Walther asked if this had about the same size lots and dwellings that the previous rezoning request had. Mr. Fulton indicated that it did.

Barstow inquired about the property to the south. Mr. Fulton explained that was zoned General Business and was not part of the development.

Council inquired if this was turned down if the second entrance would still go in. Mr. Fulton explained the staff would recommend to the Planning Commission that it be installed.

Lee inquired if the property would still be developed if this rezoning was turned down. Mr. Fulton explained the approval of the plan was conditional on this rezoning.

Public Comments:

Tobias Houpe addressed City Council about his traffic and safety concerns. He suggested cul-de-sacks be constructed to limit access from the other subdivision.

Connie Klema representative for the applicant also gave a review of the rezoning application.

Walther asked if the connective path was always planned for there. Ms. Klema indicated it was. Ms. Klema also explained that the southern part of the development would be developed first and that the stub roads would not be connected until the subdivision was nearly completed. Construction traffic would come in through the second entrance.

Hickin inquired if any of the other adjacent property was planned for development. Ms. Klema explained that it was not.

Powell inquired if the rezoning was turned down would the northern part still be developed. Ms. Klema explained they were still hopeful it would be approved and that they are committed to following through as agreed to with the Planning and Zoning Commission.

Barstow inquired if the property to the south would also be developed as housing at a later date. Ms. Klema explained they did not have that under contract and it was currently zoned General Business.

Hickin asked if there were any plans to develop the other vacant land into a subdivision. Ms. Klema was not aware of any plans to do that.
