants and loans. Through November 30, a total of \$3.62 million (73.61% of the category budget) has been collected. Most of the shortfall is due to approximately \$700 thousand in Safe Routes to School grant proceeds that will be received in 2013 and \$300 thousand in CHIP grant revenues that may be received in 2012, but most likely in 2013.

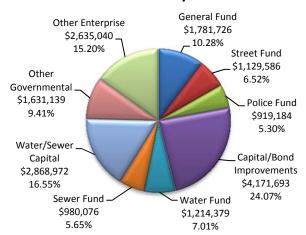

Income Tax Collections - All Funds

Service charge revenues are another

major revenue category for the city. As the title would imply, these revenues are received in exchange for providing services to residents, businesses and other customers. Water and sewer usage fees represent the largest single component of this category. For 2012, approximately \$2.68 million has been budgeted

YTD Revenue by Fund

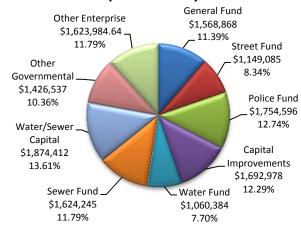

for total service charge revenues. Water and sewer fees represent \$2.51 million, or 93.57% of the category total. Year to date collections are \$2.36 million, or 94.18% of the budget. The total is up by \$181,997 (7.71%) when compared to the same eleven-month period in 2011.

With only one month left to go in 2012, expenditures continue to be better than or generally in line with expectations. As of November 30, the combined total unencumbered balance as a percentage of the budget (for all funds) is 53.12%. This is \$7.3 million higher than, and compares favorably to, the 11-month straight-line

rate of 8.33%. We will work with each of the city departments to control spending during December in order to be able to better manage the year-end carryover balance in all of the city funds.

The general fund ended the month of November 2012 with an unencumbered balance of \$1.07 million, and is down by \$292.0 thousand, or 21.33% from November 2011. In addition, the Street (B1) fund unencumbered fund balance has declined by \$183.2 thousand (22.84%), and the Police (B13) fund has declined by \$819.2 thousand (40.68%) from 2011 as well. While it was not unanticipated for these balance declines, it will be important for the city to continue to closely monitor each of the key fund balances to ensure that adequate funding is available to provide the desired level of service to the community.

YTD Expenditures by Fund

I have provided this summary analysis to facilitate a better understanding of the sources of all city revenues, the status of collections to-date and available fund balances. The report will now turn its focus to each of the primary governmental and enterprise funds of the city: A1 – General Fund; B1 – Street Fund; B13 – Police Fund; C6 – Capital Improvements; and E1/E2 – Water/Sewer Funds.

During the month of November, much of our effort was spent on the creation of various 2013 budget scenarios, as well as completing the BAN transaction and preparing for year-end. During December we will begin final preparations for successfully closing the books on 2012. As a part of that process, any outstanding purchase orders will be reviewed to ensure that any non-required encumbrances are closed prior to opening the books for 2013.

Respectfully submitted,

m, hl

Certificate of County Auditor Issued Along With An Amended Certificate of Estimated Resources Which Also Establishes or Amends the Total Appropriations

Rev. Code Sec. 5705.39

County Auditor's Office, Licking County, Ohio Newark, Ohio November 26, 2012

Jamie Nicholson, Finance Director <u>City of Pataskala</u>

I, Michael L. Smith, County Auditor of Licking County, Ohio, do hereby certify that the total appropriations from each fund taken together with all other outstanding appropriations, do not exceed the last amended official estimate of resources for the fiscal year beginning January 1st, 2012, as determined by the Budget Commission of said County.

Michael L. Smith

Michael L. Smith, County Auditor, Licking County, Ohio

THE FOLLOWING IS THE AMENDED OFFICIAL CERTIFICATE OF ESTIMATED RESOURCES FOR THE FISCAL YEAR BEGINNING JANUARY 1, 2012 AS REVISED BY THE BUDGET COMMISSION OF LICKING COUNTY WHICH SHALL GOVERN THE TOTAL APPROPRIATION MADE AT ANY TIME DURING SUCH FISCAL YEAR.

BUDGET COMMISSION

<u>Michael L. Smith</u> <u>Kenneth Oswalt</u> <u>Scott K. Ryan</u>

General Fund (A1)

Revenue — On a year to-date basis, the general fund has been credited with total revenue of approximately \$1.78 million which reflects 100.95% of budget. Excluding the impact of interfund advance repayments in the calculation, the total collected amount becomes 101.08% of budget. Clearly general fund revenue collections are going to end the year at a level that is higher than the current budget when compared to a straight-line basis of 91.67% of budget. The timing of when the city receives its semi-annual property tax settlements does have a tendency to skew the total. Eliminating the impact that the property tax receipt has in the calculation, the total is actually running at 97.16% of budget, or approximately 5.5% above budget.

YTD General Fund Revenue by Source **General Fund Revenue - Budget** Transfers & Transfers & Advances Advances \$216,636 **Property Tax Property Tax** \$216,636 12.16% \$800,888 \$800,884 12.27% 45.38% 44.95% Misc Other \$125,781_ Misc Other. 7.06% \$119,000 6.74% Fines & **Permits** Fines & \$239,405 **Permits** 13.44% \$221,250 12.54% Inter-Service_ Inter-Service governmental governmental Charges Charges \$214,715 \$172,000 \$235,262 \$184,305 12.05% 9.74% 13.33% 10.34%

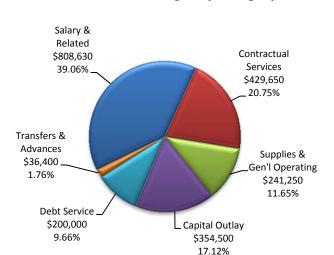

The largest revenue source for the general fund is property taxes which account for 45.38% of the 2012 fund revenue budget. To-date, the general fund has received \$800,884 in property taxes, or 100% of the budget. This total is below 2011 receipts (down \$13,826, or 1.7%, from November 2011).

Intergovernmental revenues represent the second largest revenue category for the general fund (excluding interfund transfers). For 2012, it is projected to account for approximately \$235.3 thousand (13.33% of budget), and consists of the following revenue items: local government distributions, property tax rollback/homestead exemption reimbursement from the state; electric utility income tax reimbursement; and cigarette/liquor taxes and fees. Through November 30, the fund has received \$214,715 in this category, or 91.27% of budget. The total is down by \$79.0 thousand, or 26.89%, from the same period in 2011. The decrease is primarily due to: (1) reduced LGF revenues - \$21.1 thousand; (2) lower rollback/homestead reimbursements - \$6.2; and (3) lower estate tax revenue - \$52.1 thousand.

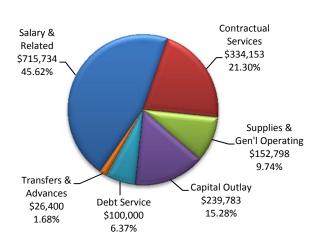

Fines, licenses and permits revenue is the other major general fund revenue source. The 2012 budget in this category is \$221.3 thousand (12.54% of budget), and consists of fines, forfeitures, building licenses/permits, and other miscellaneous permits. The city has received \$239,405 in this category to-date (108.21% of budget), and is down by \$15 thousand (5.9%) from 2011. The variance is due to reduced collection of fines and forfeitures.

Expenditures – The general fund has a total appropriated expenditure budget of approximately \$2.07 million. Total spending through November 30 is \$1.57 million and is equal to 75.77% of the 2012 budget. Excluding interfund advances and transfers in the calculation results in total spending equal to 75.83% of budget versus a straight-line basis of 91.67%.

YTD General Fund Spending

Salaries, wages and other employee-related costs represent the largest expense category with a 2012 budget of \$808.6 thousand, or 39.06% of the general fund budget. Spending through November 30 is \$715.7 thousand or 88.51% of budget. The slightly favorable YTD variance (\$25.5 thousand below budget) is due to the delayed hiring of several open positions.

Contractual services is another major expense category in the general fund. The 2012 budget in this category is \$429.7 thousand (20.75% of budget) and provides for non-employee personal services. Spending through November 30 is \$334.2 thousand or 77.77% of budget and is running better than expectations after 11 months. Including encumbrances (i.e. purchase orders) in the total, 89% has been either spent or committed to be spent. It is important to note that much of the spending in this category does not tend to follow a linear path; rather it is typically disbursed in large 'chunks' to the vendors when the services are provided. It would appear that an opportunity of approximately \$40 thousand exists.

Supplies and general operating expenditures is the other significant expense category in the general fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2012 budget of \$241.3 thousand, or 11.65% of the fund's budget. Spending to-date is \$152.8 thousand or 63.34% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$173.4 thousand (71.87% of budget). A lack of required spending on needed repairs and improvements to lands and buildings resulting in spending to be below budget is the primary cause of the positive variance.

Street Fund (B1)

Revenue – The Street fund has a 2012 revenue budget of \$1.20 million. On a year to-date basis, the Street fund has been credited with total revenue of approximately \$1.13, or 94% of budget. Total revenue to-date is approximately \$227.1 thousand (16.74%) below the same period in 2011. The fund's primary revenue sources are income taxes and intergovernmental revenues.

YTD Street Fund Revenue by Source

Street Fund Revenue - Budget

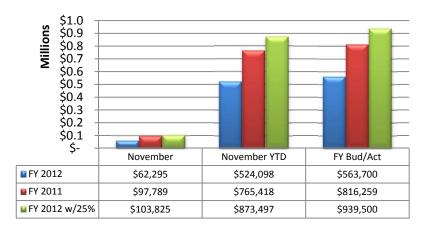

Income tax collections in November were \$62.3 thousand, and were down by \$35.5 thousand (36.3%) compared to the same month in 2011. Year to-date Income tax revenues credited to the fund are \$524.1

thousand and represent 92.97% of budget. In comparison, collections through November 2011 were \$765.4 thousand and represented 93.77% of the 2011 full-year collections. Even though the allocation to the fund has been changed from 25% to 15% of total collections, it appears that collections are running ahead of last year and represent an opportunity to the city. The green bar in the chart to the right reflects the revenue that would have been allocated to the fund if the percentage had not changed for 2012.

Income Tax Collections - Street Fund

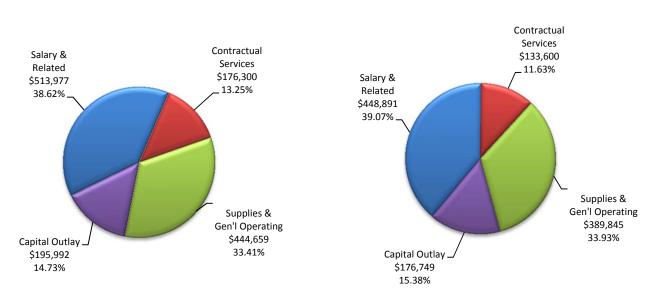

Intergovernmental revenues in the Street fund are budgeted at \$615.0 thousand and represent 51.18% of the fund's revenue budget. This category is comprised of state-shared (i.e., permissive) taxes, and grants/loans from other governmental agencies. On a year to-date basis, the city has received \$581.6 thousand in this category (94.58% of budget) and is up by \$8.1 thousand (1.41%) to 2011 collections. The favorable variance to budget in 2012 is due to motor vehicle registration fees and gasoline excise tax revenues running better than originally projected.

The other category, Other Sources, was budgeted at \$23 thousand, and the city has received \$23.8 thousand to-date. The significant positive variance to the original budget (\$1.1 thousand) is due to the one-time receipt of: 2011 RITA retainer refund (\$5.2 thousand); medical insurance rebate/refunds (\$8.5 thousand); sale of miscellaneous city assets (\$1.8 thousand); and miscellaneous vendor refunds (\$1.4 thousand).

Expenditures – The Street fund has a total appropriated expenditure budget of \$1.33 million. Total spending through November 30 is \$1.15 million and is equal to 86.34% of the 2012 budget and compares favorably versus a straight-line basis of 91.67%.

Street Fund Budget by Category

YTD Street Fund Spending

Salaries, wages and other employee-related costs represent the largest expense category with a 2012 budget of \$514.0 thousand, or 38.62% of the fund's budget. Spending through November 30 is \$448.9 thousand or 87.34% of budget. The favorable YTD variance (\$22.3 thousand below budget) is due to better than anticipated use of overtime, savings realized on medical insurance due to election of single versus family coverage, an open position and the hiring of 2 part-time workers instead of the 3 included in the budget.

Supplies and general operating expenditures is another significant expense category in the Street fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2012 budget of \$444.7 thousand, or 33.41% of budget. Spending to-date is \$389.8 thousand or 87.67% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$427.9 thousand (96.22% of budget). Below-budget spending on storm drainage repairs, street light repairs, and miscellaneous street maintenance materials is the cause of the positive variance.

Spending on capital projects and equipment is the other major expense category in the Street fund. The 2012 budget in this category is \$196.0 thousand (14.73% of budget) and provides funding for street and roadway infrastructure maintenance and related equipment. Spending through November 30 is \$176.7 thousand, or 90.18% of budget. Including encumbrances in the calculation, the total committed to spend is \$186.0 thousand (96.68% of budget). Spending in this category also does not tend to go on a straight-

line basis; rather it is typically disbursed periodically to the vendors when the projects are invoiced and/or completed.

Police Fund (B13)

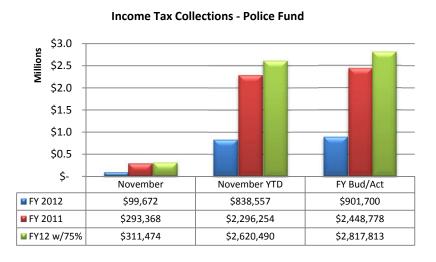

Revenue – The Police fund has a 2012 revenue budget of \$976.4 thousand. On a year to-date basis, the Police fund has received approximately \$919.2 thousand in total revenue, or 94.14% of budget. Total revenue to-date, however, is approximately \$1.40 million (60.4%) below the same period in 2011. The fund's primary revenue sources are income taxes and intergovernmental revenues.

YTD Police Fund Revenue by Source

Police Fund Revenue - Budget

Year to-date income tax revenues credited to the fund are \$838.6 thousand and represent 93% of the revised budget. In comparison, collections through November 2011 were \$2.30 million and represented 93.77% of the 2011 full-year collections. It is important to note that the allocation to the fund has been

changed in 2012 from 75% to 24% of total collections. Adjusting for the change in allocation rates (see green bar in chart at left) would indicate that collections are running above the 2011 pace for this fund. We increased the revenue forecast in October by \$266.9 thousand to reflect the current collection rate.

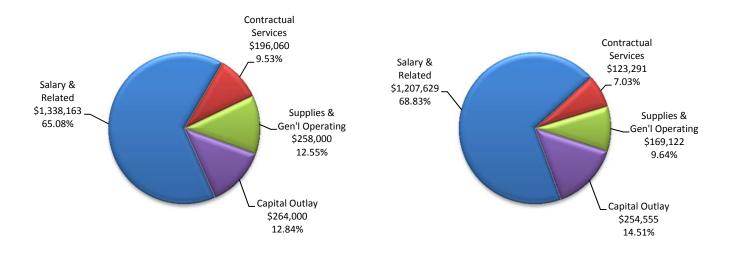

The other major category, Other Sources, has a revised budget of \$70.0 thousand (original budget of \$5.0 thousand), and the city has received \$74.8 thousand to-date.

The significant positive variance to budget is due to the one-time receipt of: 2011 RITA retainer refund (\$15.6 thousand); medical insurance rebate/refunds (\$14.7 thousand); sale of miscellaneous/surplus city assets (\$1.8 thousand); Homeland Security payment on seizures (\$10.1 thousand); and Ohio Plan insurance reimbursement on two totaled Police cruisers (\$22.3 thousand).

Expenditures – The Police fund has a total appropriated expenditure budget of \$2.06 million. Total spending through November 30 is \$1.75 million and is equal to 85.33% of the 2012 budget and compares favorably versus a straight-line basis 91.67%.

Police Fund Budget by Category

YTD Police Fund Spending

Salaries, wages and other employee-related costs represent the largest expense category with a 2012 budget of \$1.33 million, or 65.08% of budget. Spending through November 30 is \$1.21 million or 90.25% of budget. The favorable YTD variance (\$19.1 thousand below budget) is due to an open budgeted officer position, better than anticipated use of overtime, several employees 'opting out' of the health insurance, tuition reimbursement not incurred, and new employees selecting insurance coverage other than the family level included in the 2012 budget.

Supplies and general operating expenditures is another significant expense category in the Police fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2012 budget of \$258.0 thousand, or 12.55% of budget. Spending to-date is \$169.1 thousand or 65.55% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$207.0 thousand (80.24% of budget). Below-budget spending on patrol vehicle miscellaneous parts/repairs, continuing education reimbursements, uniforms/other miscellaneous equipment and radio/computer repairs are the drivers of the positive variance.

Spending on capital equipment is the other major expense category in the Police fund. The 2012 budget in this category is \$264 thousand (12.84% of budget) and provides funding for the acquisition of law enforcement-related equipment and capital improvements. Spending through November 30 is \$254.6 thousand, or 96.42% of budget. The primary expenditure in this category is the purchase of 7 new police cruisers. The city took possession of those in July at a total cost of \$254.4 thousand.

Capital Improvements Fund (C6)

Revenue – The Capital Improvements fund has a 2012 revenue budget of \$2.82 million. On a year to-date basis, the fund has received approximately \$2.67 in total revenue, or 94.86% of budget. As this is a new fund in 2012, there is no revenue to compare it against for 2011. The fund's primary revenue sources are income taxes and other sources.

Income taxes are the primary revenue source for the Capital Improvements fund. The 2012 budget for income tax revenues in the fund is \$2.07 million. Year to-date Income tax revenues credited to the fund are \$1.92 million and represent 92.99% of budget. As was the case in the previously reviewed funds,

collections are running ahead of last year. During October, we increased the revenue forecast by \$611.6 thousand to reflect the better than expected rate of collection.

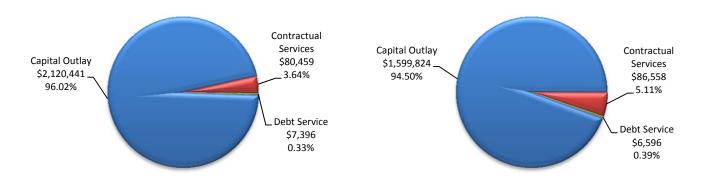

The other major category, Other Sources, was budgeted at \$750 thousand, and to-date, the city has received all of that revenue. This category is where a portion (\$750,000) of the 2012 BANs were recorded. The costs of issuance and underwriters discount associated with this portion of the BANs (\$7.5

thousand) which were previously recorded here have been moved to the Debt Service (D1) fund.

Expenditures – The Capital Improvements fund has a total appropriated expenditure budget of \$2.21 million. Total spending through November 30 is \$1.69 million and is equal to 76.66% of the 2012 budget. Including encumbrances in the calculation, total committed spending is equal to 100% of budget versus a straight-line basis of 91.67%. There is a slight negative budget variance in contractual services of approximately \$6 thousand due to higher than anticipated tax collection (RITA) fees. This variance will be resolved in the final supplemental appropriation ordinance for the year.

Capital Fund Budget by Category

YTD Capital Fund Spending

As would be expected, spending on capital projects and equipment is the major expense category in the Capital Improvements fund. The 2012 budget in this category is \$2.12 million, (96.02% of budget) and provides funding for the construction of a number of infrastructure improvements. Spending through November 30 is \$1.60 million, or 75.45% of budget. Including encumbrances in the calculation, total committed spending is equal to \$2.12 million (99.92% of budget). The primary planned expenditures in this category are the 2012 Roadway Asset Management Plan (RAMP) projects, and include the following projects: (*asterisk indicates projects funded by \$750,000 from 2012 BAN issuance)

Project Name	Budget
McIntosh Road [*]	\$290,488
Township Road – Phase I*	86,149
John Reese Parkway*	78,469
High Street*	98,939
Cedar Street*	50,340
Front Street*	51,190
Taylor Glen/Kylemore* (remaining \$179,559 in project costs funded by B8 – Permissive Tax fund)	94,425
Havens Corner	895,694
Laurel Lane (remaining \$160,117 in project costs funded by B8 – Permissive Tax fund)	253,207
Bristol/Linda	193,662
Depot Street	26,253
Uncommitted/Unused Balance	1,625
GRAND TOTAL	\$2,120,441

Contractual services is the other major expense category in the Capital Improvements fund. The 2012 budget in this category is \$80.5 thousand (3.64% of budget) and provides for non-employee personal services. Spending through November 30 is \$86.6 thousand, or 107.6% of budget. Spending in this category is designated for the payment of tax collection fees to the Regional Income Tax Agency (RITA) and for taxpayer refund requests. Due to an unanticipated increase in tax collection fees, this category has been overspent. A supplemental appropriation request (Ord. 2012-4120) that will be presented to Council in December will correct this shortfall.

Water Fund (E1)

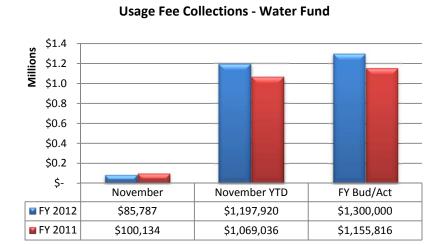

Revenue – The Water fund has a 2012 revenue budget of \$1.31 million. The fund's primary revenue sources are charges for service and other sources. On a year to-date basis, the Water fund has received approximately \$1.21 million in total revenue, or 92.35% of budget, and is up by \$135.6 thousand or 12.57% from the same period in 2011.

YTD Water Fund Revenue by Source

Water Fund Revenue - Budget

Year to-date service charge revenues credited to the fund are \$1.2 million and represent 92.15% of budget. In comparison, collections through November 2011 were \$1.07 million and represented 92.49%

of the 2011 full-year collections. The revenue forecast was increased by \$214.8 thousand this month to reflect the better than anticipated rate of collection in 2012.

The other major category, Other Sources, has a revised budget of \$15.0 thousand (original budget \$5.0 thousand), and the city has received \$16.5 thousand to-date. The positive variance to budget is due to the one-time receipt of: medical insurance rebate and

refunds (\$6.0 thousand); sale of miscellaneous city assets (\$2.9 thousand); employee COBRA premiums (\$3.4 thousand), and increased plan purchases (\$1.0 thousand).

Expenditures – The Water fund has a total appropriated expenditure budget of approximately \$1.25 million. Total spending through November 30 is \$1.06 million and is equal to 84.59% of the 2012 budget. Excluding transfers, advances and contingency funds in the calculation, total spending is equal to 80.84% of budget versus a straight-line basis of 91.67%.

Water Fund Budget by Category

YTD Water Fund Spending

Supplies and general operating expenses is the primary major expense category in the Water fund. It combines a number of other basic types of expenditures including operating supplies, equipment, utilities and other miscellaneous expenses. It has a 2012 budget of \$569.5 thousand, or 45.43% of the total Water fund budget. Spending to-date is \$440.5 thousand or 77.34% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$538.3 thousand (94.52% of budget). Below-budget spending on plant maintenance and operating supplies are the primary drivers of the positive variance.

Salaries, wages and other employee-related costs represent the other major expense category with a 2012 budget of \$375.6 thousand, or 29.96% of the total fund budget. Spending through November 30 is \$327.6 thousand or 87.22% of budget. The slightly favorable YTD variance (\$16.7 thousand below budget) is due to: union wage increase budgeted at 5.00% versus 4.25% approved in the CBA; wage and benefit savings associated with the open water supervisor position; and an employee 'opted out' of the health insurance program.

Sewer Fund (E2)

Revenue – The Sewer fund has a 2012 revenue budget of \$1.12 million. On a year to-date basis, the Sewer fund has received approximately \$980.1 thousand in total revenue, or 87.74% of budget. During October, the revenue forecast was increased by \$265.2 thousand to reflect the better than anticipated rate of collections. Total revenues are down, however, by \$668.9 thousand or 40.57% from the same period in 2011. The primary driver of the decline is the receipt of over \$700 thousand in OWDA loan proceeds in 2011 for the construction of the wastewater treatment plant. The fund's primary revenue sources are charges for service, intergovernmental and other sources.

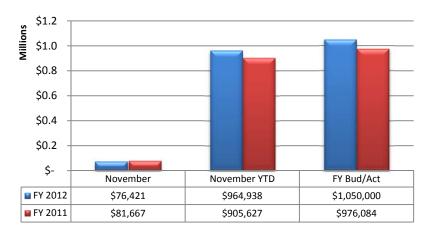

YTD Sewer Fund Revenue by Source

Sewer Fund Revenue - Budget

Year to-date service charge revenues credited to the fund are \$964.9 thousand and represent 91.9% of budget. In comparison, collections through November 2011 were \$905.6 thousand and represented 93.65% of the 2011 full-year collections. The estimated revenue in this category was also increased in October to reflect current trends.

Usage Fee Collections - Sewer Fund

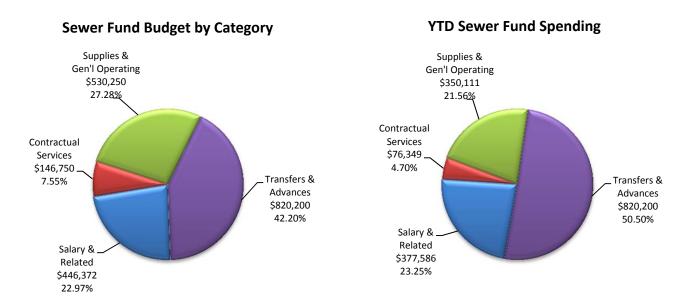

The intergovernmental revenue category reflects the remaining OWDA loan disbursements associated with the construction of the wastewater treatment plan. It is budgeted at \$52.0 thousand, but nothing has been received by the city to-date. The project has been finalized, but the final distributions were correctly posted to the WWTP #2 (E15) fund in October.

The other major category, Other Sources, has a revised budget of

\$15.0 thousand (original budget \$5.0 thousand), and the city has received \$15.1 thousand to-date. The significant positive variance to budget is due to the one-time receipt of: medical insurance rebate/refunds

(\$6.0 thousand); sale of surplus city assets (\$2.9 thousand); and employee COBRA premiums (\$2.6 thousand).

Expenditures – The Sewer fund has a total appropriated expenditure budget of \$1.94 million. Total spending through November 30 is \$1.62 million and is equal to 83.57% of the 2012 budget. Excluding transfers, advances and contingency funds in the calculation, total spending is equal to 71.57% of budget versus a straight-line basis of 91.67%.

For 2012, the largest expense category for the Sewer fund is interfund transfers. It has a budget of \$820.2 thousand (42.2% of budget), and reflects transfers to the Sewer Capital Improvements (E6) fund (\$277.0 thousand) and the Sewer Debt Service (E13) fund (\$543.2 thousand).

Supplies and general operating expenditures is the next major expense category in the Sewer fund. It combines a number of other basic types of expenditures including operating supplies, equipment, utilities and other miscellaneous expenses. It has a 2012 budget of \$530.3 thousand, or 27.28% of the fund's total budget. Spending to-date is \$350.1 thousand or 66.03% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$439.4 thousand (82.86% of budget). The primary drivers of the positive variance include: below-budget spending on sludge disposal, utilities, and lab services; partially offset by higher than anticipated spending on sewer system maintenance and safety equipment.

Salaries, wages and other employee-related costs represent the other major expense category with a 2012 budget of \$446.4 thousand, or 22.97% of the total Sewer fund budget. Spending through November 30 is \$377.6 thousand or 84.59% of budget. The slightly favorable YTD variance (\$31.6 thousand below budget) is due to: union wage increase was budgeted at 5.00% versus 4.25% approved in the CBA; wage and benefit savings associated with a mid-year hire of the utility operator position; and an employee 'opted out' of the health insurance program.
