Re: Utility Rate Structure

Dear Valued Customer:

On July 1, 2019, the City Council voted to approve Ordinance 2019-4342 to revise the current water and sewer rate structure. The new rate structure will be implemented on January 1, 2020. Due to our billing process, these rates will not be seen by the customer until the bill that is due in March of 2020.

The passing of this Ordinance allows for a **5% increase to the water consumption rate** and an **8% increase to the sewer consumption rate** on January 1, 2020, 2022 and 2024. The CIP rate for both water and sewer will remain unchanged.

The actual dollar amount increases per month are shown below, based on a usage of 3,000 gallons.

2020	\$0.66	\$1.83	\$2.49

2024	\$0.75	\$2.13	\$2.88
5 Year Total	\$2.13	\$5.94	\$8.07
