

**City of Pataskala Utility Department**  
**Nathan W. Coey, Utility Director**

---

➤ **Director Update**

- The River Forest Lift Station Project is scheduled to start the week of April 10<sup>th</sup>.
- The OEPA annual facility inspection is scheduled for April 7<sup>th</sup> at the WRF.

➤ **Water Department**

- The new WTP1 automatic transfer switch has been installed and system back to normal.
- A failed level transducer controller was replaced on a Saturday morning after notification from residents at Pataskala Ridge. The failed controller caused one of the iron filters at WTP1 to over flow.

➤ **Water Reclamation Department**

- Land application of biosolids is planned for April/May for beneficial reuse.
- The staff is working on installation work for the polishing pond aeration system.

➤ **Billing Department Update**

- We received budgetary information on a bill pay kiosk. This option is being considered in the event the department relocates to the old town hall. This option would be similar to an 'ATM' unit for payment at ground level. This provides the possibility of being accessible from a customer's vehicle.

Highest Regards, Nathan W. Coey, Utility Director
