➤ **FEMA FIRM Update**

- FEMA has released updated preliminary Flood Insurance Rate Maps (FIRM) for Licking County that include portions of Pataskala.

An issue with Sycamore Creek arose wherein the floodway was mapped with a standard 1 foot rise, however Licking County has a higher standard for mapping the floodway at a 0.1 foot rise. Since Licking has that standard, FEMA Region V has been working with Licking County to determine a path forward.

- This assessment will determine the efficiency of existing CRA areas and determine if they should be expanded, retracted, or otherwise adjusted.
- Staff has completed the CRA Process Guide so that all parties (Council, Administration and the Company) are on the same page and know what to expect when navigating the CRA process. It is designed to be policy, rather than legislation, so that it can remain flexible.
- Staff and Montrose are working on the creation of a CRA for the northwest "innovation" district as outlined in the Comprehensive Plan.

Staff is in the process of identifying parcels to be included for review by Mr. Schwallie.
- Staff contacted Dennis Schwallie to determine interest and cost of preparing the TIF. Mr. Schwallie indicated that he would need to know the number of parcels to be included in the TIF before a cost estimate could be provided.
- Staff contacted Connie Klema, who represents the Coughlin properties on the corner of Summit, to see if there was interest in contributing to the cost of the TIF. This was done at the request of the Development Committee. Ms. Klema indicated she would need to know the cost first.
- Staff spoke with Mr. Schwallie on October 8, 2020 and is continuing to move forward on the establishment of the TIF.
