Finance Director

**TO:** City Council Members  
Mike Compton, Mayor  
Tim Hickin, City Administrator

**FROM:** Jamie Nicholson

**DATE:** November 8, 2021

**RE:** October 2021 Financial Condition Report

October was very busy in the Finance department as we once again focused much of our effort on the 2022 budget. We also worked on the following tasks during the month: (1) began work on the 2022 employee health insurance open enrollment program, including the development of open enrollment materials; (2) began work on 2021 year-end processing, including the development of a year-end processing schedule; (3) incorporated approved changes into the 2022 budget exhibit; and (4) supported the Utility department in their Billing Clerk recruiting efforts.

During the month of November, we will focus on wrapping up the 2022 budget process by supporting Council’s review and analysis of the proposed budget. In addition to working on the budget and providing routine payroll and accounting services, we also plan to: (1) continue efforts on the 2022 employee health insurance open enrollment program; (2) continue work on year-end processing, including a review of all outstanding purchase orders; (3) begin work on the 2022 property, casualty and liability insurance renewal; and (4) continue to identify investment strategies to manage the city’s investment portfolio in a historically low interest rate environment.

**REVENUE/RECEIPTS**

I am pleased to present this report on the financial condition of the city as of October 31, 2021. On a year to-date (YTD) cash basis, the city has collected approximately \$18.68 million in total revenue from all sources, or 87.38% of the full-year budget. This total is overstated, however, due to: (1) \$1.23 million in interfund transfers made in January and July; (2) property tax/TIF PILOT revenues of \$1.58 thousand received; and (3) \$1.91 million in grant revenues received which is equal to 85.22% of budget. Excluding those items would result in a YTD collections rate that is equal to 86.54% of budget, still greater than the straight-line rate of 83.33%.

Income tax collections for the month of October were \$582.5 thousand (equal to 7.54% of budget) and were 8.14% higher than last year when compared to October 2020. It’s important to remember that the COVID-19 revenue impact began in April 2020, and much of the COVID-related decline was reversed with the July

### Income Tax Collections - All Funds

15<sup>th</sup> filings received by the city in August. Compared to October 2019 (pre-COVID19 impact), collections for the month were about \$45.8 thousand (8.53%) higher. Total year to-date collections are \$6.04 million (84.38% of budget) and, when compared to an October 2020 YTD total of \$5.37 million, are \$668.7 thousand (12.46%) higher. The full-year budget is currently projected to be \$7.15 million, an increase of \$989.4 thousand, or 16.05% over FY 2020 collections. It is important to note that October 2020 collections

were equal to 87.08% of the full-year 2020 collections, and in 2019, the rate was equal to 88.31% of FY 2019 collections.

The city received its second-half 2021 property tax settlement from Licking County in the month of August. The 2021 budget in this line is \$1.59 million and is projected to be up by \$228.4 thousand (16.8%) from FY 2020 receipts. Total property taxes received to-date are \$1.58 million and are \$213.9 thousand (15.68%) higher than the same period in 2020. This total also includes \$247.7 thousand in TIF payments in lieu of taxes (PILOT) from the State Route 310 TIF district.

Intergovernmental revenues represent one of the other more significant revenue categories for the city and reflect funding received by the city from the federal, state and county governments. The revenues can come in the form of loans, grants or reimbursements. For 2021, a total of \$3.98 million is budgeted, with \$2.24 million of the total expected to come from grants and loans. Through October 31, approximately \$3.49 million has been collected (87.89% of the category budget). The significant variance is the result of receiving distributions in 2021 from the OWDA for the WRF facility improvement project. The 2021 budget originally assumed that all OWDA grant proceeds would be received in 2020, so the 2021 forecast was increased in August to reflect the additional grant funding receivable.

Service charge revenues are another major revenue category for the city. As the title would imply, these revenues are received in exchange for providing services to residents, businesses, and other customers. For 2021, approximately \$5.15 million is budgeted for total service charge revenues. Year to-date collections are \$4.48 million, or 87.03% of budget. The ten-month total is up by \$73.2 thousand (1.66%) when compared to 2020. At \$4.72 million or 91.58% of the category budget, water and sewer usage fees represent the largest single component of this category. Usage fees collected through October 31 are \$4.08 million, or 86.52% of the full-year budget in this line item.

### All Funds Revenue - Budget

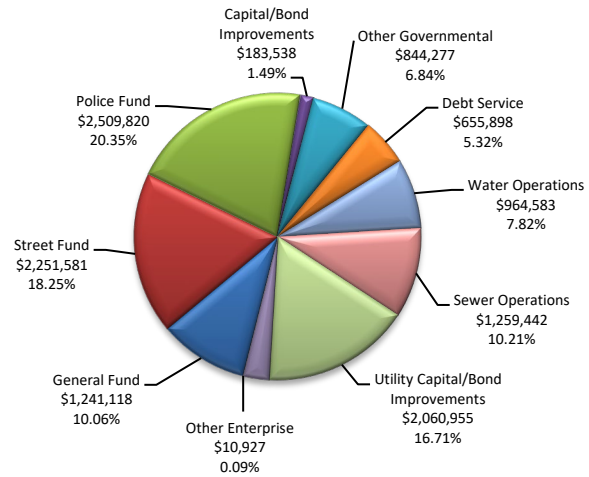

## EXPENDITURES/SPENDING

As we enter the final quarter of 2021, spending trends continue to appear to be in-line with, or better than, expectations. Excluding debt service expenses and interfund transfers in the calculation results in a spending rate equal to 55.28%, still well below the straight-line rate of 83.33%. The lower than anticipated spending when compared to 2020 was primarily the result of reduced spending on contractual services and capital outlay. Including 2020 carryover encumbrances (e.g. purchase orders) as well as FY 2021-issued POs in the total results in a ratio of 75.26%. Many of these 2021 purchase orders encumber full-year spending and have the effect of overstating the impact of the encumbrances.

## YTD Expenditures by Fund

(excludes encumbrances)

## FUND BALANCE/FINANCIAL HEALTH

The chart below plots revenue, expenditures and fund balance since January 2015. The solid color lines represent actual numbers and any dotted lines reflecting the current forecast. A trend line has also been added to the chart to smooth out the periodic ups and downs and provide a smoothed trend of the fund balance over the time horizon of the chart.

Current projections call for the total all-funds balance to decline by \$457.3 thousand in 2021 (see chart at the top of the following page which has been updated with the proposed 2022 budget data and the forecast through 2026) to a total funds balance of about \$21.97 million. The year-end 2020 total fund balance was \$22.35 million, an increase of \$6.13 million (37.82%) over the budget which resulted from below-budget spending in 2020 (down \$6.17 million). From 2021 – 2026, however, the balance will decline every year during that period of time. This is due to expenditures either exceeding or being roughly equal to revenues in each of those succeeding years.

The General fund ended the month of October 2021 with an unencumbered balance of \$2.71 million and is up by \$646.3 thousand, or 31.38% from December 2020. The Street (201) fund is up by \$597.3 thousand

**Revenue, Expenditure & Fund Balance - All Funds  
2015 - 2026**

(25.58%), and the Police (208) fund increased by \$774.7 thousand (25.57%). The 2021 forecast calls for these funds to end the year approximately 15-20% below where they ended 2020. As we continue to move through 2021, it is critical for the city to continue to closely monitor each of the key fund balances to ensure that adequate funding is available to provide the

desired level of service to the community in the future. Maintaining adequate reserves to ensure ongoing operations and the ability to service our debt are just some of the factors that the ratings agencies consider when evaluating the city’s overall fiscal health, and it’s a ‘best practice’ in the public finance profession.

I am providing this summary analysis to facilitate a better understanding of the sources of all city revenues, the status of collections to-date and available fund balances. The report will now turn its focus to each of the primary governmental and enterprise funds of the city: 101 – General Fund; 201 – Street Fund; 208 – Police Fund; 301 – Capital Improvements; and 601/651 – Water and Sewer Operations funds.

Respectfully submitted,

**CITY OF PATASKALA, OHIO

**THIS PAGE INTENTIONALLY**  
**LEFT BLANK**

**General Fund (101)**

**Revenue** – On a year to-date-year basis, the general fund has been credited with total revenue of approximately \$2.0 million, which represents 101.06% of budget. When compared to a straight-line rate of 83.33%, general fund revenues through October 31<sup>st</sup> are running well ahead of budget. However, the timing of when the city receives its semi-annual property tax settlements tends to skew the total. We received the 2<sup>nd</sup> half property tax settlement during the month of August. Eliminating the impact that the property tax receipts have in the calculation, the total is running at 89.86%, or approximately 6.5% higher than budget.

**General Fund Revenue Budget by Source**

**General Fund Revenue Budget vs YTD Actual**

The largest revenue source for the general fund is property taxes, which accounts for 67.63% of the 2021 general fund revenue budget. The 2021 budget for this category is projected to be \$1.34 million and would be up by \$220.3 thousand (19.73%) when compared to 2020 full-year collections. To-date, the general fund has received \$1.33 million in property tax revenues from the Licking County Treasurer (99.44% of budget). This total is up by \$212.9 thousand (19.06%) from the same ten-month period in 2020. The increase is the result of a somewhat increased assessed valuation of the city due to recent growth in residential construction coming on the tax rolls.

Service charge revenues represent the second largest revenue category for the general fund. These revenues are received in exchange for providing services to residents, businesses and other customers including building licenses/permits, and other miscellaneous permits. The 2021 budget in this category is \$282.8 thousand (14.30% of budget). Through October 31, the city has received \$258.9 thousand (91.54% of budget) and is up by \$15.7 thousand (6.46%) from FY 2020. The variance is the result increased requests for permits from the city in 2021 (up \$7.1 thousand) and increased variance applications and zoning permit requests (up \$9.4 thousand).

Intergovernmental revenue is the next major general fund revenue source. It reflects funding received by the city from the federal, state and county governments. The revenues can come in the form of loans, grants or reimbursements. For 2021, it is projected to account for approximately \$248.0 thousand (12.54% of total fund budget). This category consists of the following revenue items: local government distributions, property tax rollback/homestead exemption reimbursements from the state; electric utility income tax reimbursement; and cigarette/liquor taxes and fees. On a year to-date basis, the fund has received \$300.3 thousand in this category (121.11% of budget) and is up by \$34.8 thousand (13.11%) when compared to the

same ten-month period in 2020. The positive variance is the result of increased homestead and rollback taxes received from the State of Ohio (up \$26.6 thousand) and increased LGF revenue (up \$18.0 thousand); partially offset by reduced liquor permit revenues (down \$9.7 thousand).

Fines and forfeitures revenue represent the other major revenue category for the general fund. The 2021 budget in this category is \$56.9 thousand (2.87% of budget) and consists of fines and forfeitures generated by the operation of the city’s Mayor’s Court, as well as other state-generated fines. Due to the significantly reduced level of receipts, the forecast in this line was reduced by \$46.0 thousand (44.73%). Through October 31, the city has received \$60.3 thousand in this category, which represents 106.0% of budget. Compared to the same ten-month period in 2020, the total is up by \$9.1 thousand, or 17.71%. The primary driver of the increase is the level of revenue generated by the Mayor’s Court.

**Expenditures** – The general fund has a total appropriated expenditure budget for 2021 of approximately \$2.17 million. Total spending through October 31 is \$1.24 million and is equal to 57.29% of the budget. Including encumbrances (e.g., purchase orders) of \$341.5 thousand (but excluding transfers) in the total results in a total ratio equal to 71.75% of budget. Most of the encumbered balances represent full-year purchase orders which tend to overstate the impact. Compared to the same ten-month period in 2020 (and excluding transfers), the total is down by \$31.8 thousand (2.71%).

**General Fund Expense Budget by Category**

**General Fund Spending Budget vs YTD Actual**  
(excludes encumbrances)

Salaries, wages and other employee-related costs represent the largest expense category, with a 2021 budget of \$831.8 thousand, or 38.40% of the general fund budget. Spending through October 31 was \$560.6 thousand, or 67.40% of budget. The positive variance (\$132.5 thousand below budget) was primarily the result of there being an open HR Manager position, below-budget spending on insurance and very little spending on conferences, training and related travel due to the COVID-19 pandemic.

Contractual services is another major expense category in the General fund. The 2021 budget in this category is \$732.8 thousand (33.82% of budget) and provides for non-employee personal services, such as legal, audit and engineering services. Spending through October 31 is \$371.2 thousand (50.66% of budget). Including encumbrances (e.g., purchase orders) of \$163.3 thousand in the total, 72.94% of the budget has been either spent or committed to be spent. It is important to note that much of the spending in this category does not tend to follow a linear path; rather, it is typically disbursed in large ‘chunks’ to the vendors and consultants when the services are provided. We monitor this category closely to ensure that spending

remains within budget.

General operating expenditures is another significant expense category in the general fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2021 budget of \$468.1 thousand, or 21.61% of the fund's budget. Year to-date 2021 spending in this category is \$187.3 thousand and is equal to 40.01% of budget. Including encumbrances in the calculation, the total spent or committed is \$305.4 thousand, or 65.26% of budget. Spending in this category is down by \$61.9 thousand (24.84%) from the same ten-month period in 2020 and is primarily due reduced spending on supplies and materials (down \$9.6 thousand) and other miscellaneous expenses (down \$61.7 thousand); partially offset by increased spending on utilities (up \$10.0 thousand).

The approved 2021 budget in the general fund includes \$100,000 in interfund transfers to the Recreation (206) fund to provide additional funding for recreational programming. This is a slight increase from FY 2020 which had a total of \$95,000 in interfund transfers. The 2021 transfers were made on the accounting system during the month of January.

**Fund Balance** – The general fund is the primary operating account for the city from which expenses, other than those associated with the Street, Police and Debt Service functions, are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues, or during periods of greater than typical spending. Evaluating the fund balance (and the related revenues/expenses) is a valuable exercise, in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

The chart above plots revenue, expenditures and fund balance on a monthly basis since January 2015. The solid color lines represent historical numbers, and any dotted lines representing projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs and provide a smoothed trend of the fund balance over the time horizon of the chart. Since 2015, the fund has generally been on an upward trajectory. The approved 2021 budget would have the fund declining by \$189.1 thousand (8.26%) if 100% of the projected revenue was collected and 100% of appropriations spent. The major spikes in revenue (typically March & August) represent the receipt of the semi-annual property tax settlements. The April 2015 and April 2018 spikes reflect interfund transfers of \$200 and \$250 thousand, respectively, to the Capital Improvements fund.

As you can see from the chart at the top of the next page, fiscal years 2016 through 2020 were very positive

for the general fund balance, even though the fund had been generally declining over the prior several years. This improvement was due to both reduced spending and increased revenues received during the year. Of note, the fund received nearly \$300 thousand in BWC rebates in 2020 and spending in the 2016 - 2020 period was less than revenue received which resulted in the increasing fund balance. The fund is projected to be unable to maintain this positive trend in 2021 as the current forecast calls for deficit spending in each future year through 2026. The result of this is a declining fund balance in all future years. This chart has been updated with the proposed 2022 budget data and the forecast through 2026. Based upon the numbers, the fund balance is currently projected to be \$633.9 thousand at the end of FY 2026 and would reflect a carryover balance ratio of 32.55% which is at the upper end of the 25-35% target range in the city's fund balance policy.

**THIS PAGE INTENTIONALLY**  
**LEFT BLANK**

**Street Fund (201)**

**Revenue** – The Street Fund has a 2021 revenue budget of approximately \$3.51 million with the fund’s primary revenue sources being income taxes and intergovernmental revenues. On a year to-date basis, the Street fund has been credited with total revenue of approximately \$2.98 million, which represents 85.0% of the full-year budget. Total revenue to-date is up by \$387.9 thousand (14.95%) from the same ten-month period in 2020.

**Street Fund Revenue Budget by Source**

**Street Fund Revenue Budget vs YTD Actual**

Income tax collections in October were \$191.6 thousand and represent 8.09% of the 2021 budget. Collections were up by \$24.2 thousand (14.48%) when compared to the same period in 2020. It’s important to remember that the COVID-19 revenue impact began in April 2020, with much of the decline in revenues reversed in the month of August. Compared to October 2019 (pre-COVID19 impact), collections were \$58.3 thousand (34.84%) higher. Year to date income tax revenues credited to the fund are \$1.99 million and represent 83.80% of budget. In comparison, collections through October 2020 were \$1.61 million, and were equal to 87.36% of the 2020 full-year collections. In 2019, the rate was equal to 88.31% of full-year collections. The increase in the fund’s 2021 allocation rate from 30.07% to 32.90% had the effect of increasing the revenue credited to the fund by \$170.8 thousand. The increased level of total collections through October resulted in an increase of \$202.1 thousand. The net impact of these variances is the overall increase in fund revenue of \$348.7 thousand. The green and light blue bars in the chart to the right reflect the revenue that would have been allocated to the fund had the percentage not been modified. Taking the different allocation rates into consideration,

**Income Tax Collections - Street Fund**

the fund would have received \$226.4 thousand (12.86%) more in 2021 than 2020 had the allocation rate not been changed, and collections would have been \$291.6 thousand (17.21%) higher than 2019 collections.

Intergovernmental revenues in the Street fund are budgeted at \$1.08 million and represent 30.89% of the fund’s revenue budget. They reflect funding received by the city from the federal, state and county governments. This category is comprised of state-shared (e.g., permissive) taxes, and grants/loans from other governmental agencies. On a year to-date basis, the city has received \$954.3 thousand in this category (88.05% of budget) which is up by \$66.0 thousand (7.43%) from the same ten-month period in 2020.

The other category, Other Sources, is budgeted at \$55.0 thousand and represents only 1.57% of the total fund revenue budget. To date, the city has received \$41.3 thousand (75.12% of budget) and is down by \$43.9 thousand (51.53%) from the same ten-month period in 2020.

**Expenditures** – The Street fund has a total appropriated expenditure budget for 2021 of approximately \$3.87 million. Total spending through October 31 was \$2.25 million and is equal to 58.20% of budget. The lower than anticipated spending rate is the result of below budget spending in all budget categories. Including encumbrances of \$688.1 thousand in the total (but excluding transfers) results in total fund spending equal to 75.99% of budget. Compared to year to-date 2020 (and excluding transfers), the total is down by \$765.2 thousand (25.36%) and is primarily the result of paying invoices from 2018/2019 construction projects in January 2020 which didn’t recur in 2021.

Spending on capital projects and equipment is the largest expense category in the Street fund with a 2021 budget of \$1.43 million, or 37.04% of the fund’s budget. The budget provides funding for street and roadway infrastructure maintenance and related equipment. Spending through October 31 was \$851.1 thousand, or 59.40% of budget. The positive variance to budget is the result of planned infrastructure improvement projects that begin until later in the year. Including encumbrances (e.g., purchase orders) in the total results in a spending commitment equal to \$1.22 million, or 84.81% of budget.

Salaries, wages and other employee-related costs represents the next major expense category in the Street Fund with a 2021 budget of \$1.17 million, or 30.33% of the fund’s budget. Spending through October 31 was \$777.8 thousand, or 66.28% of budget. The positive budget variance (\$200.0 thousand below budget) is primarily the result of there being two (2) open crew leader positions, and very little spending on conferences, training and related travel due to the COVID-19 pandemic.

General operating expenditures is another significant expense category for the Street fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2021 budget of \$487.5 thousand, or 12.60% of the fund’s budget. Spending through October 31 was \$278.4 thousand, or 57.11% of budget. Including encumbrances in the calculation, total spending is \$357.6 thousand, or 73.35% of the budget. Spending in this category is down by approximately \$12.6 thousand (4.33%) when compared to the same ten-month period in 2020.

**Fund Balance** – The Street fund is the primary operating account for the city from which expenses associated with the maintenance of the city’s streets, roads and rights-of-way are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues, or periods of greater than typical spending. Evaluating the fund balance, revenues, and expenses is a valuable exercise, in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

The chart above plots revenue, expenditures and fund balance monthly since January 2015. The solid color lines represent actual numbers, and the dotted lines represent future projections. A trend line has also been added to the chart to smooth out the periodic ups and downs and provide a smoothed trend of the fund balance over time. The expense spikes, particularly in February 2019, January 2020 and December 2020 are the result of paying high-dollar invoices related to construction projects. Other than those items, revenues and spending have been closely matched. Since January 2015, revenues have generally equaled or exceeded expenses, except for large-dollar progress payments on capital improvement projects. In 2021, however, the fund balance is projected to decline by \$359.7 thousand (12.45%) due to planned roadway and infrastructure improvement projects expected to be completed in 2021. This balance represents a carryover ratio of

65.39% which is above the 25-35% target per city policy.

As you can see from chart at the bottom of the previous page, which has been updated with the proposed 2022 budget data and the forecast through 2026, the balance of the Street fund increased significantly from 2016 – 2019 but dramatically declined in 2020 due to increased approved capital spending. However, current projections also call for the fund balance to continue to decline in 2021. From 2023 and beyond, the fund balance remains somewhat stable between \$1.56 million and \$1.75 million. The 2026 year-end carryover balance is currently projected to be 34.82% of planned spending which is at mid-point of the policy range.

**THIS PAGE INTENTIONALLY**  
**LEFT BLANK**

**Police Fund (208)**

**Revenue** – The fund’s primary revenue sources are income taxes and other sources, and it has a 2021 total revenue budget of \$3.97 million. On a year to-date basis, the Police Fund has been credited with total revenue of approximately \$3.37 million, which represents 84.95% of budget. Total revenue to-date is \$340.9 thousand (11.25%) higher than that collected during the same ten-month period in 2020. The primary cause of the increase is the result of the fund receiving more income tax revenue in 2021 than in 2020.

**Police Fund Revenue Budget by Source**

**Police Fund Revenue Budget vs YTD Actual**

Income tax collections in October were \$320.4 thousand and represent 8.21% of the 2021 budget. Collections are up by \$17.3 thousand (5.70%) when compared to the same period in 2020. It’s important to remember that the COVID-19 revenue impact began in April 2020, with much of the revenue decline recovering in August. Compared to October 2019 (pre-COVID19 impact), collections were \$44.0 thousand (15.91%) higher. Year to date income tax revenues credited to the fund are \$3.32 million and represent 85.13% of budget. In comparison, collections through October 2020 were \$2.90 million, and reflected 87.28% of the 2020 full-year collections. In 2019, the rate was equal to 88.22% of full-year collections. The increase in the fund’s 2021 allocation rate from 54.01% to 55.0% had the effect of increasing the revenue credited to the fund by \$59.6

**Income Tax Collections - Police Fund**

thousand. The increased level of total collections through October resulted in an increase of \$362.1 thousand. The green and light blue bars in the chart to the right reflect the revenue that would have been allocated to the fund had the percentage not been modified. Taking the different allocation rates into consideration, the fund would have been \$368.7 thousand (12.49%) higher in 2021 as in 2020 had the

allocation rate not been changed, and collections would have been \$487.5 thousand (17.21%) higher than the 2019 collections.

The other significant revenue category, Other Sources, is budgeted at \$57.7 thousand, and represents only 1.45% of the total fund revenue budget. To date, the city has received \$44.2 thousand (76.68% of budget) and is down by \$77.2 thousand (63.56%) from the same ten-month period in 2020.

**Expenditures** – The Police fund has a total appropriated expenditure budget for 2021 of approximately \$3.72 million. Total spending through October 31 is approximately \$2.51 million and is equal to 67.52% of budget. Excluding interfund transfers of \$22.5 thousand, total spending is equal to 67.32% of budget. Including encumbrances (e.g., purchase orders) of \$275.6 thousand in the total results in total spending equal to 74.78% of budget. Compared to the same ten-month period in 2020 (and excluding transfers), the total is up by \$499.8 thousand (25.14%) and is the result of the fund being reimbursed \$605.4 thousand in Police wages and \$49.1 thousand in other expenses in 2020 by one-time CARES Act funding; partially offset by reduced spending on capital equipment and reduced spending on wages and employee benefits, general operating (materials, supplies, etc.) and interfund transfers (down \$30 thousand).

**Police Fund  
Expense Budget by Category**

**Police Fund Spending  
Budget vs YTD Actual**  
(excludes encumbrances)

Salaries, wages and other employee-related costs represent the largest expense category with a 2021 budget of \$2.83 million, or 76.16% of the fund’s budget. Spending through October 31 was \$1.97 million, or 69.76% of budget. The positive budget variance (\$384.2 thousand below budget) is primarily the result of open positions, and very little spending on conferences, training and related travel due to the COVID-19 pandemic. Spending in this category is up by \$579.3 thousand (41.50%) from the level in 2020 and is the result of a one-time transfer of \$605.4 thousand in Police wages being transferred to the Local Coronavirus Relief (224) fund; partially offset by reduced 2021 spending on wages and benefits due to a number of open positions.

General operating expenditures is the next major expense category in the Police fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2021 budget of \$522.3 thousand, or 14.05% of the total fund expenditure budget. Year to-date spending in this category is \$314.9 thousand, or 60.29% of budget and is up by \$29.9 thousand (10.49%) from the same ten-month period in 2020. Part of the increase is due to \$10.7 thousand of expenses being reimbursed in 2020 that will not recur in 2021.

Spending on capital equipment is another significant expense category in the Police fund. The 2021 budget in this category is \$97.1 thousand (2.61% of budget) and provides funding for the acquisition of Police cruisers, law enforcement-related equipment and other capital improvements. Year to-date spending in this category is \$55.3 thousand (56.95% of budget) and is down by \$112.0 thousand (66.95%) from the same ten-month period in 2020.

The approved 2021 budget in the Police fund includes an interfund transfer of \$22.5 thousand. The purpose of the transfer is to provide funding to the Debt Service (401) fund to meet the department’s financial obligations on the LGIF loan for the construction of the MARCS tower. This transfer was completed during the month of January.

**Fund Balance** – The Police fund is the primary operating account for the city from which expenses associated with the operation of the city’s Police department are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues or periods of greater than typical spending. Evaluating the fund balance, revenues, and expenses is a valuable exercise, in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

The chart above plots monthly revenue, expenditures and fund balance since January 2015. The solid color lines represent actual numbers, and the dotted lines represent projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs and provide a smoothed trend of the fund balance over the time horizon of the chart.

As you can see from the chart above, the balance in the Police fund has been fluctuating up and down since January 2015 but has seen growth since early-2017. In general, revenues and expenditures have been closely matched. The spike in December 2016 spending was the interfund transfer of \$400,000 to the Capital Facilities fund related to the construction and outfitting

of the new Police station.

Current projections called for the balance to decline in starting in 2022 and continuing to do so through 2026 (see chart at bottom of previous page). However, the fund ended 2020 at a balance of \$3.22 million or \$1.25 million better than projected. The primary cause of the favorable balance was the fund receiving nearly \$700 thousand in CARES Act funding for Police wages and other miscellaneous expenses. The carryover balance at this point reflects a reserve ratio of 93.33%. The fund is projected to decline annually through 2026 when it has a year-end balance of \$2.28 million, where it will have a 51.51% carryover balance. This is above the top-end of the 25-35% target range. The chart has been updated with the proposed 2022 budget data through 2026.

**THIS PAGE INTENTIONALLY**  
**LEFT BLANK**

**Capital Improvements Fund (301)**

**Revenue** – The Capital Improvements Fund has a 2021 revenue budget of approximately \$1.06 million. The fund’s primary revenue sources are income taxes and other sources. On a year to-date basis, the Capital Improvements fund has been credited with total revenue of approximately \$1.04 million, which represents 98.14% of budget. The ten-month total is higher than budget and is due to better than budget income tax collections and a one-time pass-through receipt from Red Rock (development group) of \$940.0 thousand. The fund is slated to receive a 1.50% allocation of income tax revenues in 2021, which is down from the 1.75% allocation rate to the fund in 2020.

**Capital Improvements Fund Revenue Budget by Source**

**Capital Improvements Fund Revenue Budget vs YTD Actual**

In 2021, Other Sources has become the primary external revenue source for the Capital Improvements fund representing 89.73% of the fund’s total revenue sources. This shift from Income Taxes as the primary revenue is the result of a one-time receipt of \$940,000 from a developer which will then be paid (‘passed-through’) to the Licking County Transportation District (TID) for the Refugee Road improvements project.

Income taxes are the next major revenue source for the Capital Improvements fund representing 10.23% of the fund’s total revenue sources. Income tax collections in October were \$8.7 thousand and represent 8.05% of the 2021 budget. Collections are down by \$1.3 thousand (12.61%) when compared to the same period in 2020. It’s important to remember that the COVID-19 revenue impact began in April 2020, with much of the revenue decline recovering in August. Year to date income tax revenues credited to the fund are \$90.5 thousand and represent 83.44% of budget. In comparison, collections through October 2020 were \$93.9 thousand, and

**Income Tax Collections Capital Improvements Fund**

reflected 87.08% of the 2020 full-year collections. In 2019, the rate was equal to 88.31% of full-year collections. The decrease in the fund’s 2021 allocation rate from 1.75% to 1.50% had the effect of reducing the revenue credited to the fund by \$15.1 thousand, while the overall higher level of collections through October resulted in an increase of \$11.7 thousand. The net impact of these variances is the overall decrease in fund revenue of \$3.4 thousand. The green and light blue bars in the chart to the right reflect the revenue that would have been allocated to the fund had the percentage not been modified. Taking the different allocation rates into consideration, the fund would have received \$10.0 thousand (12.46%) more in 2021 than 2020 had the allocation rate not been changed, and collections would have been \$13.3 thousand (17.21%) higher than 2019 collections.

**Expenditures** – The Capital Improvements fund has a total appropriated expenditure budget for 2021 of approximately \$1.25 million. Total spending through October 31 was \$141.5 thousand and is equal to 11.33% of budget. Including encumbrances (e.g., purchase orders) of \$982.7 thousand in the total results in total spending equal to 90.0% of budget. Compared to the same ten-month period in 2020 (and excluding transfers), the total is down by \$106.4 thousand (42.91%) and is due to reduced spending in the Capital Outlay and General Operating categories.

**Capital Fund Budget by Category**

**Capital Improvements Fund Spending Budget vs YTD Actual**  
(excludes encumbrances)

As would be expected, spending on capital projects and equipment is the major expense category in the Capital Improvements fund. The 2021 budget in this category is \$1.17 million, (93.31% of budget), and provides funding for the construction of a number of infrastructure improvements. Spending through October 31 was \$136.8 thousand and represents 11.74% of the category’s budget. The primary planned expenditures in this category are related to the Old Town Hall improvements and various park facility improvement projects. The list of projects included the following: (\*asterisk indicates projects funded by prior-year carryover encumbrances)

Project Name	2021 Budget	Spent and/or Encumbered	Unspent or Uncommitted
Town Hall improvements and repairs*	1,059	1,059	0

<b>GRAND TOTAL</b>	<b>\$1,165,622</b>	<b>\$1,118,342</b>	<b>\$47,280</b>

Contractual services is another major expense category in the general fund. The 2021 budget in this category is \$78.4 thousand (6.28% of budget) and provides for non-employee personal services, principally engineering and construction inspection services. Spending through October 31 was \$0 and there are encumbrances of only \$1.2 thousand in this category. It is important to note that much of the spending in this category does not tend to follow a linear path; rather, it is typically disbursed in large ‘chunks’ to the vendors and consultants when the services are provided. We monitor this category closely throughout the year to ensure that spending remains within the approved budget. The projects planned in this category for 2021 include the following:

Project Name	2021 Budget	Spent and/or Encumbered	Unspent or Uncommitted
Broad Street/Summit Road intersection engineering	\$70,000	\$0	\$70,000
Miscellaneous City Hall repairs & maintenance	6,000	0	6,000
Miscellaneous park maintenance services	2,400	1,200	1,200
<b>GRAND TOTAL</b>	<b>\$78,400</b>	<b>\$1,200</b>	<b>\$77,200</b>

General Operating is the other remaining expense category in the Capital Improvements fund. The 2021 budget in this category is \$5.1 thousand (0.41% of budget) and provides for other non-capital operating expenditures incurred by the fund. Spending through October 31 was \$4.7 thousand and represents 91.36% of the category’s budget. Spending planned in this category in 2021 is for the payment of income tax collection fees and taxpayer refunds to RITA.

Project Name	2021 Budget	Spent and/or Encumbered	Unspent or Uncommitted
Income tax collection fees and taxpayer refunds	\$5,138	\$4,694	\$444
<b>GRAND TOTAL</b>	<b>\$5,138</b>	<b>\$4,694</b>	<b>\$444</b>

**Fund Balance** – The Capital Improvements fund is the primary capital fund account for the city from which expenses associated with the construction of infrastructure improvements and purchase of equipment are paid. Fund balance represents the accumulation of prior period revenues minus expenses and can be used in future periods to stabilize fluctuations in revenues or periods of greater than typical spending. Evaluating the fund balance, revenues, and expenses is a valuable exercise, in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?). The fund ended 2020 with an unencumbered balance of \$1.37 million, which was down by \$9.7 thousand (0.71%) from FY 2019. The unencumbered balance equates to a reserve ratio equal to 421.6% of expenditures which is outstanding and provides the ability for the city to fund future projects (e.g. Parks, Streets, etc.). FY 2019 ended the year with an unencumbered balance of \$1.25 million, which was up by \$379.4 thousand (43.8%) from FY 2018. In comparison, the 2021 budget projects a year-end fund balance of \$1.26 million, which would equate to a reserve ratio equal to 101.09% of expenditures. The higher ratio at year-end 2021 is the result of the higher starting carryover balance and reduced spending planned from this fund during the year, partially offset by a reduced income tax allocation (from 1.75% to 1.50%).

**Water Operations Fund (601)**

**Revenue** – The Water Operations fund’s primary revenue sources are charges for service and other sources, and it has a 2021 revenue budget of approximately \$1.34 million. On a year to-date basis, the fund has been credited with total revenue of approximately \$1.16 million, which represents 86.49% of budget. The total revenue amount is down by \$14.3 thousand (1.22%) when compared to the same ten-month period in 2020.

**Water Fund Revenue Budget by Source**

**Water Fund Revenue Budget vs YTD Actual**

Charges for service represent the primary revenue category in this fund and are generated by water customer billings. Year to-date revenues credited to the fund are \$1.15 million, or 87.11% of budget. In comparison, collections for the same ten-month period in 2020 were \$1.14 million and were about 84.23% of full-year collections, and the rate was 82.15% in 2019. The 2021 collections amount to date represents

an increase of \$14.3 thousand (1.26%) in 2021 over the 2020 collections.

**Usage Fee Collections - Water Fund**

The other category, Other Sources has a 2021 budget of \$17.5 thousand. These revenues vary widely in nature and are relatively insignificant to the total. To date, the city has received \$6.9 thousand and account for investment income, as well as any other miscellaneous non-usage related fees and charges.

**Expenditures** – The Water Operations fund has a total appropriated expenditure budget for 2021 of approximately \$1.48 million. Total spending through October 31 was approximately \$964.6 thousand, or 65.25% of budget. Including encumbrances (e.g., purchase orders) of \$253.9 thousand in the total results in total committed spending equal to 82.42% of budget. Compared to the same ten-month period in 2020 (and excluding transfers), the total is down by \$7.5 thousand (0.77%) and is due primarily to increased

spending in the Salary & Related and Contractual Services budget categories, partially offset by reduced spending in the General Operating and Capital Outlay budget categories.

Salaries, wages and other employee-related costs represent the largest expense category with a 2021 budget of \$646.6 thousand, or 43.74% of the fund’s budget. Spending through October 31 was \$473.9 thousand and is equal to 73.30% of budget. The positive budget variance (\$64.9 thousand below budget) is primarily the result of an open Utility Field Tech II position, below-budget spending on insurance, and very little spending on conferences, training, and related travel due to the COVID-19 pandemic. Spending in this category is up by \$15.4 thousand (3.36%) from the level in 2020 and is the result of the 2021 pay scale increase, step increases and longevity in 2021 (new compensation in 2021).

General operating expenses represent the other major expense category. It combines a number of other basic types of expenditures including operating supplies, equipment, utilities and other miscellaneous expenses. It has a 2021 budget of \$483.3 thousand, or 32.69% of the fund budget. Spending through October 31 was \$294.0 thousand, or 60.83% of budget. Including encumbrances of \$114.9 thousand in the calculation results in a total spending commitment of \$408.9 thousand, or 84.60% of budget. Many of these 2021 purchase orders encumber full-year spending and have the effect of overstating the impact of the encumbrances. Spending in this category is down by \$14.9 thousand (4.82%) when compared to the same ten-month period in 2020 and is primarily due to reduced spending in supplies and materials (down \$12.2 thousand).

The approved 2021 budget in the Water Operations fund does not provide for an interfund transfer of to the Water Debt Service (604) fund to assist in meeting the department’s debt service financial obligations. The last time this was required was in 2018. Prior to that, the operating budgets did not provide for any interfund transfers during the previous two years (2016 and 2017). The Water Capital Improvements (602) fund is capable of providing the debt service funding, although it was projected to a bit short in 2018, thus the required funds transfer at that time.

**Fund Balance** – The Water Operations fund is the primary operating account for the city from which expenses associated with the operation of the city’s water treatment and distribution operations are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues, or during periods of greater than typical

spending. Evaluating the fund balance (and the corresponding revenues and expenses) is a valuable exercise in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

The chart below plots revenue, expenditures and fund balance since January 2015. The solid color lines represent actual numbers, and the dotted lines represent projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs and provide a smoothed trend of the fund balance over the time horizon of the chart.

The fund ended 2020 with an unencumbered fund balance of \$1.24 million, which is \$234.7 thousand (23.32%) higher than year-end 2019 and was equal to 92.81% of FY 2020 spending. In contrast, the FY 2021 budget projects a year-end fund balance of \$1.27 million, which would equate to a reserve ratio equal to 85.65% of expenditures. The fund ended 2019 with an unencumbered fund balance of \$1.0 million, an increase of \$201.4 thousand (25.02%) from year-end 2018

As you can see from the chart above, the balance in the Water Utility fund has been fluctuating between \$330 thousand and \$1.53 million. The trend line illustrates that the overall trend, however, is that the fund balance is a gradual increase in fund balance over the 5-year period. The April 2015 and April 2018 spikes in spending are the result of transfers to the water debt service (604) fund. Except for those anomalies, revenues have generally been in excess of expenditures resulting in the trend line to be positively sloped.

During 2019, the year-end balance in the fund increased to approximately \$1.19 million, and it increased to \$1.41 million at year-end 2020. From 2021 through 2026, however, the fund balance is expected to decline to \$639.3 thousand at the end of FY 2026 (see chart at right) which would equate to a reserve ratio of 36.82%. This chart has been updated with the proposed 2022 budget data through 2026.

**Sewer Operations Fund (651)**

**Revenue** – The Sewer Operations fund’s primary revenue sources are charges for service and other sources, and the fund has a 2021 revenue budget of approximately \$1.65 million. On a year to-date basis, the fund has been credited with total revenue of approximately \$1.36 million, which represents 82.63% of budget. The total (excluding transfers) is up by \$27.3 thousand (2.05%) from the same ten-month period in 2020.

**Sewer Fund Revenue Budget by Source**

**Sewer Fund Revenue Budget vs YTD Actual**

Charges for service represent the primary revenue category in this fund and has a 2021 budget of approximately \$1.62 million (98.18% of budget). Year to-date revenues credited to the fund are about \$1.35 million, or 83.26% of budget. In comparison, collections for the same ten-month period in 2020 were \$1.29 million, an increase of \$53.6 thousand (4.14%) in 2021 over 2020 collections.

**Usage Fee Collections - Sewer Fund**

The other revenue category, Other Sources, has a 2021 budget of \$30.0 thousand. These revenues can vary widely and are not material to the total. To date, the city has received \$14.5 thousand, which is \$26.2 thousand (64.34%) lower than FY 2020.

The revenues account for investment income, as well as any other miscellaneous non-usage related fees and charges.

**Expenditures** – The Sewer Operations fund has a total appropriated expenditure budget for 2021 of about \$1.73 million. Total spending through October 31 was approximately \$985.7 thousand, or 57.13% of budget. Including encumbrances (e.g., purchase orders) of \$290.0 thousand in the total results in total committed spending equal to 73.94% of budget. Compared to the same ten-month period in 2020 (and including

transfers), the total is down by \$15.0 thousand (1.50%) and is due primarily to increased spending in the Salary & Related, Contractual Services, and Capital Outlay budget categories; partially offset by decreased spending in the General Operating and Transfers budget categories.

For 2021, the largest expense budget category for the Sewer fund is Salaries, wages and other employee-related costs with a budget of \$630.7 thousand, or 36.56% of the total fund budget. Spending through October 31 was \$467.4 thousand, or 74.11% of budget. The positive budget variance (\$58.2 thousand below budget) is primarily the result of an open Utility Field Tech II position, below-budget spending on insurance, and very little spending on conferences, training and related travel due to the COVID-19 pandemic. Spending in this category is up by \$49.8 thousand (11.94%) from the level in 2020.

Contractual Services is the next major expense category in the Sewer fund. The 2021 budget in this category is \$626.7 thousand (36.33% of budget) and provides for non-employee personal services. Spending through October 31 is \$332.8 thousand (53.11% of budget). Including encumbrances (e.g. purchase orders) in the total, results in a finding that 76.16% of the budget has been either spent or committed to be spent. It is important to note that much of the spending in this category does not tend to follow a linear path; rather, it is typically disbursed in large ‘chunks’ to the vendors and consultants when the services are provided. We regularly monitored this category closely during 2020 to ensure that spending remained within the approved budget and will continue to do so in 2021.

General operating expenditures represent another major expense category. It combines a number of other basic types of expenditures including operating supplies, equipment, utilities and other miscellaneous expenses. It has a 2021 budget of \$436.6 thousand, or 25.31% of the fund budget. Spending through October 31 was \$154.3 thousand, or 35.33% of budget. Including encumbrances (e.g., purchase orders) of \$104.5 thousand in the total results in a spending ratio equal to 59.27% of budget. Many of these 2021 purchase orders encumber full-year spending and have the effect of overstating the impact of the encumbrances. Compared to the same ten-month period in 2020, spending in this category is down by \$2.8 thousand (1.81%).

The 2021 budget did not include any interfund transfers from the Sewer fund. However, the approved 2020 budget in the Sewer Operations fund did include an interfund transfer of \$175,000 to the Sewer Debt Service (654) fund to meet the department’s obligations on the system’s portion of the outstanding utility-related

debt. This was a significant change as there weren't any authorized interfund transfers in 2016 through 2019 for debt service funding support.

**Fund Balance** – The Sewer Operations fund is the primary operating account for the city from which expenses associated with the operation of the city's wastewater treatment operations are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues, or during periods of greater than typical spending. Evaluating the fund balance (and the corresponding revenues and expenses) is a valuable exercise in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

The chart above plots revenue, expenditures and fund balance since January 2015. The solid color lines represent actual numbers, and the dotted lines represent projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs and provide a smoothed trend of the fund balance over the time horizon of the chart.

The fund ended 2020 with an unencumbered fund balance of \$2.73 million, which was \$118.3 thousand (4.16%) lower than year-end 2019 and was equal to 181.2% of FY 2020 spending (including carry over encumbrances). The fund ended 2019 with an unencumbered fund balance of \$2.42 million, an increase of \$366.0 thousand (17.83%) from 2018. In contrast, the FY 2021 budget projects a year-end fund balance of \$2.97 million, which equates to a reserve ratio equal to 172.38% of expenditures.

As you can see from the chart above, the balance in the Sewer Operations fund has been increasing consistently from 2015 through 2020. With the exception of early-2015, revenues have tracked fairly closely to, or exceeded, revenues over the years covered by the graph, resulting in an upward sloping fund balance.

Based upon current estimates of revenues and expenditures, the

current projections call for the fund balance to decline gradually every year after over the next five years (see chart at the bottom of the previous page), with expenditures generally exceeding revenues. The fund is projected to end 2026 with a fund balance of \$1.17 million, or a ratio of 63.84%. This chart has been updated with the proposed 2022 budget data through 2026.

STAR Ohio will be closed Thursday, November 11, 2021 in observance of Veterans Day and Thursday, November 25th in observance of Thanksgiving Day. The market will close early on Friday, November 26, 2021. The deadline for all transactions will be 1:00pm on this day. No bank account changes at this time. Please continue to use your current STAR Ohio bank account instructions with Huntington National Bank. There will be communication in advance of any future bank changes.

STAR Ohio implemented some website enhancements to the participant website that went into effect in September. To access the website, click on the "STAR Ohio Login" at: [www.starohio.com](http://www.starohio.com). Enhancements include:

- Enhanced security measures such as multi-factor authentication which sends a code to the user's email address on file;
- Easy access to forms and fund information such as the Authorized Signer Form, viewing of daily STAR Ohio rates, the S&P 500 report, and the STAR Ohio Investment Policy Statement;
- Enhanced trading capabilities such as now allowing purchases by Fed Wire to be placed on the web.

Please mail all check deposits to STAR Ohio, PO Box 7177, Dublin, OH 43017.

Feel free to contact STAR Ohio Client Services with any questions at (800) 648-7827(STAR) or email [info@starohio.com](mailto:info@starohio.com).

## IntraFi® Network Deposits<sup>SM</sup> Monthly Statement

Demand or Savings Option (formerly known as ICS®)

The following information is a summary of activity in your account(s) for the month of October 2021 and the list of FDIC-insured institution(s) that hold your deposits as of the date indicated. These deposits have been placed by us, as your agent and custodian, in deposit accounts through IntraFi Network Deposits. Funds in your deposit accounts at the FDIC-insured institutions at which your funds have been placed will be "deposits," as defined by federal law.

### Summary of Accounts
