AGRICULTURAL PROTECTION DISTRICT REPORT

March 18, 2024

Background

An Agricultural District provides protection for farmers against nuisance lawsuits, defer expensive development assessments until the land is changed to a non-agriculture use, and offers state scrutiny of local eminent domain acquisitions in certain cases. Placing property in an Agricultural District allows a farm to continue to operate without incurring unreasonable pressures from urbanization.

To qualify, the land must be in agricultural production and be comprised of tracts, lots or parcels that are at least 10 acres in size or have generated an average gross income of at least \$2,500 during the past three years.

When the property is located within the boundaries of a municipal corporation, a public hearing must be held by the municipal council to consider the appropriateness of authorizing or renewing the Agricultural District designation. It must be determined that Agricultural District designation would not present a substantial adverse effect on the provision of municipal services, efficient use of land, orderly growth and development of the municipal corporation or the public health, safety or welfare.
