RE: August 2022 Financial Condition Report

Finance Department

James M. Nicholson
Finance Director

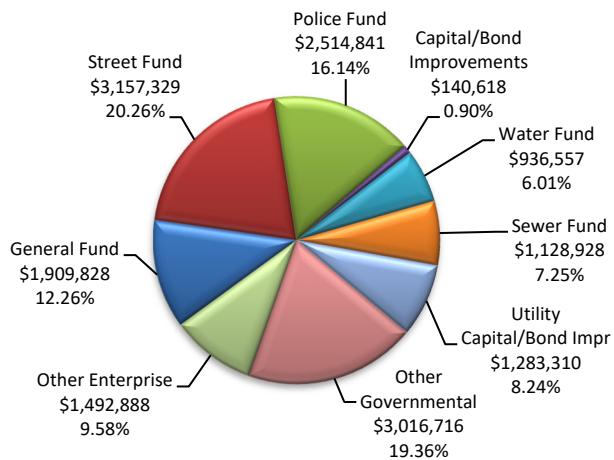

The Finance department continued to be busy and productive during the month of July as we accomplished the following: (1) completed the development of the 2023-2027 budgets for the Finance, Debt Service and other citywide functions; (2) compiled departmental budget submissions to determine overall financial condition; (3) updated revenue projections by fund/source for 2023-2027; (4) held a budget review session with the Administrator to review the results of submitted budgets and discuss additional revisions to be made; (4) continue to work with the other members of the COHCC Board on the development and approval of 2023 medical insurance renewal rates; (5) met with Key Bank bankers to discuss debt funding options and current borrowing environment; and (6) continued work on the transition to a new time and attendance system (HR Butler).

During the month of September, we will continue to focus much of our efforts on the 2023 budget process. The next step in the process will be the review and analysis of the proposed budgets to ensure appropriate reserves have been maintained throughout the forecast period, followed by the development of a formal, comprehensive budget document. In addition to working on the budget and providing routine payroll and accounting services, we also plan to: (1) finalize 2023 budget submissions and begin creation of budget deck; (2) begin Accounting Clerk applicant interviewing process; (3) work with the other members of the COHCC Board on the development and approval of 2023 medical insurance renewal rates; (4) hold a bid opening for the sewer lining project; and (5) continue to identify investment strategies to manage the city's investment portfolio in a historically low, but rising interest rate environment.

REVENUE/RECEIPTS

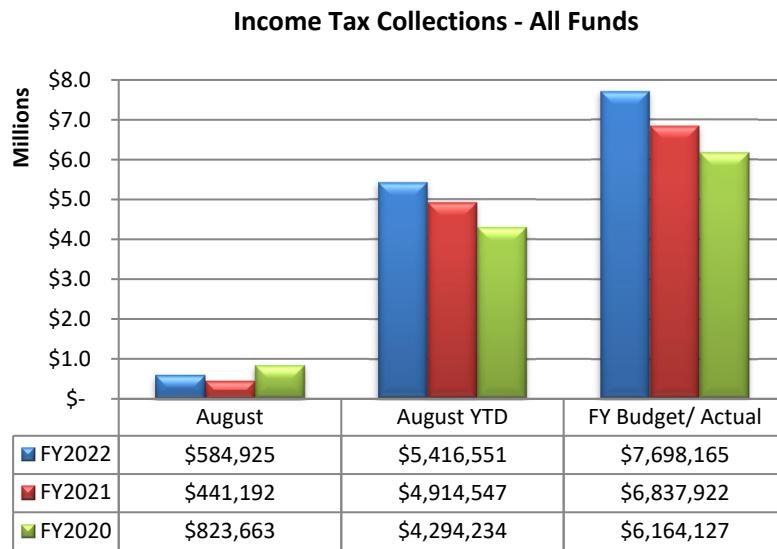

I am pleased to present this report on the financial condition of the city as of August 31, 2022. On a year-to-date (YTD) cash basis, the city has collected approximately \$15.58 million in total revenue from all sources, or 67.81% of the full-year budget. This total is slightly overstated, however, due to: (1) \$1.89 million in interfund transfers made in January; (2) property tax/TIF PILOT revenues of \$1.64 million received; and (3) \$1.05 million in one-time grant revenues. Excluding those items would result in a YTD collections rate that is equal to 66.21% of budget, which is closer to the straight-line rate of 66.67%.

YTD Revenue by Fund

Income tax collections for the month of August were \$584.9 thousand (equal to 7.60% of budget) and were \$143.7 thousand (32.58%) higher than last year when compared to August 2021. Total year to-date collections are \$5.42 million (70.36% of budget) and, when compared to an August 2021 YTD total of \$4.91 million, are \$502.0 thousand (10.21%) higher. The full-year budget is currently projected to be \$7.70 million, an increase of \$860.2 thousand, or 12.58% over FY 2021 collections. It is important to note that the August 2021 YTD collections

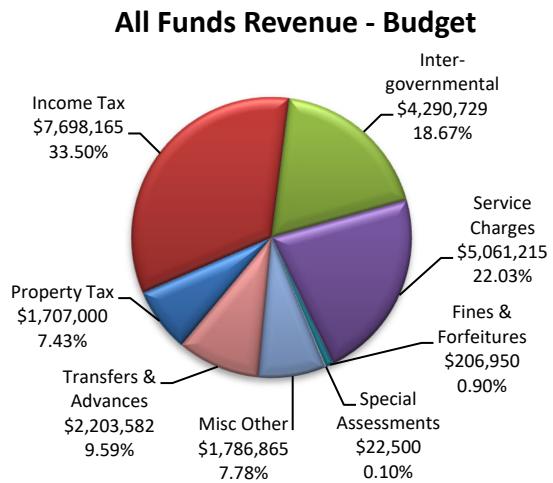

were equal to 71.87% of the full-year 2021 collections, and in 2020, the rate was equal to 69.66% of FY 2020 collections. Based upon the current rate of collections, the income tax collection forecast was increased in June by \$294.3 thousand or 3.97%. We will continue to monitor this trend to ensure that the forecast is accurate and appropriate.

The city received its second-half 2022 property tax settlement from Licking County in the month of August. The 2022 budget in this line is \$1.71 million and is projected to be up by \$129.4 thousand (8.20%) from FY 2021 receipts. Total property taxes received to-date are \$1.64 million and are \$63.9 thousand (4.05%) higher than the same period in 2021. The forecast was increased during June by \$79.8 thousand (4.91%) to reflect the increased collections rate.

Intergovernmental revenues represent one of the other more significant revenue categories for the city. They reflect funding received by the city from the federal, state and county governments. The revenues can come in the form of loans, grants or reimbursements. For 2022, a total of \$4.29 million is budgeted, with \$2.51 million of the total expected to come from grants and loans. Through August 31, approximately

\$2.32 million has been collected (54.18% of the category budget) which is down by \$792.4 thousand (25.42%) from 2021. The significant variance is the result of receiving distributions in 2021 from the OWDA for the WRF facility improvement project.

Service charge revenues are another major revenue category for the city. As the title would imply, these revenues are received in exchange for providing services to residents, businesses, and other customers. For 2022, approximately \$5.06 million is budgeted for total service charge revenues. Year to-date collections are \$3.57 million, or 70.61% of budget. The eight-month

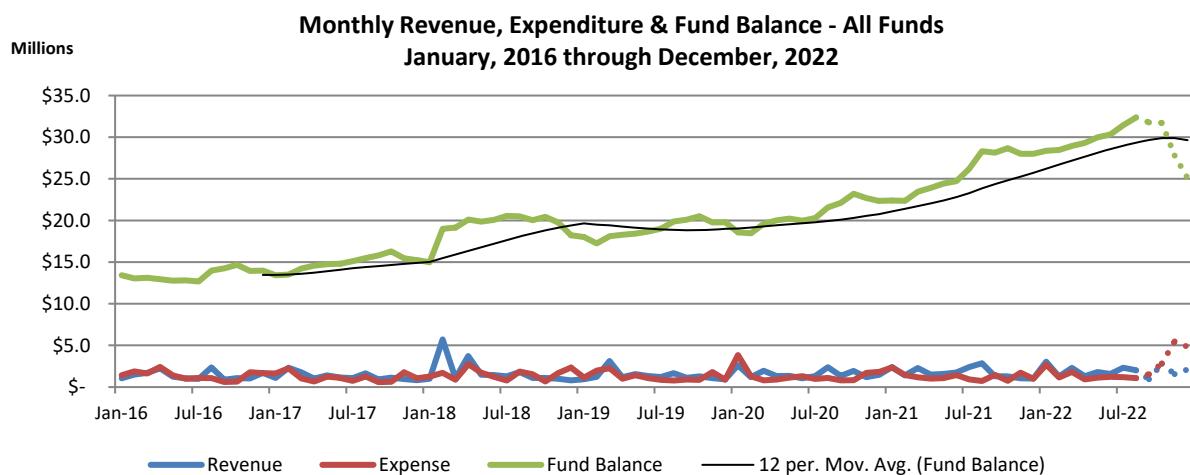

total is down by \$21.0 thousand (0.58%) when compared to 2021. At \$4.63 million or 91.54% of the category budget, water and sewer usage fees represent the largest single component of this category. Usage fees collected through August 31 are \$3.26 million, or 70.43% of the full-year budget in this line item.

EXPENDITURES/SPENDING

As we continue through the third-quarter of 2022, spending trends continue to appear to be in-line with expectations. Excluding debt service expenses and interfund transfers in the calculation results in a spending rate equal to 38.44%, well below the straight-line rate of 66.67%. The lower than anticipated spending was the result of reduced spending on capital outlay and wage and related expenses when compared to 2021. Including 2021 carryover encumbrances (e.g., purchase orders) as well as FY 2022-issued POs in the total results in a ratio of 64.31%. Many of these 2022 purchase orders encumber full-year spending and have the effect of overstating the impact of the encumbrances.

FUND BALANCE/FINANCIAL HEALTH

The chart below plots revenue, expenditures and fund balance since January 2016. The solid color lines represent actual numbers and any dotted lines reflecting the current forecast. A trend line has also been added to the chart to smooth out the periodic ups and downs and provide a smoothed trend of the fund balance over the time horizon of the chart.

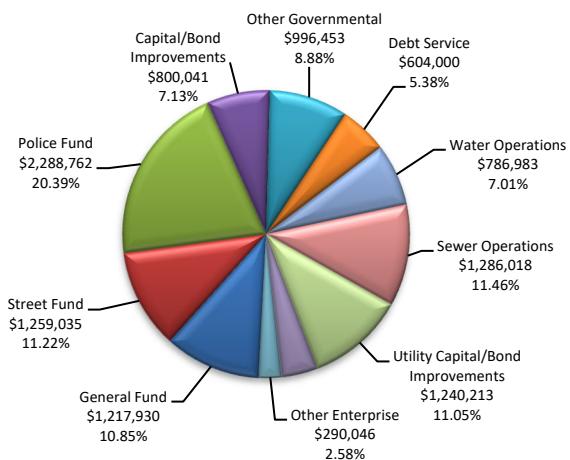

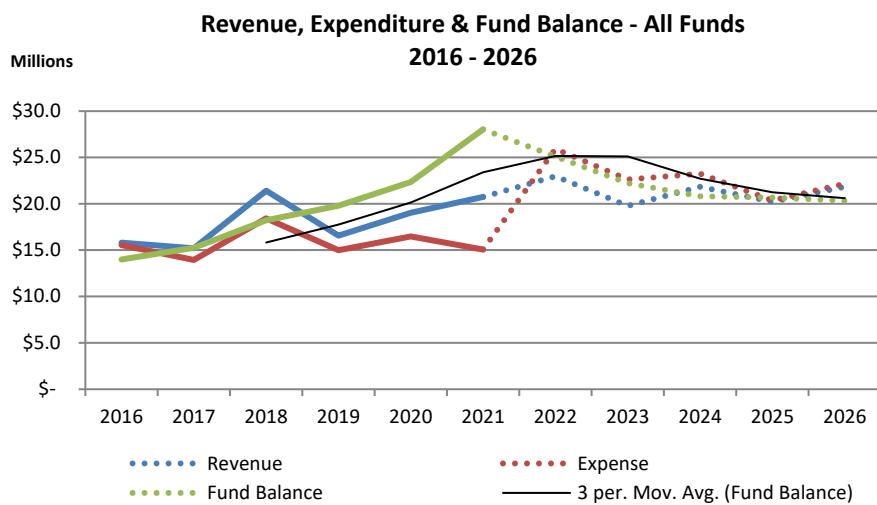

Current projections call for the total all-funds balance to decline by \$2.94 million (10.48%) in 2022 (see chart at the top of the following page which has been updated to reflect the current 5-year forecast) to a total funds balance of about \$25.08 million. The year-end 2021 total fund balance was \$28.05 million, an increase of \$5.78 million (25.99%) over the budget which resulted from below-budget spending in 2021 (down \$6.42 million). From 2022 – 2026, however, the balance will decline every year during that period of time. This is due to expenditures either exceeding or being roughly equal to revenues in each of those succeeding years.

The General fund ended the month of August 2022 with an unencumbered balance of \$3.29 million and is up by \$443.0 thousand, or 15.55% from December 2021. The Street (201) fund is up by \$720.0 thousand (23.99%), while the Police (208) fund decreased by \$106.0 thousand (2.71%). The 2022 forecast calls for these funds to end the year approximately 12-15% below where they ended 2021. As we go through 2022,

YTD Expenditures by Fund

(excludes encumbrances)

the city's overall fiscal health, and it's a 'best practice' in the public finance profession. We will also be working to reduce and manage the spending side of the equation in order to minimize the need to draw from existing reserves.

I am providing this summary analysis to facilitate a better understanding of the sources of all city revenues, the status of collections to-date and available fund balances. The report will now turn its focus to each of the primary governmental and enterprise funds of the city: 101 – General Fund; 201 – Street Fund; 208 – Police Fund; 301 – Capital Improvements; and 601/651 – Water and Sewer Operations funds.

Respectfully submitted,

it is critical for the city to continue to closely monitor each of the key fund balances to ensure that adequate funding is available to provide the desired level of service to the community in the future. Maintaining adequate reserves to ensure ongoing operations and the ability to service our debt are just some of the factors that the ratings agencies consider when evaluating

General Fund (101)

Revenue – On a year to-date-year basis, the general fund has been credited with total revenue of approximately \$1.91 million, which represents 84.24% of budget. When compared to a straight-line rate of 66.67%, general fund revenues through August 31st are running well ahead of budget. Typically, the timing of when the city receives its semi-annual property tax settlements tends to skew the total. We received the 2nd half property tax settlement during the month of August. Eliminating the impact that the timing of the property tax receipts has in the calculation, the total is running at 63.77%, or approximately 2.9% lower than budget.

**General Fund Revenue
Budget by Source**

**General Fund Revenue
Budget vs YTD Actual**

The largest revenue source for the general fund is property taxes, which accounts for 64.27% of the 2022 general fund revenue budget. The 2022 budget for this category is projected to be \$1.46 million and would be up by \$127.2 thousand (9.56%) when compared to 2021 full-year collections. To-date, the general fund has received \$1.39 million in property tax revenues from the Licking County Treasurer and the State of Ohio (95.56% of budget). This total is up by \$62.5 thousand (4.70%) from the same eight-month period in 2021. The increase is the result of an increased assessed valuation of the city due to recent residential construction.

Service charge revenues represent the second largest revenue category for the general fund. These revenues are received in exchange for providing services to residents, businesses and other customers including building licenses/permits, and other miscellaneous permits. The 2022 budget in this category is \$271.3 thousand (11.97% of budget). Through August 31, the city has received \$160.5 thousand (59.16% of budget) and is down by \$14.9 thousand (8.51%) from FY 2021. The variance is the result of reduced requests for permits from the city in 2021 (down \$16.4 thousand); partially offset by increased variance applications and zoning permit requests (up \$0.7 thousand) and increased franchise fee collections (up \$0.8 thousand).

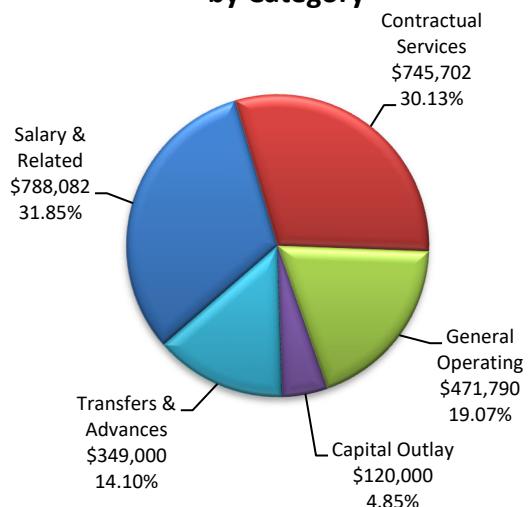

Intergovernmental revenue is the next major general fund revenue source. It reflects funding received by the city from the federal, state and county governments. The revenues can come in the form of loans, grants or reimbursements. For 2022, it is projected to account for approximately \$273.0 thousand (12.04% of total fund budget). This category consists of the following revenue items: local government distributions, property tax rollback/homestead exemption reimbursements from the state; electric utility income tax reimbursement; and cigarette/liquor taxes and fees. On a year to-date basis, the fund has received \$203.8

thousand in this category (74.67% of budget) and is up by \$23.6 thousand (13.11%) when compared to the same eight-month period in 2021.

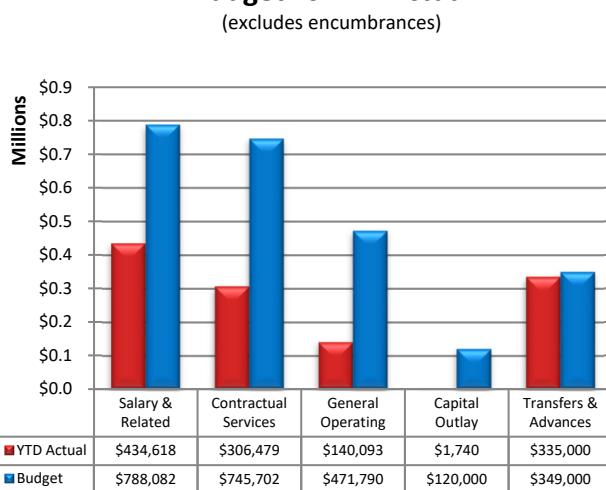

Fines and forfeitures revenue represent the other major revenue category for the general fund. The 2022 budget in this category is \$200.8 thousand (8.86% of budget) and consists of fines and forfeitures generated by the operation of the city's Mayor's Court, as well as other state-generated fines. Through August 31, the city has received \$132.8 thousand in this category, which represents 66.15% of budget. Compared to the same eight-month period in 2021, the total is up by \$88.7 thousand, or 200.9%. The primary driver of the increase is the improved rate of revenue generated by the Mayor's Court in 2022. The category forecast was increased in June by \$144.0 thousand (253%) due to significant non-traffic penalties assessed by the court.

Expenditures – The general fund has a total appropriated expenditure budget for 2022 of approximately \$2.47 million. Total spending through August 31 is \$1.22 million and is equal to 49.22% of the budget. Including encumbrances (e.g., purchase orders) of \$332.8 thousand (but excluding transfers) in the total results in a total ratio equal to 57.19% of budget. Most of the encumbered balances represent full-year purchase orders which tend to overstate the impact. Compared to the same eight-month period in 2021 (and excluding transfers), the total is down by \$48.8 thousand (5.24%).

**General Fund Expense Budget
by Category**

**General Fund Spending
Budget vs YTD Actual**

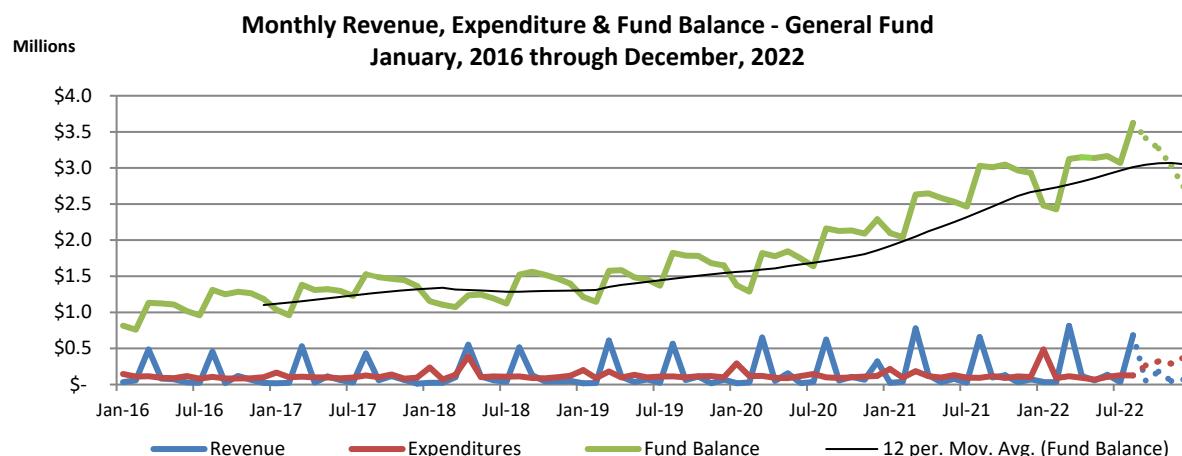

Salaries, wages and other employee-related costs represent the largest expense category, with a 2022 budget of \$788.1 thousand, or 31.85% of the general fund budget. Spending through August 31 was \$434.6 thousand, or 55.15% of budget. The positive variance (\$90.8 thousand below budget) was primarily the result of open positions and reduced employee HRA funding paid through August.

Contractual services is another major expense category in the General fund. The 2022 budget in this category is \$745.7 thousand (30.13% of budget) and provides for non-employee personal services, such as legal, audit and engineering services. Spending through August 31 is \$306.5 thousand (41.10% of budget). Including encumbrances (e.g., purchase orders) of \$156.1 thousand in the total, 62.03% has been either spent or committed to be spent. It is important to note that much of the spending in this category does not tend to follow a linear path; rather, it is typically disbursed in large 'chunks' to the vendors and consultants when the services are provided. We monitor this category closely to ensure that spending remains within budget.

General operating expenditures is another significant expense category in the general fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2022 budget of \$471.8 thousand, or 19.07% of the fund's budget. Year to-date 2022 spending in this category is \$140.1 thousand and is equal to 29.69% of budget. Including encumbrances in the calculation, the total spent or committed is \$248.5 thousand, or 52.66% of budget. Spending in this category is down by \$13.8 thousand (8.97%) from the same eight-month period in 2021.

The approved 2022 budget in the general fund includes \$349,000 in interfund transfers to the Recreation (206) fund to provide additional funding for recreational programming. This is a major increase from FY 2021 which had a total of \$110,000 in interfund transfers. In prior years, the General fund would cover 50% of the wages and benefits for Parks & Recreation employees. Starting in 2022, these are all being charged 100% to the Recreation fund, which results in the fund requiring additional funding. Most of the 2022 transfers were made on the accounting system during the month of January.

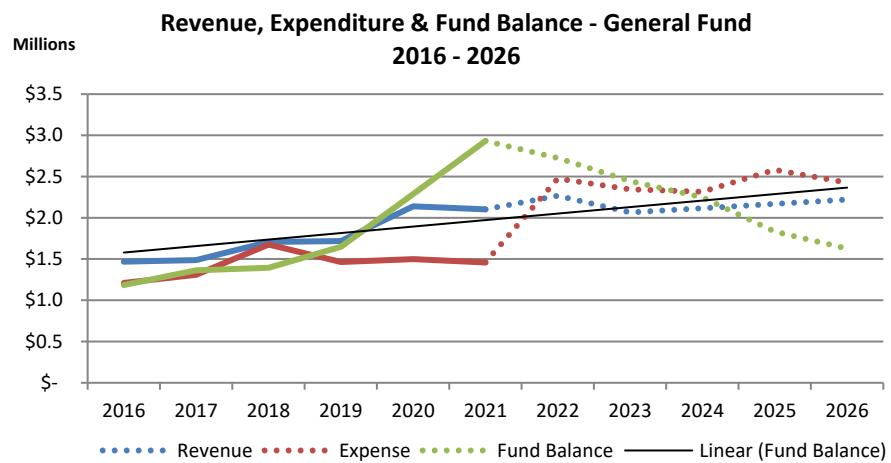

Fund Balance – The general fund is the primary operating account for the city from which expenses, other than those associated with the Street, Police and Debt Service functions, are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues, or during periods of greater than typical spending. Evaluating the fund balance (and the related revenues/expenses) is a valuable exercise, in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

The chart above plots revenue, expenditures and fund balance on a monthly basis since January 2016. The solid color lines represent historical numbers, and any dotted lines representing projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs and provide a smoothed trend of the fund balance over the time horizon of the chart. Since 2016, the fund has generally been on an upward trajectory. The approved 2022 budget would have the fund declining by \$207.5 thousand (7.07%) if 100% of the projected revenue was collected and 100% of appropriations spent. The major spikes in revenue (typically March & August) represent the receipt of the semi-annual property tax settlements. The April 2018 and January 2022 spikes reflect interfund transfers of \$250.0 and \$335.0 thousand, respectively, to the Capital Improvements and Recreational Programming funds.

As you can see from the chart at the top of the following page, fiscal years 2016 through 2021 were very positive for the general fund balance, even though the fund had been generally declining over the prior several years. This improvement was due to both reduced spending and increased revenues received during the year. Of note, spending in the 2016 - 2021 period was less than revenue received which resulted in the

increasing fund balance. The fund is projected to be unable to maintain this positive trend in 2022 as the current forecast calls for deficit spending in each future year through 2026. The result of this is a declining fund balance in all future years. This chart has been updated with the approved 2022 budget data and the forecast through 2026. Based upon the numbers, the fund balance is currently projected to be \$1.63 million at the end of FY 2026 and would reflect a carryover balance ratio of 67.04% which is well above the 25-35% target range in the city's fund balance policy.

Street Fund (201)

Revenue – The Street Fund has a 2022 revenue budget of approximately \$4.55 million with the fund's primary revenue sources being income taxes and intergovernmental revenues. On a year to-date basis, the Street fund has been credited with total revenue of approximately \$3.16 million, which reflects 69.33% of the full-year budget. Total revenue to-date is up by \$738.9 thousand (30.55%) from the same eight-month period in 2021.

Income tax collections in August were \$258.0 thousand and represent 7.60% of the 2022 budget. Collections are up by \$112.8 thousand (77.71%) when compared to the same period in 2021. Year to date income tax revenues credited to the fund are \$2.39 million and represent 70.36% of budget. Collections to date are up by \$771.8 thousand (47.74%) from the same eight-month period in 2021. In comparison, collections through August 2021 were equal to 71.89% of the full-year collections, and in 2020 the rate was 70.33%. The increase in the fund's 2022 allocation rate from 32.90% to 44.50% had the effect of increasing the revenue credited to the fund by \$628.3 thousand. The increased level of total collections through August resulted in an increase of \$143.5 thousand. The net impact of these variances is the overall increase in fund revenue of \$771.8 thousand.

The green and light blue bars in the chart to the right reflect the revenue that would have been allocated to the fund had the percentage not been modified. Taking the different allocation rates into consideration, the fund would have received \$201.7 thousand (9.22%) more in 2022 than 2021 had the

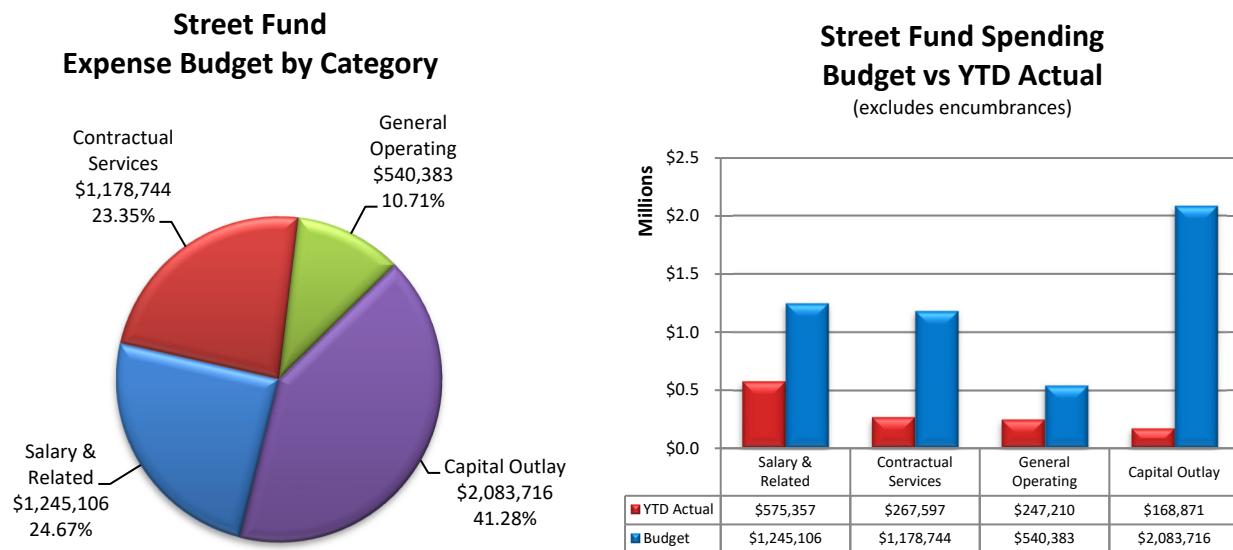

allocation rate not been changed, and collections would have been \$515.6 thousand (27.53%) higher than 2020 collections.

Intergovernmental revenues in the Street fund are budgeted at \$1.11 million and represent 24.26% of the fund's revenue budget. They reflect funding received by the city from the federal, state and county governments. This category is comprised of state-shared (e.g., permissive) taxes, and grants/loans from other governmental agencies. On a year to-date basis, the city has received \$722.3 thousand in this category (65.37% of budget) which is down by \$41.8 thousand (5.47%) from the same eight-month period in 2021.

The other category, Other Sources, is budgeted at \$54.3 thousand and represents only 1.19% of the total fund revenue budget. To date, the city has received \$45.9 thousand (84.63% of budget), which is up by \$9.1 thousand (24.86%) from the same eight-month period in 2021.

Expenditures – The Street fund has a total appropriated expenditure budget for 2022 of approximately \$5.05 million. Total spending through August 31 was \$1.26 million and is equal to 24.94% of budget. The lower than anticipated spending rate is the result of below-budget spending in all budget categories. Including encumbrances of \$1.78 million in the total (but excluding transfers) results in total fund spending equal to 60.25% of budget. Compared to year to-date 2021 (and excluding transfers), the total is down by \$90.0 thousand (6.67%) and is the result of reduced spending on wages/benefits, contractual services and capital outlay.

Spending on capital projects and equipment is the largest expense category in the Street fund with a 2022 budget of \$2.08 million, or 41.28% of the fund's budget. The budget provides funding for street and roadway infrastructure maintenance and related equipment. Spending through August 31 was \$168.9 thousand, or 8.10% of budget. The variance is the result of planned infrastructure improvement projects that won't begin until later in the year. Including encumbrances (e.g., purchase orders) in the total results in a spending commitment equal to \$1.47 million, or 70.63% of budget.

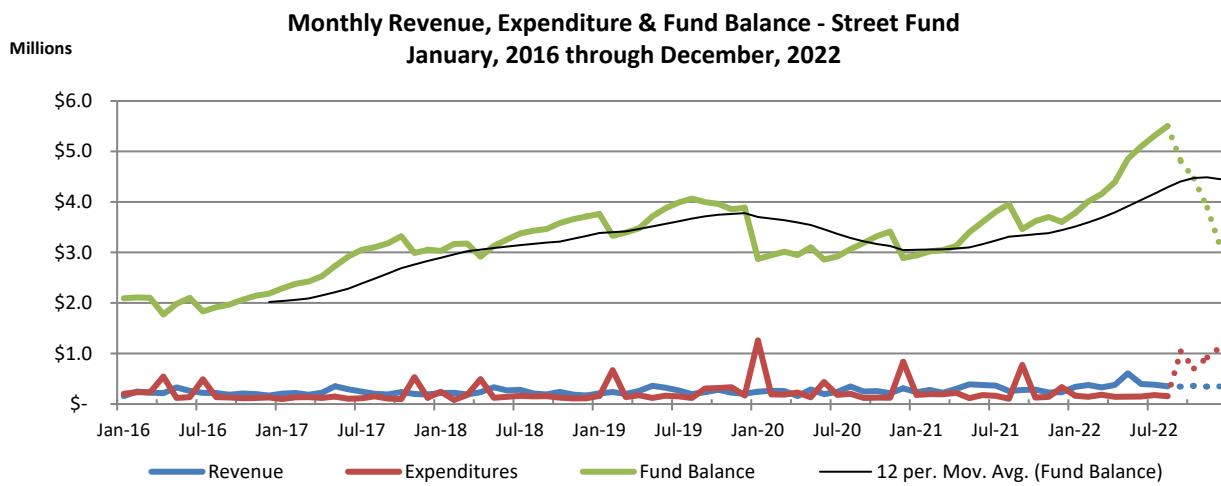

Spending on salaries, wages and other employee-related costs represents the next major expense category in the Street Fund with a 2022 budget of \$1.25 million, or 24.67% of the fund's budget. The budget provides funding for paying employee wages, pension costs and fringe benefits. Spending through August 31 was \$575.4 thousand, or 46.21% of budget. The positive budget variance (\$254.8 thousand below budget) is primarily the result of reduced funding of employee HRA accounts in 2022 and open positions. Spending in

this category is down by \$48.4 thousand (7.76%) from the level in 2021 and is also the result of there being open positions in 2022 and reduced HRA contribution funding through August.

Contractual services is another major expense category in the Street fund. The 2022 budget in this category is \$1.18 million (23.35% of budget) and provides for non-employee personal services, such as legal, audit and engineering services. Spending through August 31 is \$267.6 thousand (22.70% of budget). Including encumbrances (e.g., purchase orders) of \$312.8 thousand in the total, 49.24% has been either spent or committed to be spent. It is important to note that much of the spending in this category does not tend to follow a linear path; rather, it is typically disbursed in large ‘chunks’ to the vendors and consultants when the services are provided. We monitor this category closely to ensure that spending remains within budget.

General operating expenditures is the other significant expense category for the Street fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2022 budget of \$540.4 thousand, or 10.71% of the fund’s budget. Spending through August 31 was \$247.2 thousand, or 45.75% of budget. Including encumbrances in the calculation, total spending is \$329.1 thousand, or 60.90% of the budget. Spending in this category is up by approximately \$13.8 thousand (5.93%) when compared to the same eight-month period in 2021. The variance is primarily the result of increased income tax (RITA) collection fees (up \$30.7 thousand) and equipment purchase/maintenance expenses (up \$16.9 thousand); partially offset by reduced spending on supplies and materials (down \$36.8 thousand).

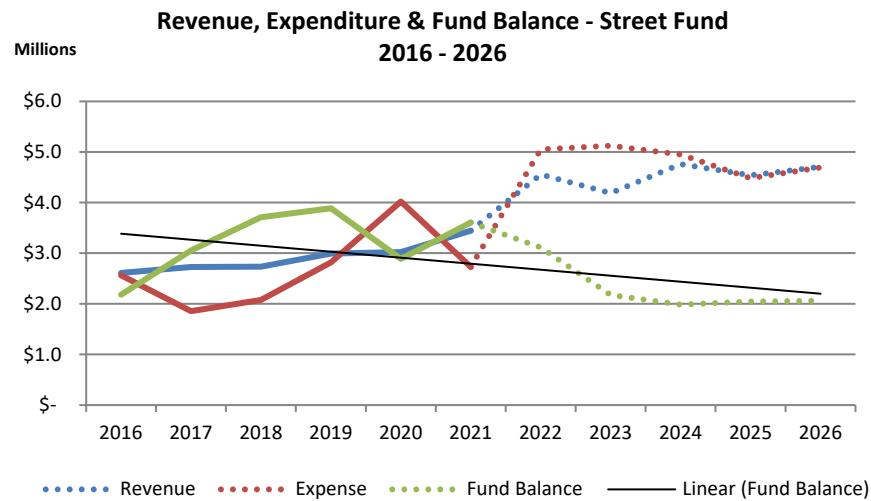

Fund Balance – The Street fund is the primary operating account for the city from which expenses associated with the maintenance of the city’s streets, roads and rights-of-way are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues, or periods of greater than typical spending. Evaluating the fund balance, revenues, and expenses is a valuable exercise, in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

The chart above plots revenue, expenditures and fund balance monthly since January 2016. The solid color lines represent actual numbers, and the dotted lines represent future projections. A trend line has also been added to the chart to smooth out the periodic ups and downs and provide a smoothed trend of the fund balance over time. The expense spikes, particularly in February 2019, January 2020 and December 2020 are the result of paying high-dollar invoices related to construction projects. Other than those items, revenues and spending have been closely matched. Since January 2016, revenues have generally equaled or exceeded expenses, except for large-dollar progress payments on capital improvement projects. In 2022,

however, the fund balance is projected to decline by \$493.8 thousand (13.70%) due to planned roadway and infrastructure improvement projects expected to be completed in 2022. This balance represents a carryover ratio of 61.64% which is above the 25-35% target per city policy.

As you can see from chart at right, which has been updated with the proposed 2022 budget data through 2026, the balance of the Street fund increased significantly from 2016 – 2019 but dramatically declined in 2020 due to increased approved capital spending. However, current projections also call for the fund balance to significantly decline in 2022-2023 and then somewhat stabilize (although still declining) in 2024. From 2024 and beyond, the fund balance remains somewhat stable between \$2.0 and \$2.1 million. The 2026 year-end carryover balance is currently projected to be \$2.06 million which is equal to 43.88% of planned spending and is slightly higher than policy.

Police Fund (208)

Revenue – The fund's primary revenue sources are income taxes and other sources, and it has a 2022 total revenue budget of \$3.55 million. On a year to-date basis, the Police Fund has been credited with total revenue of approximately \$2.51 million, which represents 70.81% of budget. Total revenue to-date is \$231.1 thousand (8.42%) lower than that collected during the same eight-month period in 2021. The primary cause of the decrease is the fund receiving a lesser portion of the tax revenues than in 2021 (45.0% vs 55.0%), partially offset by the slightly higher level of income tax collections in 2022.

**Police Fund Revenue
Budget by Source**

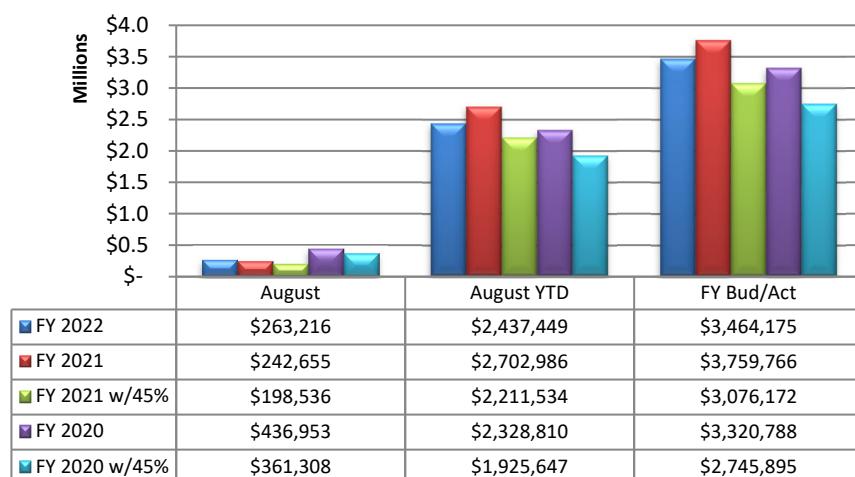

**Police Fund Revenue
Budget vs YTD Actual**

Income tax collections in August were \$263.2 thousand and are up by \$20.6 thousand (8.47%) when compared to the same period in 2021 and are equal to 7.60% of budget. Year to date income tax revenues credited to the fund are \$2.44 million and represent 70.36% of budget. Collections to-date are down \$265.5 thousand (9.82%) from the same eight-month period in 2021. In comparison, collections through August 2021 were \$2.70 million, and reflected 71.89% of the 2021 full-year collections. In 2020, the rate was equal to 70.13% of full-year collections. The decrease in the fund's 2022 allocation rate from 55.0% to 45.0% had the effect of reducing the revenue credited to the fund by \$541.7 thousand (11.02%). The increased level of total collections through August resulted in an increase of \$276.1 thousand (5.62%). The net impact of these variances is the overall decrease in fund revenue of \$265.5 thousand. The green and light blue bars in the chart to the right reflect the revenue that would have been allocated to the fund had the percentage not been modified. Taking the different allocation rates into consideration, the fund would have received \$225.9

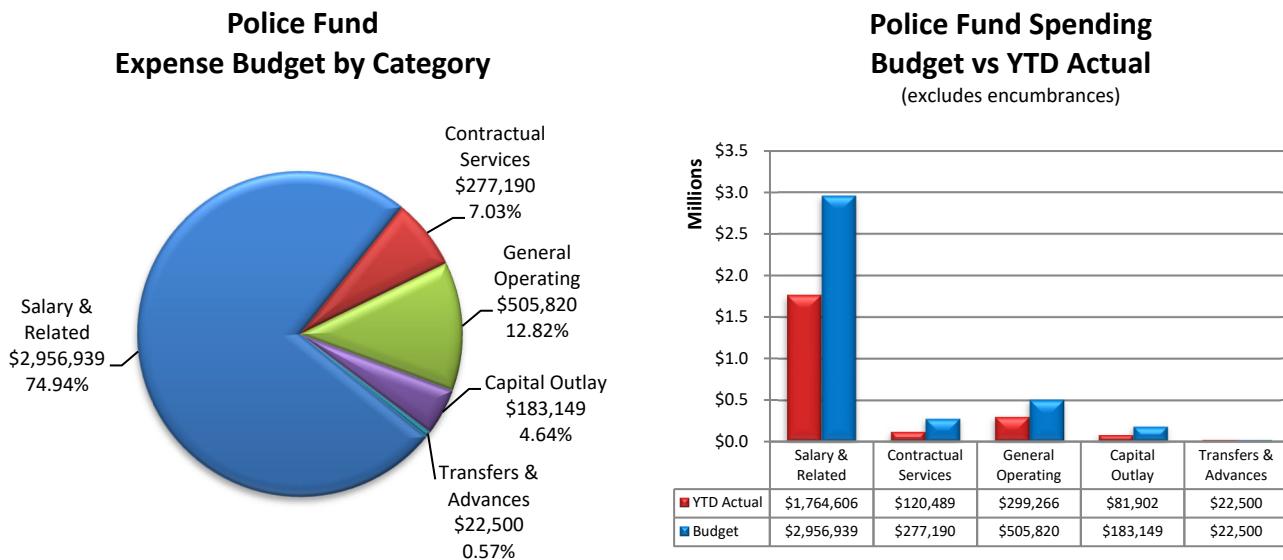

Income Tax Collections - Police Fund

thousand (10.22%) more in 2022 than 2021 had the allocation rate not been changed, and collections would have been \$511.8 thousand (26.58%) higher than the 2020 collections.

The other significant revenue category, Other Sources, is budgeted at \$67.5 thousand, and represents only 1.90% of the total fund revenue budget. To date, the city has received \$56.9 thousand (84.37% of budget) and is up by \$17.6 thousand (44.86%) from the same eight-month period in 2021.

Expenditures – The Police fund has a total appropriated expenditure budget for 2022 of approximately \$3.95 million. Total spending through August 31 is approximately \$2.29 million and is equal to 58.01% of budget. Excluding interfund transfers of \$22.5 thousand, total spending is equal to 57.77% of budget. Including encumbrances (e.g., purchase orders) of \$422.4 thousand in the total results in total spending equal to 68.53% of budget. Compared to the same eight-month period in 2021 (and excluding transfers), the total is up by \$255.0 thousand (12.68%) and is primarily the result of increased spending in the Salary & Related, Capital Outlay and General Operating budget categories, partially offset by reduced spending in the Contractual Services budget category.

Salaries, wages and other employee-related costs represent the largest expense category with a 2022 budget of \$2.96 million, or 74.94% of the fund's budget. Spending through August 31 was \$1.76 million, or 59.68% of budget and is \$206.8 thousand (6.99%) below budget. The variance is the result of there being a lower level of funding of employee HRA accounts in 2022 and open positions. Spending in this category is up by \$188.0 thousand (11.93%) from the level in 2021 and is the result of fewer open positions in 2022 and significantly increased rates of officer pay.

General operating expenditures is the next major expense category in the Police fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2022 budget of \$505.8 thousand, or 12.82% of the total fund expenditure budget. Year to-date spending in this category is \$299.3 thousand, or 59.16% of budget and is up by \$37.5 thousand (14.34%) from the same eight-month period in 2021.

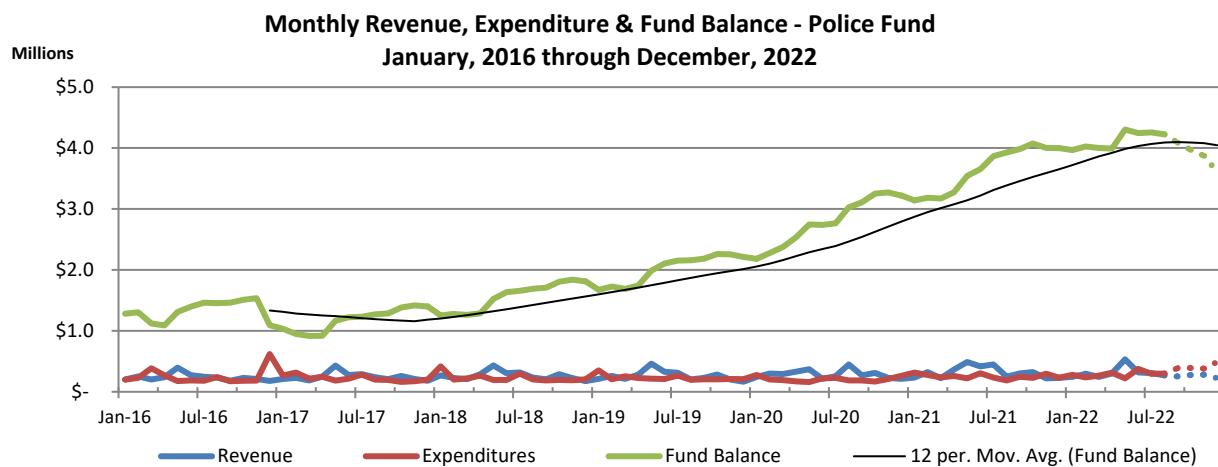

Contractual services is another major expense category in the Police fund. The 2022 budget in this category is \$277.2 thousand (7.03% of budget) and provides for non-employee personal services, such as legal, audit, facility management and other law enforcement-related services. Spending through August 31 is \$120.5 thousand (43.47% of budget). Including encumbrances (e.g., purchase orders) of \$64.9 thousand in the

total, 66.87% has been either spent or committed to be spent. It is important to note that much of the spending in this category does not tend to follow a linear path; rather, it is typically disbursed in large ‘chunks’ to the vendors and consultants when the services are provided. We monitor this category closely to ensure that spending remains within budget.

Spending on capital equipment is another significant expense category in the Police fund. The 2022 budget in this category is \$183.1 thousand (4.64% of total budget) and provides funding for the acquisition of Police cruisers, law enforcement-related equipment and other capital improvements. Year to-date spending in this category is \$81.9 thousand (44.72% of budget) and is up by \$29.5 thousand (56.16%) from the same eight-month period in 2021.

The approved 2022 budget in the Police fund includes an interfund transfer of \$22.5 thousand. The purpose of the transfer is to provide funding to the Debt Service (401) fund to meet the department’s financial obligations on the LGIF loan for the construction of the MARCS tower. This transfer was completed during the month of January.

Fund Balance – The Police fund is the primary operating account for the city from which expenses associated with the operation of the city’s Police department are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues or periods of greater than typical spending. Evaluating the fund balance, revenues, and expenses is a valuable exercise, in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

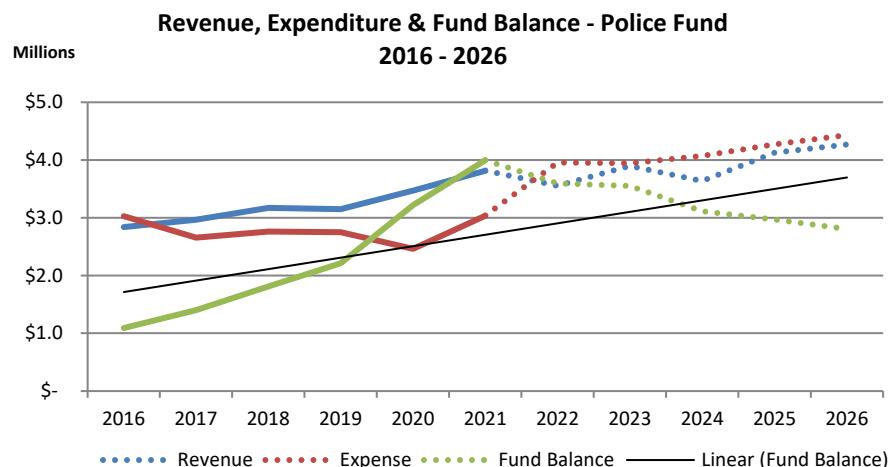

The chart above plots monthly revenue, expenditures and fund balance since January 2016. The solid color lines represent actual numbers, and the dotted lines represent projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs and provide a smoothed trend of the fund balance over the time horizon of the chart.

As you can see from the chart above, the balance in the Police fund has been fluctuating up and down since January 2016 but has seen growth since mid-2018. In general, revenues and expenditures have been closely matched. The spike in December 2016 spending was the interfund transfer of \$400,000 to the Capital Facilities fund related to the construction and outfitting of the new Police station.

Current projections call for the balance to decline in starting in 2022 and continuing to do so through 2026 (see chart at top of following page). However, the fund ended 2021 at a balance of \$4.0 million or \$475.5 thousand better than projected due to the receipt in 2021 of nearly \$700 thousand in one-time CARES Act

funds. The 2022 carryover balance at this point reflects a reserve ratio of 91.34%. The fund is projected to decline annually through 2026 when it has a year-end balance of \$2.81 million, where it will have a 63.30% carryover balance. This is above the top-end of the 25-35% target range. The chart has been updated with the approved 2022 budget data through 2026, however it only includes the 2022 impact from the recently approved increase in Patrol Officer and Sergeant pay rates. The long-term impact will be incorporated into the financial reporting during the 2023 budget development process.

Capital Improvements Fund (301)

Revenue – The Capital Improvements Fund has a 2022 revenue budget of approximately \$176.5 thousand. The fund's primary revenue sources are income taxes, intergovernmental revenues and other sources. On a year-to-date basis, the Capital Improvements fund has been credited with total revenue of approximately \$140.6 thousand, which represents 79.68% of budget. The eight-month total is higher than budget and is due to one-time other sources revenue receipts in February. The fund is slated to receive a 1.50% allocation of income tax revenues in 2022, which is unchanged from allocation rate to the fund in 2021.

**Capital Improvements Fund
Revenue Budget by Source**

**Capital Improvements Fund Revenue
Budget vs YTD Actual**

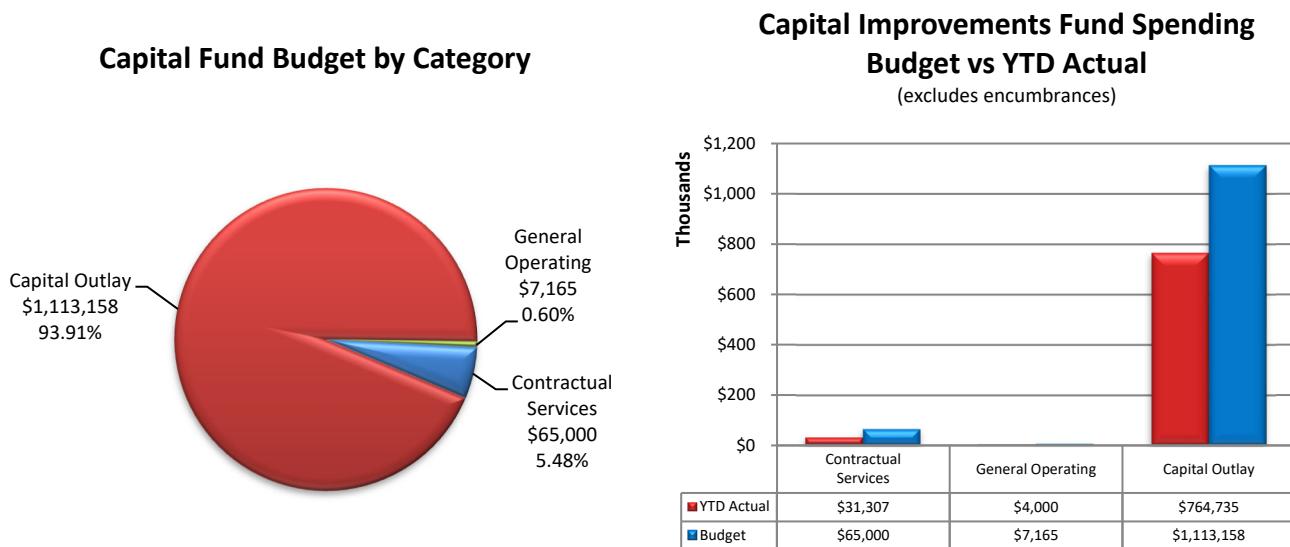

In 2022, income taxes are the primary external revenue source for the Capital Improvements fund representing 65.43% of the fund's total revenue sources. Income tax collections in August were \$8.8 thousand and represent 7.60% of the 2022 budget. Collections are up by \$2.2 thousand (32.58%) when compared to the same period in 2021. Year to date income tax revenues credited to the fund are \$81.2 thousand and represent 70.36% of budget. In comparison to collections through August 2021, it is an increase of \$7.5 thousand (10.21%). The green and light blue bars in the chart to the right reflect the revenue that would have been allocated to the fund had the percentage not been modified. Taking the different allocation rates into consideration, the fund would have received \$29.2 thousand (56.07%) more in 2022 than 2020 had the allocation rate not been changed.

**Income Tax Collections
Capital Improvements Fund**

Expenditures – The Capital Improvements fund has a total appropriated expenditure budget for 2022 of approximately \$1.19 million. Total spending through August 31 was \$800.0 thousand and is equal to 67.50%

of the budget. Including encumbrances (e.g., purchase orders) of \$237.1 thousand in the total results in total spending equal to 87.50% of budget. Compared to the same eight-month period in 2021 (and excluding transfers), the total is up by \$713.6 thousand and is primarily due to increased spending in the Capital Outlay budget category.

As might be expected, spending on capital projects and equipment is the major expense category in the Capital Improvements fund. The 2022 budget in this category is \$1.11 million, (93.91% of budget), and provides funding for the construction of a number of infrastructure improvements. Spending through August 31 was \$764.7 thousand and represents 68.70% of the category's budget. The primary planned expenditures in this category are related to City Hall elevator improvements, Old Town Hall improvements and various park facility improvement projects. The list of projects included the following: (*asterisk indicates projects funded by prior-year carryover encumbrances)

Project Name	2022 Budget	Spent and/or Encumbered	Unspent or Uncommitted
Karr Park improvements*	\$1,779	\$1,779	\$0
Town Hall improvements and repairs*	40,510	10,510	30,000
Foundation Park parking lot expansion*	10,000	10,000	0
Red Rock pass-thru payment to the LC TID*	940,000	940,000	0
Municipal swimming pool pump replacement*	5,870	5,870	0
Elevator improvements at City Hall	85,000	0	85,000
Foundation Park maintenance garage improvements	20,000	20,000	0
Summit Road/Broad Street intersection improvements	10,000	0	10,000
GRAND TOTAL	\$1,113,158	\$988,158	\$125,000

Contractual services is another remaining major expense category in the general fund. The 2022 budget in this category is \$65.0 thousand (5.48% of budget) and provides for non-employee personal services, principally engineering and construction inspection services. Spending through August 31 was \$31.3 thousand, an increase of \$31.3 thousand (100%) from FY 2021. Including encumbrances of \$13.7 thousand in this category results in spending equal to 69.23% of budget. It is important to note that much of the spending in this category does not tend to follow a linear path; rather, it is typically disbursed in large 'chunks' to the vendors and consultants when the services are provided. We monitor this category closely

throughout the year to ensure that spending remains within the approved budget. The projects planned in this category for 2022 include the following:

Project Name	2022 Budget	Spent and/or Encumbered	Unspent or Uncommitted
Cable Road bridge engineering *	\$45,000	\$45,000	\$0
City Hall 2 nd floor carpet replacement	20,000	0	20,000
GRAND TOTAL	\$65,000	\$45,000	\$20,000

General Operating is the other expense category in the Capital Improvements fund. The 2022 budget in this category is \$7.2 thousand (0.60% of budget) and provides for other non-capital operating expenditures incurred by the fund. Spending through August 31 was \$4.0 thousand and represents 55.82% of the category's budget. Spending planned in this category in 2022 is for the payment of income tax collection fees and taxpayer refunds to RITA.

Project Name	2022 Budget	Spent and/or Encumbered	Unspent or Uncommitted
Income tax collection fees and taxpayer refunds	\$7,165	\$4,000	\$3,165
GRAND TOTAL	\$7,165	\$4,000	\$3,165

Fund Balance – The Capital Improvements fund is the primary capital fund account for the city from which expenses associated with the construction of infrastructure improvements and purchase of equipment are paid. Fund balance represents the accumulation of prior period revenues minus expenses and can be used in future periods to stabilize fluctuations in revenues or periods of greater than typical spending. Evaluating the fund balance, revenues, and expenses is a valuable exercise, in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

The fund ended 2021 with an unencumbered balance of \$1.34 million, which was down by \$26.4 thousand (1.93%) from FY 2020. The unencumbered balance equates to a reserve ratio equal to 343.55% of expenditures which is outstanding and provides the ability for the city to fund future projects (e.g., Parks, Streets, etc.). FY 2020 ended the year with an unencumbered balance of \$1.37 million, which was up by \$122.6 thousand (9.84%) from FY 2019. In comparison, the 2022 budget projects a year-end fund balance of \$1.35 million, which would equate to a reserve ratio equal to 113.61% of expenditures. The higher ratio at year-end 2022 is the result of the higher starting carryover balance and reduced spending planned from this fund during the year.

Water Operations Fund (601)

Revenue – The Water Operations fund's primary revenue sources are charges for service and other sources, and it has a 2022 revenue budget of approximately \$1.38 million. On a year to-date basis, the fund has been credited with total revenue of approximately \$936.6 thousand, which represents 67.77% of budget. The total revenue amount is up by \$21.4 thousand (2.33%) when compared to the same eight-month period in 2021.

**Water Fund Revenue
Budget by Source**

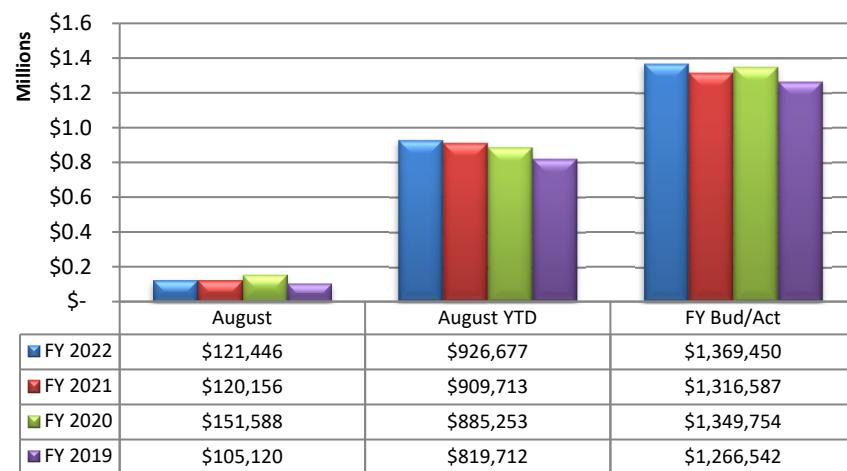

**Water Fund Revenue
Budget vs YTD Actual**

Charges for service represent the primary revenue category in this fund and are generated by water customer billings. Year to-date revenues credited to the fund are \$926.7 thousand, or 67.67% of budget.

Usage Fee Collections - Water Fund

In comparison, collections for the same eight-month period in 2021 were \$909.7 thousand and were about 69.10% of full-year collections. The rate in 2020 was 65.59%. The 2022 collections amount to date represents an increase of \$17.0 thousand (1.86%) in 2022 over collections in 2021.

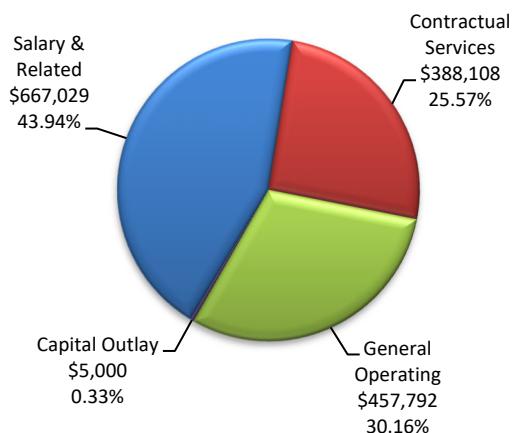

The other category, Other Sources has a 2022 budget of \$12.6 thousand. These revenues vary widely in nature

and are relatively insignificant to the total. To date, the city has received \$9.9 thousand and account for investment income, as well as any other miscellaneous non-usage related fees and charges.

Expenditures – The Water Operations fund has a total appropriated expenditure budget for 2022 of approximately \$1.52 million. Total spending through August 31 was approximately \$787.0 thousand, or 51.85% of budget. Including encumbrances (e.g., purchase orders) of \$360.6 thousand in the total results in total committed spending equal to 75.60% of budget. Compared to the same eight-month period in 2021

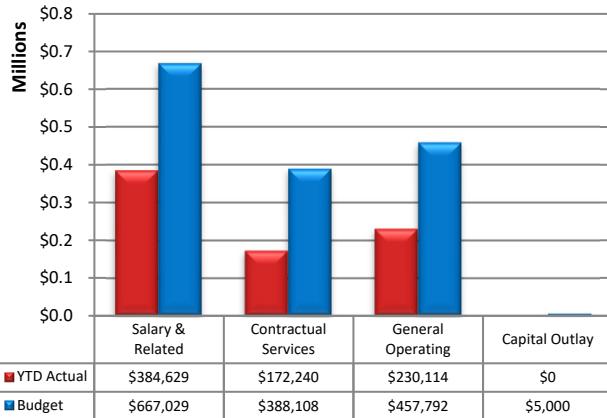

(and excluding transfers), the total is down by \$0.9 thousand (0.11%) and is due primarily to decreased spending in the General Operating and Capital Outlay budget categories.

Water Fund Expense Budget by Category

Water Fund Spending Budget vs YTD Actual

(excludes encumbrances)

Salaries, wages and other employee-related costs represent the largest expense category with a 2022 budget of \$667.0 thousand, or 43.94% of the fund's budget. Spending through August 31 was \$384.6 thousand and is equal to 57.66% of budget. The positive budget variance (\$60.1 thousand below budget) is the result of reduced funding of employee HRA accounts in 2022 and open positions. Spending in this category is up by \$5.8 thousand (1.53%) from the level in 2021 and is the result of planned wage increases and HRA funding.

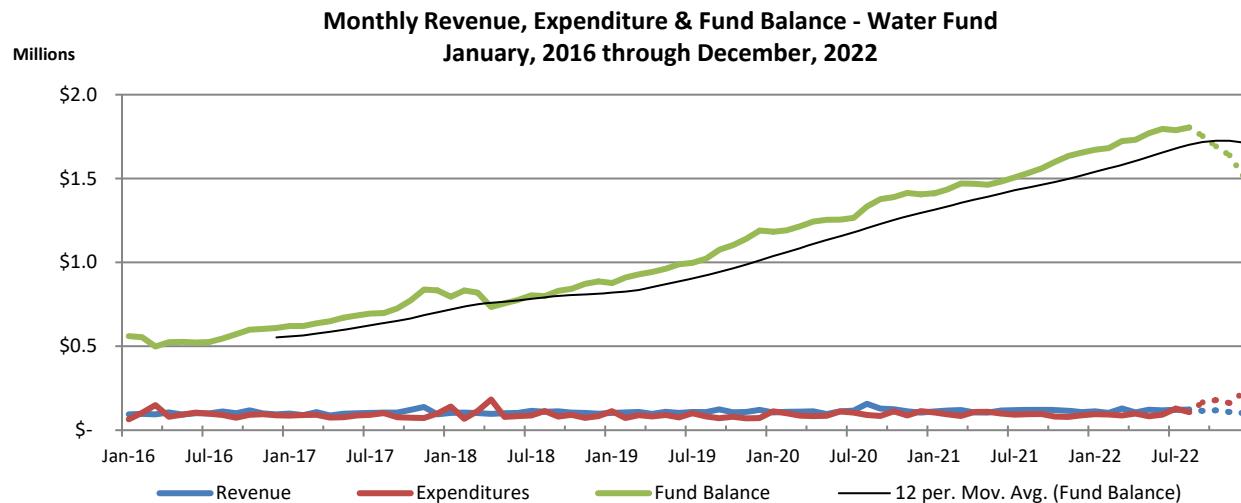

General operating expenses represent the other major expense category. It combines a number of other basic types of expenditures including operating supplies, equipment, utilities and other miscellaneous expenses. It has a 2022 budget of \$457.8 thousand, or 30.16% of the fund budget. Spending through August 31 was \$230.1 thousand, or 50.27% of budget. Including encumbrances of \$175.8 thousand in the calculation results in a total spending commitment of \$405.9 thousand, or 88.67% of budget. Many of these 2022 purchase orders encumber full-year spending and have the effect of overstating the impact of the encumbrances. Spending in this category is down by \$8.1 thousand (3.41%) when compared to the same eight-month period in 2021 and is due to reduced purchase/maintenance of equipment (down \$1.6 thousand) and reduced spending on supplies, materials and other miscellaneous expenses (down \$11.4 thousand); partially offset by increased utility usage (up \$4.9 thousand).

The approved 2022 budget in the Water Operations fund does not provide for an interfund transfer to the Water Debt Service (604) fund to assist in meeting the department's debt service financial obligations. The last time this was required was in 2018. Prior to that, the operating budgets did not provide for any interfund transfers during the previous two years (2016 and 2017).

Fund Balance – The Water Operations fund is the primary operating account for the city from which expenses associated with the operation of the city's water treatment and distribution operations are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues, or during periods of greater than typical spending. Evaluating the fund balance (and the corresponding revenues and expenses) is a valuable exercise in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate

resources to pay future expenses?).

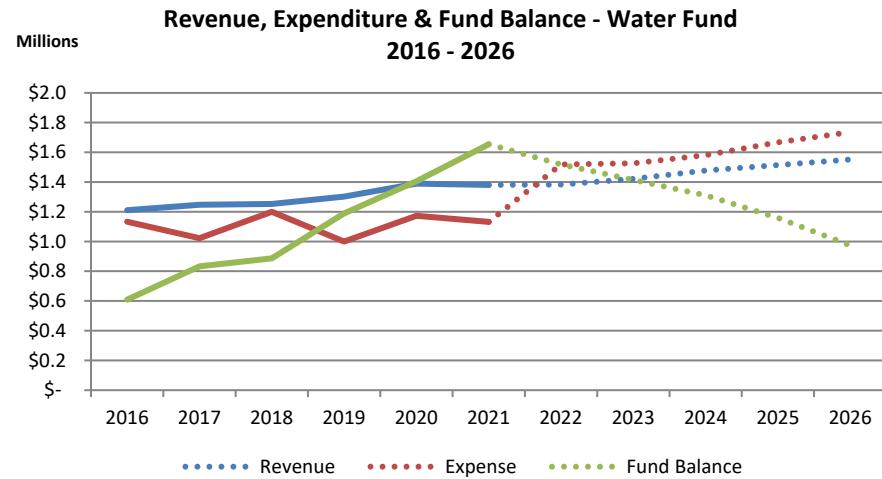

The chart below plots revenue, expenditures and fund balance since January 2016. The solid color lines represent actual numbers, and the dotted lines represent projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs and provide a smoothed trend of the fund balance over the time horizon of the chart.

The fund ended 2021 with an unencumbered fund balance of \$1.54 million, which was \$299.3 thousand (24.11%) higher than year-end 2020 and was equal to 90.59% of FY 2021 spending. The fund ended 2020 with an unencumbered fund balance of \$1.24 million, an increase of \$234.7 thousand (23.32%) from year-end 2019. In contrast, the FY 2022 budget projects a year-end fund balance of \$1.52 million, which would equate to a reserve ratio equal to 100.03% of expenditures.

As you can see from the chart above, the balance in the Water Utility fund has been fluctuating between \$499 thousand and \$1.72 million. The trend line illustrates that the overall trend, however, is that the fund balance is a gradual increase in fund balance over the 5-year period. The April 2018 spike in spending is the result of transfers to the water debt service (604) fund. Except for that anomaly, revenues have generally been in excess of expenditures resulting in the trend line to be positively sloped.

During 2020, the year-end balance in the fund increased to approximately \$1.41 million, and it increased to \$1.65 million at year-end 2021. From 2022 through 2026, however, the fund balance is expected to decline by \$135.9 thousand (8.21%) to \$973.6 thousand at the end of FY 2026 (see chart above) which would equal a reserve ratio of 56.07%. This chart has been updated with the approved 2022 budget data through 2026.

Sewer Operations Fund (651)

Revenue – The Sewer Operations fund's primary revenue sources are charges for service and other sources, and the fund has a 2022 revenue budget of approximately \$1.70 million. On a year-to-date basis, the fund has been credited with total revenue of approximately \$1.13 million, which represents 66.43% of budget. The total is up by \$55.8 thousand (5.20%) from the same eight-month period in 2021.

Sewer Fund Revenue Budget by Source

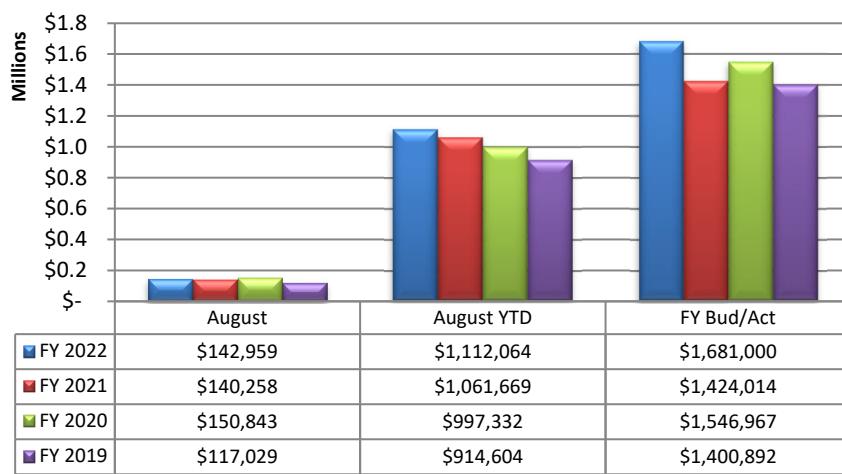

Sewer Fund Revenue Budget vs YTD Actual

Charges for service represent the primary revenue category in this fund and have a 2022 budget of approximately \$1.68 million (98.91% of budget). Year-to-date revenues credited to the fund are

approximately \$1.11 million, or 66.15% of budget. In comparison, collections for the same eight-month period in 2021 were \$1.06 million, an increase of \$50.4 thousand (4.75%) in 2022 over 2021 collections.

Usage Fee Collections - Sewer Fund

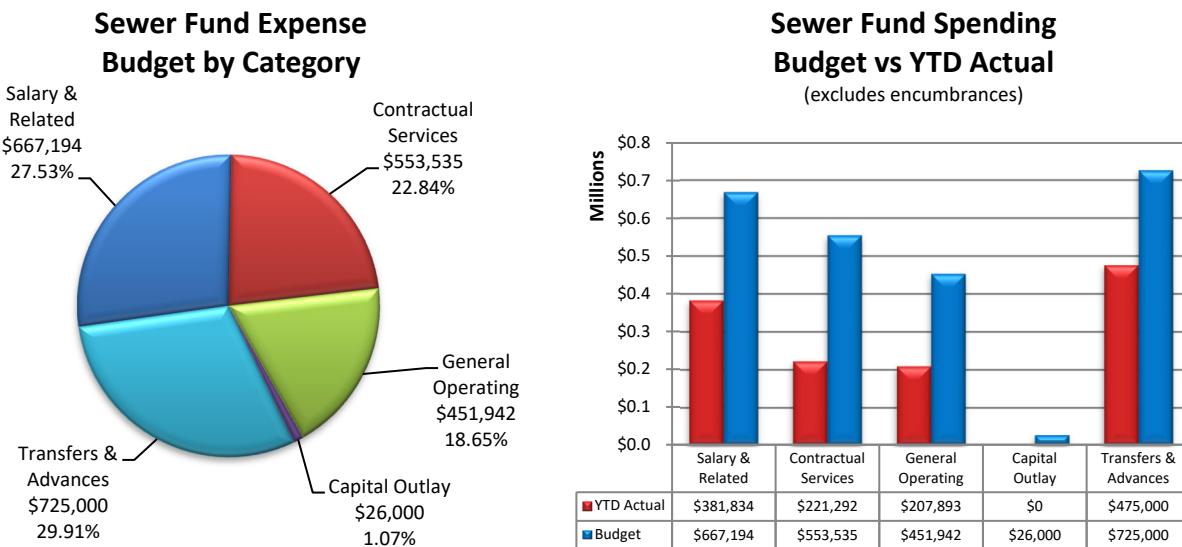

The other revenue category, Other Sources, has a 2022 budget of \$18.5 thousand. These revenues can vary widely and are not material to the total. To date, the city has

received \$16.9 thousand, which is \$5.4 thousand (46.83%) higher than FY 2021. The revenues account for investment income, as well as any other miscellaneous non-usage related fees and charges.

Expenditures – The Sewer Operations fund has a total appropriated expenditure budget for 2022 of approximately \$2.42 million. Total spending through August 31 was approximately \$1.29 million, or 53.06% of budget. This amount is overstated, however, due to interfund transfers of \$475.0 thousand being processed in January. Excluding these transfers from the calculation results in spending equal to 47.74% of budget. Including encumbrances (e.g., purchase orders) of \$373.1 thousand in the total results in total

committed spending equal to 69.71% of budget. Compared to the same eight-month period in 2021 (and excluding transfers), the total is up by \$2.8 thousand (0.34%) and is due primarily to increased spending in the Salary & Related and General Operating budget categories; partially offset by decreased spending in the Contractual Services and Capital Outlay budget categories.

For 2022, the largest expense budget category (other than Transfers & Advances) for the Sewer fund is salaries, wages and other employee-related costs with a budget of \$667.2 thousand, or 27.53% of the total fund budget. Spending through August 31 was \$381.8 thousand, or 57.23% of budget. The positive budget variance (\$63.0 thousand below budget) is primarily the result of the reduced funding of employee HRA accounts in 2022 and open positions. Spending in this category is up by \$8.9 thousand (2.38%) from the level in 2021 and is primarily the result of increased wages and employee HRA funding.

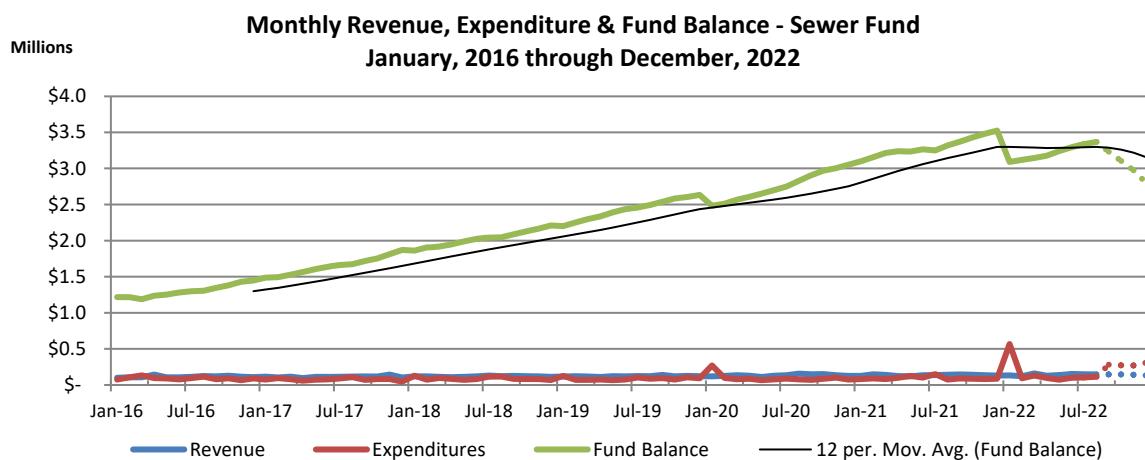

Contractual Services is the next major expense category in the Sewer fund. The 2022 budget in this category is \$553.5 thousand (22.84% of budget) and provides for non-employee personal services. Spending through August 31 is \$221.3 thousand (39.98% of budget). Including encumbrances (e.g. purchase orders) in the total, results in a finding that 76.04% of the budget has been either spent or committed to be spent. It is important to note that much of the spending in this category does not tend to follow a linear path; rather, it is typically disbursed in large ‘chunks’ to the vendors and consultants when the services are provided. We regularly monitored this category closely during 2021 to ensure that spending remained within the approved budget and will continue to do so in 2022.

General operating expenditures represent another major expense category. It combines a number of other basic types of expenditures including operating supplies, equipment, utilities and other miscellaneous expenses. It has a 2022 budget of \$451.9 thousand, or 18.65% of the fund budget. Spending through August 31 was \$207.9 thousand, or 46.0% of budget. Including encumbrances (e.g., purchase orders) of \$99.9 thousand in the total results in a spending ratio of 68.10% of budget. Many of these 2022 purchase orders encumber full-year spending and have the effect of overstating the impact of the encumbrances. Compared to the same eight-month period in 2021, spending in this category is up by \$88.8 thousand, or 74.55%.

The approved 2022 budget included total interfund transfers of \$725.0 thousand. Of that total, \$475,000 is being transferred to the Sewer Debt Service (654) fund to meet the department’s obligations on the system’s portion of the outstanding utility-related debt. This was a significant change as there weren’t any

authorized interfund transfers in 2016 through 2019 for debt service funding support. The remaining \$300,000 in transfers are to be transferred to the Sewer OPWC fund for local match funding.

Fund Balance – The Sewer Operations fund is the primary operating account for the city from which expenses associated with the operation of the city's wastewater treatment operations are paid. Fund balance represents the accumulation of prior period revenues minus expenses. The fund balance can be used in future periods to stabilize fluctuations in revenues, or during periods of greater than typical spending. Evaluating the fund balance (and the corresponding revenues and expenses) is a valuable exercise in that it provides insight as to trend (increasing or decreasing) and capacity (will the fund have adequate resources to pay future expenses?).

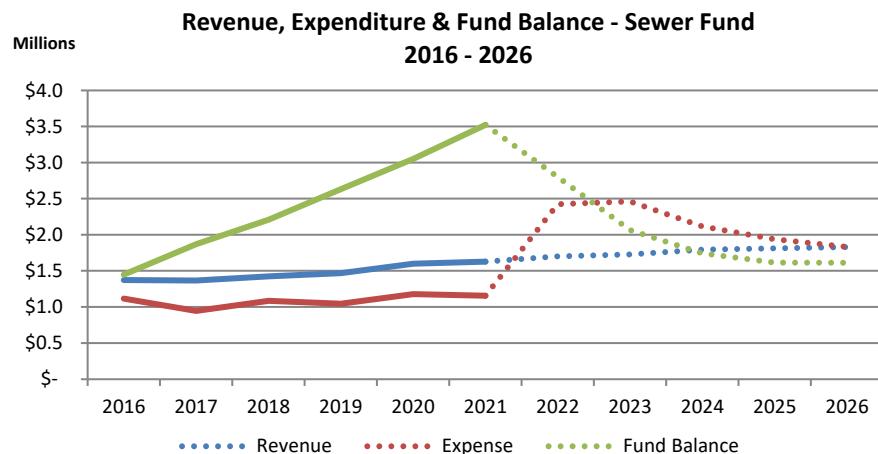

The chart above plots revenue, expenditures and fund balance since January 2016. The solid color lines represent actual numbers, and the dotted lines represent projections for the rest of the year. A trend line has also been added to the chart to smooth out the periodic ups and downs and provide a smoothed trend of the fund balance over the time horizon of the chart.

The fund ended 2021 with an unencumbered fund balance of \$3.38 million, which was \$653.2 thousand (23.96%) higher than year-end 2020 and was equal to 126.6% of FY 2021 spending (including carry over encumbrances). The fund ended 2020 with an unencumbered fund balance of \$2.73 million, an increase of \$310.1 thousand (12.84%) from 2019. In contrast, the FY 2022 budget is projected to decline by \$724.2 thousand (20.55%) to a year-end fund balance of \$2.80 million, which equates to a reserve ratio equal to 115.53% of expenditures.

As you can see from the chart above, the balance in the Sewer Operations fund has been increasing consistently from 2016 through 2021. Revenues have tracked closely to, or exceeded, revenues over the years covered by the graph, resulting in an upward sloping fund balance.

Based upon current estimates of revenues and expenditures,

the current projections call for the fund balance to decline gradually every year after over the next five years (see chart at the bottom of the previous page), with expenditures generally exceeding revenues. The fund is projected to end 2026 with a fund balance of \$1.61 million, or a ratio of 88.05%. This chart has been updated with the approved 2022 budget data through 2026.

IntraFi® Network Deposits™ Monthly Statement

Demand or Savings Option (formerly known as ICS®)

The following information is a summary of activity in your account(s) for the month of August 2022 and the list of FDIC-insured institution(s) that hold your deposits as of the date indicated. These deposits have been placed by us, as your agent and custodian, in deposit accounts through IntraFi Network Deposits. Funds in your deposit accounts at the FDIC-insured institutions at which your funds have been placed will be "deposits," as defined by federal law.
