Alexander Smiley

Greetings,

I am new resident to our lovely city here in central Ohio, and I have always felt it is important to be an active part of the community you live in. I hope to be able to do this by joining our local planning and zoning commission.

I understand how important such a role is in a growing community. It requires an understanding of the long-term goals and desires of the residents, as well as being able to facilitate the opportunities of both new and present businesses, in way that allows for the success and growth of everyone involved, which is no easy task. I work daily with people from all around the world on projects and processes which affect the lives of hundreds if not thousands of people. Our goal is always to improve and provide tools and experiences which are positive to the people affected.

I believe I can do this for our community as well and ask that you would consider my application for a position on the Planning and Zoning Commission.

Sincerely,
Alex Smiley
