

Council Report
City of Pataskala Utility Department
Trent Howell, Utility Director

➤ **New Items**

• **New Operational Updates**

- Creek Rd. Force Main Upgrade
 - On August 22nd Strand held a non-mandatory pre-bid on site walk-through meeting which two contractors attended and asked several questions. At the time of the walk-through there were three plan holders for the project.
 - Bid opening for this project will be September 12th.
- CA for the Creek Rd. Force Main Upgrade
 - We are in the process of getting a scope and price for the CA portion of this project which I will bring to Utility Committee.
- Meter reading
 - Meter reading will take place on September 1st.
- Leaks
 - The water service line was replaced for 1131 Deansway Drive.
 - The water service line was replaced for 1325 Harold Stewart Parkway.
- Field Tech 1 Position
 - This posting closed with a total of 4 applicants.
 - All 4 applicants were approved to be interviewed by the PBR board.
 - Interviews for this position will take place after the new Utility Systems Superintendent starts.
- Fire Hydrant Painting
 - I received an email from Iva O’Ryan with Licking Hights High School. Iva supervises a community service project for the school, organizing kids to paint fire hydrants for the Utility Department. This project has been running for a few years, and is working very well. The Utility Department is very grateful for all the time and effort that Iva and the students put into this project.

Ongoing Items

• Water Reclamation Facility

- Daily Operations
 - The operators maintain exceptional daily operations of the WRF, 24 hours a day, 7 days a week. They consistently do an outstanding job of turning the City's wastewater into clean, safe water that is discharged into the South Fork of the Licking River
- WRF Upgrade
 - Waiting on the blowers to be delivered
 - Design for the blowers is currently taking place.
- COVID-19 Wastewater Testing
 - Pataskala Utility Department was selected to participate in the COVID-19 wastewater testing program.
 - This program looks for the virus RNA in the waste stream, giving a more accurate and nearly real-time representation of the infection rate of the community that we serve.
 - The results of the COVID-19 wastewater testing are currently being posted to the Ohio Corona Virus dashboard found here:
<https://coronavirus.ohio.gov/wps/portal/gov/covid-19/dashboards/wastewater>
 - The Utility Department will continue to participate in this program as long as it continues to be fully funded by the State.

• Water Treatment Plants

- Daily Operations
 - The operators maintain exceptional daily operations of both Water Treatment Plants, 24 hours a day, 7 days a week. They consistently do an outstanding job of providing the City's customers with clean, safe water that meets or exceeds the requirements from the OEPA.
- Water Plant 1 Iron Filter 2
 - There is a small leak somewhere along the bottom of one of the iron filter tanks at WTP1. Repair will require removal and replacement of the filter media, structural repairs, and recoating of the filter tank surface.
 - The repair crew came out on Jan 11 to analyze the leak and see if repairs can be made. That analysis was not yet completed at

the time of this report. Updates will be provided to the council at a later date.

- 2023 EPA Testing for Lead and Copper
 - The annual testing for Lead and Copper has begun. The treatment team has a pre-selected list of addresses based on age of the home as well as other factors, that make them eligible to be sampled for Lead and Copper. 20 homes in total will be sampled. As of the end of June, 5 samples have been collected and the team hopes to have all samples collected by the end of July.

- **Distribution and Collection System**

- Daily Operations
 - The systems team maintains exceptional daily operations of the entire distribution and collections system, 24 hours a day, 7 days a week. They consistently do an outstanding job of providing customer service to the residents, maintaining the city's infrastructure, and responding to emergencies of various types.
- Sewer Lining Project
 - The sewer lining project has been completed. The project utilized OPWC and House Bill 168 funding to help complete the project.
 - Visu Sewer and United Survey contractors for this project, both did a great job and have been great to work with.
- SCADA Prop Study
 - The study on the effectiveness of our SCADA radio system is complete. J&K Communications is currently reviewing the data to make a proposal for us to upgrade that outdated system.
- Leaks
 - The water service line was replaced for 1131 Deansway Drive.
 - The water service line was replaced for 1325 Harold Stewart Parkway.
- Fire Hydrant Painting
 - I received an email from Iva O'Ryan with Licking Hights High School. Iva supervises a community service project for the school, organizing kids to paint fire hydrants for the Utility Department. This project has been running for a few years, and is working very well. The Utility Department is very grateful for all the time and effort that Iva and the students put into this project.

- **Billing Team**

- Daily Operations

- The billing team does an exceptional job of processing the payments for water and sewer service, scheduling the service work that needs done as well as providing excellent customer service 8 hours a day, 5 days a week.

- Meter reading

- Meter reading will take place on September 1st.

- **Director**

- WRF Expansion

- Until the WRF permit is expanded, we will not be able to provide sewer service for any additional significant development projects within the Pataskala Utility Department sewer service area.

- This excludes developments who are already in the process.

- The permit expansion request was submitted to the EPA on May 19th.

- We expect there to be a 6-month review period by the
 - EPA.

- Creek Rd. Force Main Upgrade

- On August 22nd Strand held a non-mandatory pre-bid on site walk-through meeting which two contractors attended and asked several questions. At the time of the walk-through there were three plan holders for the project.

- Bid opening for this project will be September 12th.

- CA for the Creek Rd. Force Main Upgrade

- We are in the process of getting a scope and price for the CA portion of this project which I will bring to Utility Committee.

- Field Tech 1 Position

- This posting closed with a total of 4 applicants.

- All 4 applicants were approved to be interviewed by the PBR board.

- Interviews for this position will take place after the new Utility Systems Superintendent starts.

- Safety Program

- The department requires two safety meetings each month.

- One is done at the team level by the Superintendents covering general safety issues.

- The second is done with the entire staff.
 - Each month, a different member of the department will lead this training.

Respectfully submitted,

Trent Howell
