

**City of Pataskala Utility Department  
Nathan W. Coey, Utility Director**

---

➤ **Director Update**

- We continue to meet with the SWLWSD regarding cooperative efforts.
- I am working with our contractor to set a start date for the River Forest Project.

➤ **Water Department**

- **OEPA Service Line Mapping Program.** As a result of changes to the OEPA 'Lead and Copper Rule' we were required to complete two tasks.
  - Create a data base with information for our annual lead and copper testing sites.
  - Create a system map indicating the known service lines with color codes.

➤ **Water Reclamation Department**

- We have activated the south polishing pond at the WRF in efforts to test the phosphorus removal efficiency. We will continue to monitor results and continue to communicate with the OEPA on this internal study.
- A portable truck scale was purchased for our Biosolids Program. This will allow for us to track and weigh on site for OEPA reporting.

➤ **Billing Department Update**

- A notice of the published 2016 Water Quality Report will be included in the March due bills. We are able to provide a website link to the customers and print copies are available on request. Confirmation has been sent to the OEPA as required.

Highest Regards, Nathan W. Coey, Utility Director
