ZONING MAP DISCREPANCIES

October 5, 2016

The Planning and Zoning Department has begun the process of updating and correcting the Zoning Map. During this process, staff has come across several instances of properties having two zoning classifications on the same property. Examples of such instances are below.

Staff is currently researching the appropriate way to address these issues with the Law Director. Ultimately these properties will need to be formally rezoned through the process outlined in Chapter 1217 of the Pataskala Code. Staff is seeking support from the Planning and Zoning Commission to pursue the correction of these discrepancies.
